 DIAN ILLUSTRATED NEWS.

NEW AMERICAN CYCLOPEDIA.
 EDITED BY GEO. RIPLEY and CHAS. A. DANA,
 aided by a numerous select corps of writers in all
 branches of Science, Art and Literature, published by
 D. Appleton and Co., in 16 vol. royal octavo, double
 columns. This work is just completed.

The New American Cyclopaedia presents a panoramic
 view of all human knowledge as it exists at the present
 moment. It embraces and popularizes every subject
 that can be thought of. In its successive volumes is
 contained an inexhaustible fund of accurate and practical
 information on Art and Science, in all their
 branches, including Mechanics, Mathematics, Astron-
 omy, Philosophy, Chemistry, and Physiology; on Agri-
 culture, Commerce and Manufactures; on Law, Medi-
 cine and Theology; on Biography and History, Geog-
 raphy and Ethnology; on Political Economy, the
 Trades, Inventions, Politics, the Things of Common
 Life, and General Literature. Sold only to subscribers.

W. M. ORR, Agent,
 Carlisle P. O., C. W.

P. S.—Works of any kind will be promptly forwarded
 on addressing me at Carlisle post office, C. W.

J. G. BEARD & SONS,
CANADIAN STOVE WORKS

OFFICE, 118, KING STREET EAST, TORONTO, C. W.

DURING the past few months a considerable impetus has been given to the trade in Stoves by the opening of the new manufactory of J. G. Beard & Sons, corner of Queen and Victoria streets, a manufactory that promises soon to rival in extent and variety of production the largest, in Troy, N. Y., the chief depot of the Stove trade in the United States. Messrs. Beard have now in their employ some of the best artisans of their kind in the country, and all the machinery required for the casting of Stoves is of the very best description. They are therefore enabled to turn out superior articles, which for style and finish are unsurpassed by the productions of any singular manufactory in the Province. The castings are all smooth, perfect and beautifully finished. The specimens shown at the Exhibition held in Toronto last year were very much admired. They were not a whit better, however, than others that can be seen any day at their sale-rooms on King street, for the Messrs. Beard have resolved that the workmanship on all shall be equally good. The "Steward" Cooking Stove which they now manufacture is an article of which they are justly proud. It possesses many merits, not the least of which is a great deal of work with a small quantity of fuel, a consideration in all households, in view of the present high price of coal and wood. We know of no better place to refer those who require really good stoves than to the establishment of this enterprising firm.

TORONTO, May 30, 1863.

BROOKES' FUNNEL MEASURE.

The engravings show an ingenious apparatus for Measuring Liquids, lately patented by Mr. THOMAS BROOKES.

Fig. 1, on right, is a gallon measure with three legs, two being portable, the third forming the spout; a piece of glass with figures on either side shows the quantity of liquid contained, while the small handle at the top, by being pressed, opens a valve at the bottom which allows it to pass through.

Fig. 2, on left, is the same kind of apparatus, the valve being opened by pulling the handle. By this contrivance the merchant may possess a Measure and Funnel combined which will save him considerable expense and avoid of trouble and annoyance.

The articles may be obtained from Mr. THOMAS BROOKES, 27 King street, Toronto, and from his authorized Agents.
 Toronto, May 30, 1863.
