

FOREIGN INTELLIGENCE.

FRANCE.

Jan 26.—A special cable despatch says Thiers is endeavouring to secure the complete evacuation of France by the German troops.

The Bonapartist agents are very active in the army. They are distributing pamphlets, urging the restoration of the Empire as the cure of all the woes of France.

A new national federation on a Communist basis is organizing in Paris.

A protest against the pending education bill, signed by 71 bishops, has been sent to the Assembly.

The Pope has sent a letter to the conductors of the Monde, approving their resolution to discontinue all Sunday work in connection with that journal.

PARIS, JAN. 6.—The Parisian Press Union, which, as your readers will remember, consisted at its formation of upwards of 20 journals, carried the seeds of dissolution within itself.

I am anxious to put all this carefully on record now, because when the Commune or the Empire come again, the Party of Order will say that it is somebody else's fault.

The "Incident Dupanloup" has excited far more interest during the past week than the Paris elections, and is not yet exhausted.

PIEDMONT.—THE COST OF REVOLUTION.—Spain knows something of what revolution costs; France knows still more; while Italy can boast of even a deeper experience.

though it is only to be expected that boldness and vehemence and independence should be hated and condemned by the timid and weak and servile.

From the following article it will appear that one of the best and most serious preachers of the Paris Press is the Figaro, which expresses itself more strongly than I have ventured to do.

England has faith in Royalty, but without self-humiliation before it. It regards it, to use the expressions of The Times, in commenting upon and admiring this letter, as an instrument of the happiness and liberty which the English nation enjoys.

MADRID, Jan. 26.—In the Spanish Cortes, Dias said it was quite time to cede Cuba to the United States.

A stormy scene followed the reading of the decree of dissolution in the Cortes. The surprised members were unable to conceal their indignation.

ITALY.—The census of Rome has been completed. The population is 240,000.

for the extreme lightness of their taxation as compared with England and other countries, while the States of the Church were, in this respect, amongst the most favoured.

THE GOVERNMENT AND THE POPE.—It is stated on good authority that the advisers of Victor Emmanuel have adopted a line of policy which they think will ensure the departure of the Pope from Rome.

Fearful of being ejected from power, in favour of M. Rattazzi, before sharing the spoils of the Religious institutions of Rome, the Italian Ministry has resolved to proceed wholesale with the work of expropriation.

DEATH OF A GARIBALDIAN.—One of the leading supporters of Garibaldi has just died. On the approach of death, he asked the assistance of a priest; and was attended by one of the Jesuits attached to the Civita Catholica.

ROME.—From the windows of the Vatican the Holy Father looks out upon a city that remains faithful to him, although it is under the heel of a foreign soldiery.

JUSTICE IN ROME.—The prisons in Rome are overcrowded, and grave complaints are made concerning the tardy administration of justice, or its semblance.

GERMANY.—The hostility displayed by the authorities of the new Empire has at length succeeded in rousing the Catholics of Germany to a sense of the dangers which their liberties will run if they do not promptly take advantage of the safeguards still afforded by the Constitution.

representative assembly of United Germany, and United Germany numbers 25,000,000 non-Catholics to 15,000,000 Catholics.

The lengths to which Prince Bismarck's creatures are prepared to go, have been sufficiently evinced in the insulting and iniquitous law for the arbitrary imprisonment of clergymen obnoxious to the authorities.

FRENCH AND GERMAN ARMIES OF OCCUPATION.—The Berlin National Zeitung, in a recent article on the French reply to Prince Bismarck's late despatch, in which reply the French Minister for Foreign Affairs accuses the German Press of fanning the flame of the French animosity against Germany.

EXCOMMUNICATION OF FROBSCHAMMER.—We are informed by a "Lombard" telegram from Munich that the Archbishop has formally pronounced the sentence of excommunication upon Professor Frobschammer.

PRUSSIA DESERTING THE OLD CATHOLICS.—The Court of Berlin has already, it is said, repented of the support it was induced to render to the so-called Old Catholic movement.

FAILURE OF THE ANTI-CATHOLIC WAR IN GERMANY.—The recent legislation adopted by the Reichstag, for the purpose of injuring Catholicity, is having a very different effect.

CHARLESTON, S. C., Jan. 23.—A desperate shooting affray occurred here last evening under the following circumstances:—During the war, the lands of John Clarkson, a wealthy Virginian, were sold for taxes.

A good instance of "sharp practice" is that of a man in Ohio, who was acquitted of murder on a plea of insanity. He had secured his lawyers by giving them a mortgage on his farm, but now repudiates the mortgage on the ground that he was insane when he made it.

HORSE-SHOING.—The operation of shoeing horses should be performed every third or fourth week according as the hoof may be active in its growth, or otherwise.

is far better to have a new set than to re-apply the old ones. It is impossible to re-adjust the old shoes to the feet with sufficient accuracy.

When the horse is judiciously and suitably shod he will go with ease and comfort immediately after he has come from the forge.

The old shoes should be removed from the feet with great care, after the clenches have been cut.

Content converts every thing near it to the highest perfection it is capable of. It irradiates every metal, and enriches lead with the properties of gold.

For several months past I have used Fells Compound Syrup of Hypophosphites in the treatment of Incipient Phthisis, Chronic Bronchitis, and other affections of the Chests, and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases.
