ATIONAL CONTROL OF WATER POWERS

nciple Supported by a Large Majority of Conservation Experts.

NCHOT LED FIGHT

ate Control Championed by Minority at Congress in New York.

NEW YORK, Nov. 19.—(Can. Press.) Proponents of federal control of ter power rights, led by Clifford nchot, former chief forester; Henry Stimson, former secretary of war, d Walter L. Fisher and James R. rfield, former secretaries of the inior, won a victory today in the Nanal Conservation Congress here, in first test of strength on the paramount issue of the assemblage.

By a vote of 434 to 154, a motion to er to the resolutions committee at portion of the report of the committee on waterways which was unanimous, was voted down and the report subsequently adopted without a roll call. The test of strength came up as a substitute for a motion by Mr. Stimson to adopt the unanimous report, E. T. Bryant of Tennessee, championing the cause of state control of water rights, moved that the report go to the committee. The vote followed a day of lively debate, in which the issue clearly defined was federal or state control of waterway development in the future.

Fight Only Half Won.

The result did not finally determine the policy, however, as divergent reports from the committee on waterways are now in the hands of the resolutions committee, to be reported on tomorrow. The majority of the committee, led by Prof. George F. Swain, submitted a report proposing that the states be given a voice in the granting of water power franchises.

Both sides in the debate yielded for a vote late in the day, when Mr. Bryant urged that the whole matter should go to the resolutions committee. The result was so overwhelmingly one-sided that the Pinchot following tonight claimed that the report of the minority of the waterways committee eventually would be adopted.

FRANCE MAY HAVE MORE "DRY" SPOTS

At Present There is Bar for Every Eighty-Two Inhabitants.

PARIS, Nov. 19.—(Can. Press)—The chamber of deputies will begin tomorrow the discussion of the bill, already passed by the senate, to limit the number of bars, saloons and other establishments for the sale of distilled spirits. The measure fixes the number of bars at one per 200 inhabitants, and until this figure is reached no new bars may be opened.

Deputy Jules Siegfried, a former senator and ex-minister of commerce, in a report on the bill declares that the consumption of alcohol has made appalling strides in the last half century, and now averages five litres (5.3 quarts) of pure spirit per head of the population, which is equal to 13 litres of the liquor of commerce. There is a bar in France for every 82 inhabitants, as compared with one in 360 in the United States, one in 430 in England, one in 5000 in Sweden, and one in 9000 in Norway.

The effect of the bill will be to gradually lessen the number of bars in France from 480,000 to approximately 200,000.

SAVED BY BATTLESHIP FROM BURNING VESSEL

Thirty Passengers and Crew of Scotsdyke Rescued by Iron Duke.

LONDON, Nov. 19.—(Can. Press.)—The British battleship Iron Duke effected a timely rescue of the thirty passengers and crew of the steamer Scotsdyke, while the steamer was burning in the English Channel early today.

The steamer, bound from Mediterranean ports for Sunderland, caught fire off the Isle of Wight shortly after midnight. The blaze started in a deck cargo of grass and spread so rapidly thru this inflammable material that the crew was unable to stay its progress and it attacked the ship's bridge and a number of lifeboats, which were destroyed. Owing to the heavy sea it was impossible to launch the few remaining lifeboats. The panic-stricken passengers and the crew were forced to retire to the stern of the steamer.

The battleship Iron Duke was fortunately carrying out trials in the channel during the night, and when the burning steamer was sighted, sailors from the warship put off in boats to the rescue. The fore part of the steamer was a mass of flames when the boats reached the scene and the helpless persons on board were huddled together aft. The Iron Duke played her searchlights upon the stern of the doomed ship while the rescue crew took all hands safely off.

CONVICT CIVILLY DEAD AND WIFE MAY REMARRY

Brooklyn Judge So Decrees and Issues Mandamus for Grant of License.

NEW YORK, Nov. 19.—(Can. Press)—A man serving an indeterminate sentence in prison is civilly dead, and his wife may remarry without divorce or annulment proceedings, according to an opinion handed down by Supreme Court Justice Maddox in Brooklyn today. In so deciding, he issued a writ of mandamus, directing the marriage license bureau to grant a license to Mrs. Mary Gargan, a school teacher. Her husband, John, was sent to Sing-Sing for second degree murder, with a maximum sentence of life. She will now marry William Weisheimer, a lithographer.

The court held that, even tho Gargan were pardoned, his marital rights would not be restored.

WOULD DOUBLE WATER SUPPLY

Another half-million expenditure is being authorized to increase the supply of water for the city. An 84-inch steel conduit is to be run across the island from the pure water reservoir to the south tunnel shaft. This will more than double the supply, as there is a 72-inch conduit now doing the work.

For supplying and installing this duplicate conduit, Roger Miller & Sons will receive $540,000. That firm submitted the only tender, and it was accepted yesterday by the board of control.

THREE HEROES OF BURNING STEAMER

Stories of Bravery Told by Passengers Rescued From Balmes.

