FIRST PEACHES ON LOCAL MARKET

Shipment From St. Catharines
Marked Opening of Niagara District Season.

Activity in peaches marked the business on the Toronto fruit market yesterday. The first half-basket of twenty specimens from St. Catharines put in its appearance. It was shipped to Montreal and Toronto by W. A. Lister, and R. Vince, a fruit retailer at 192 West Queen street, got it for fifty cents. "If I sell it for forty cents I will do well. But it makes a very fine advertisement to have the first basket," said Vince. The first car of Ontario peaches also came in yesterday. They are packed in six-basket crates, and are fine-looking fruit.

Canadian tomatoes were in bigger quantity than has been the case for some time. American tomatoes and onions show no change.

Yesterday's fruit and vegetable quotations were as follows: Raspberries, 10c to 18c per box; gooseberries, per basket, 75c to \$1; Canadian tomatoes, No. 1, per basket, \$1.75; No. 2, \$1.25; American tomatoes, \$1.50; potatoes, \$3.50 a barrel; Canadian, 40c a basket; peas, per basket, 40c to 45c; beans, 75c to 90c; cucumbers, \$1.25 to \$1.50; beets, 40c; green apples, 25c to 35c; green peppers, \$1; American cucumbers, 90c to \$1.25; the basket; Indian cantaloupes (in baskets averaging 15), \$1.55; Georgia peaches, per six-basket crate, \$3.50 to \$4.50; California fruit: Peaches, per case, \$1.25 to \$2; pears, \$1.50; plums, \$1.50 to \$1.75; cantaloupes (case of 45), \$4.50.

Observation Training

The training of a child's observation is as great a pleasure as it is a privilege and duty. Every normal child responds willingly to intelligent training of the faculty to observe. It is, indeed, a natural part of the mother's everyday life with the child. She points out what things are, explains their use, and where and how to find them. She calls the child's attention to facts about an interesting object and in all these ways and many others she helps make the child observant.

Perhaps the very best method, the often the least used, is to talk about nature subjects when the kiddies and you are enjoying a walk. Train them to see the changes in birds in trees in flowers, in the appearance of the sky, in the thousand different things that change with the season; and you will find yourself learning many things about yourself your babies and your world.

If You Only Had Had This Iron Yesterday

What a difference it would have made!
You would have escaped all the arm-aching, nerve-straining drudgery that under-ordinary conditions makes ironing one of the most dreaded of household tasks.

Therapists introduction of Electric Irons during the past few years has made this a thing of the past in thousands of Canadian homes. It is well within the mark to say that no other household improvement within recent years is being so widely and generally adopted. In fact many are putting in electric service just to use electric ironing. No electrically lighted home is complete without an Electric Iron. Its freedom from flame, smoke, or fumes, and its readiness at all times, together with its economical and labor-saving features, make it a necessity in every modern home. Make up your mind that you will have an Electric Iron for your next ironing day. Our free-trial offer gives you the opportunity of testing the iron before you buy. Step in and leave your name and address for one to be sent up today, or, if more convenient, telephone. Irons are priced at \$4.50 and \$5.50, and the term on which they are sold make it easy for you to own one.
