

HUMBER BRIDGE, LAKE SHORE ROAD, TORONTO, EAST ABUTMENT.

BRIDGE CONSTRUCTION IN TORONTO

The city of Toronto has recently completed several new bridges of considerable importance. These include bridges over the Humber river and over the Don river at Eastern avenue and King streets. On this page is presented an east abutment of the Humber bridge, and in succeeding issues illustrations will be given of the bridges over the Don river, some of which will show in an interesting manner the work in process of construction. The illustrations are reproduced from the annual report of the city engineer.