NEW YORK, Nov. 19.—(Can. Press.)—Three names stood out conspicuously in the stories of bravery told today when the Cunard liner Panonia brought to port the passengers rescued from the burning Spanish steamer Balmes.

Captain Juan Ruiz of the Balmes spent practically five days without sleep, while he and his men held the flames in check and guided their ship safely into the harbor of St. Georges, Bermuda.

Innocencio V. Michairia, the wireless operator on the Balmes, sent the messages that brought the Panonia. Since there was only one other man aboard who understood English, Michairia was obliged to be on duty without rest to translate the messages received from the rescuing ship.

Nicholas Arbornies, a mechanic from the Canary Islands, was the man who led the men passengers into the blazing hold of the Balmes last Thursday after the crew were exhausted, and ready to give up the fight.

The passengers from the Balmes numbered 71 men and 32 women and children. Most of them came from Cuba, and all were bound for ports in Spain. They will be sent to their destination.

BRITISH WARSHIPS SENT TO MEXICO

Cruiser Squadron in West Indian Waters Despatched to Protect Subjects.

BRIDGETOWN, Barbadoes, Nov. 19.—(Can. Press)—The British cruiser squadron in West Indian waters last night received peremptory orders to proceed to Vera Cruz, and the vessels sailed at midnight.

The British cruiser squadron consists of the three armored cruisers Suffolk, Berwick, and Lancaster, and is commanded by Rear Admiral Sir Christopher Cradock, whose flagship is the Suffolk. The three vessels are of the same type, displacing 9800 tons. They each carry an armament of fourteen 6-inch, eight 12-pounder, and three 3-pounder guns.

Great Britain decided to send the warships to Mexican waters from Barbadoes in order to protect British subjects should the necessity arise. The decision was arrived at by the British Government as a result of the general news published in the press of the United States as to conditions prevailing in Mexico, and of the advance of the Constitutionalists in the vicinity of the Vera Cruz Railway.

GOVERNOR POTHIER IN DANGER OF SMALLPOX

Rhode Island Head Described as Suffering From Severe Cold.

WOONSOCKET, R. I., Nov. 19.—(Can. Press.)—The illness of Gov. Pothier, who is confined to his home with what his physicians diagnose as a severe cold, caused considerable alarm today when it became known that the governor had been exposed to danger of infection from smallpox.

It was learned that a niece of Deputy Sheriff Pratt, personal aide to the governor, stayed at his home last Saturday and Sunday, and that it was later found she had a well developed case of the disease. The deputy sheriff has been with the governor every day since Sunday. Gov. Pothier said today he was vaccinated many years ago, and he did not believe he had contracted the disease.

NAVAJOS STILL DEFY WASHINGTON AUTHORITY

FARMINGTON, N.M., Nov. 19.—(Can. Press.)—The situation on the Navajo reservation continued today to be one of grave concern. Hundreds of the Indians, who have fortified themselves on Beautiful Mountain in open defiance of the Washington government, are keeping their signal fires blazing at many points on the mountain. They dance around the fires and sing their ancient war songs.

Federal Agent Shelton has a force of thirty deputies, all armed, on guard at the agency, while Indian police are doing scout duty day and night.

FIRE THREATENS HOSPITAL.

ROCHESTER, N.Y., Nov. 19.—Fire in the west wing of the main building of the Rochester State Hospital this morning resulted in removing 105 patients from the building, and for a time threatened serious results.

JUDGE HIMSELF SAW IT.

Suspended Sentence Man Recalled and Given Six Months for Raising Row.

CHATHAM, Nov. 19.—(Special.)—Wm. Belsey, who came up before Judge Dowlin last September with two charges of assault against him, was allowed to go at the time, provided he would leave the country. Yesterday Judge Dowlin himself saw Belsey in a hotel raising a row. He notified the police, and Belsey was brought before him for sentence and given six months in the Central.

HUMBER VALLEY SURVEYS

The purchaser of a homesite, besides having all the natural advantages of the locality, with the splendid views over the Lake, the Humber River and the large Park areas in the Humber Valley, is assured of desirable surroundings by restrictions which absolutely prohibit any factories, warehouses, etc., and provide for high-class and artistic residences.

WILL BE CHARGED AS TRAIN ROBBER

Leading Suburban Resident of Frisco Identified by Conductor.

SAN FRANCISCO, Nov. 19.—(Can. Press.)—Despite the fact that Edward E. Fiske, man about town and householder of Burlingame, a fashionable suburb, established last night what seemed a satisfactory alibi, a Southern Pacific agent left today for Martinez, Costa County, to swear out a warrant charging that Fiske is the bandit who last Friday night robbed five passengers and five trainmen in the rear Pullman of the San Francisco Limited, near Port Costa.

Fiske will then be taken from the city jail, where he is still held as a suspect, to Port Costa, where a positive identification by passengers and trainmen will be sought.

Fiske is a fashionably dressed, easy-spoken, assured young man of 34. He was arrested last night as he stepped into the side entrance of an hotel where detectives were waiting for him.

Previously Conductor Watson of the San Francisco Limited had picked him out of a crowd as the man who had robbed the train. Fiske was able to produce signed checks showing that he had occupied a private room in a restaurant from 3 o'clock Friday afternoon until 10 o'clock that night.

Three mail clerks of the Shore Line, Limited, who were cowed at the pistol point last Monday night, while a masked highwayman went thru the mail, were able to identify Fiske. His wife says he spent that evening at home.

Fiske said his father was W. J. Fiske, a retired shoe manufacturer of Detroit. For seven years he was president of a perfumery company in Detroit.

SCHMIDT'S TRIAL IS POSTPONED SIX DAYS

Defence to Raise Insanity Plea Notwithstanding Confession of Murder.

NEW YORK, Nov. 19.—(Can. Press)—After having been called for trial today, the case of Hans Schmidt, slayer of Anna Aumuller, was put over by consent of both sides until Nov. 25.

Notwithstanding his confession of the murder, Schmidt will make a fight for life, insanity being his defence. Portions of the murdered girl's body were found in the Hudson River early in September, but the greater part, including the head, has never been found. Schmidt, a priest, confessed that he slew the girl as she slept, dismembered her body and carried it in parcels to the river, making five trips, and dropping it into the water from a ferryboat.

MRS. RUSSAK IS COMING.

Will Give a Lecture on Life As Seen By the Dead.

Mrs. Marie Russak of Adyar, India, Mrs. Grace Duff of Rochester, and Henry Hotchner, New York, are to pay a visit to Toronto next week. Mrs. Russak is widely known as an intimate friend of Col. Olcott, late president of the Theosophical Society, and of Mrs. Annie Besant, the present president. She is said to be familiar with various aspects of occult nature, and will lecture on Tuesday evening in St. George's Hall, on "Life As Seen By the Dead." Mrs. Russak and her party will be at the Queen's on Monday afternoon, and local students of psychic affairs are looking forward to her visit with interest.

FOLK LORE SOCIETY.

The Canadian Folk Lore Society will hold their first meeting of the season this evening in Victoria College (main building), at 8 o'clock, when A. R. M. Lower will read a paper on the "Folk Lore of the Ojibway Indians," which will be followed by a general discussion of Indian folk lore. All members and all who are interested in folk lore, Canadian or otherwise, are invited to be present and take part.

HUNTERS ARE SAFE.

CHICAGO, Nov. 19.—(Can. Press.)—Six duck-hunters who it was feared had lost their lives in Lake Michigan, after lifesavers had failed to find trace of them, today found refuge north of Glencoe, where they ran their motorboat on the beach to escape the heavy sea. Their escape was made known tonight, when one of their number telephoned to his wife.

Real Estate News

HOUSES ARE TAKEN OVER BY C. P. R.

Twenty-Seven Marlborough Street Dwellings Transferred to Railway Co.

Practically all the south side of Marlborough street and Marlborough place is now in the hands of the Canadian Pacific Railway. Yesterday H. H. Williams transferred twenty-seven houses to the railway for a sum exceeding $100,000.

For some time it has been known that the Canadian Pacific were securing as much property in the locality of their North Toronto station as they could lay their hands on, but the transfer of this number of houses only gives an inkling into the property held for them by the real estate broker. H. H. Williams has yet in his name about as much property, which will no doubt be turned over to the railway shortly.

There are now only about a half dozen of the hundred houses on the south side of Marlborough for the railway to purchase, and when this is done they will have a stretch of 1616 feet of frontage, taking in from the flankages from Yonge street to Avenue road. The depth of the lots is 120 feet. The C.P.R. have owned the north side of the street for some time and it has practically all been turned into railway yards.

As the C.P.R. plan to build their new North Toronto station on the east side of Yonge street to the south of the present tracks, their heavy purchases west of Yonge street have not been for the station site, but undoubtedly the property will be used for railway trackage and switching facilities.

LEASE RENEWED ON UNIVERSITY LAND

William R. Brock has taken out another lease on the land on which stands his residence at 21 Queen's Park crescent. This property is owned by the University of Toronto, and Mr. Brock has taken up another lease term of 21 years, for which he will pay $1200 per annum. The lot is a large one, having a frontage of 160 feet by a depth of 264 feet, with an assessed value of $28,000.

FOUR PHOEBE STREET DWELLINGS SOLD

Four Phoebe street houses have been purchased by Max Goodman. They are numbers 5, 7, 9, and 11, with a total frontage of 68 feet and a depth of 90 feet. Assessments on the property amount to $6420, of which only $2300 is placed on the dwellings. A. I. McJennett was the owner, and the houses sold for $10,800.

TWELVE MUTINIED ON A BRITISH FREIGHTER

Santa Rosalie Returned to Frisco With Mutineers in Forecastle.

SAN FRANCISCO, Nov. 19.—(Can. Press.)—The British freighter Santa Rosalie of the Maple Leaf Line, which cleared last night for Swansea and Dunkirk, returned to port today with 12 of the crew of 41 locked in the forecastle and nine armed men from the U. S. revenue cutters Golden Gate and McCullough on guard at the hatchways.

Capt. Thomas Pritchard said that shortly after he put to sea nine of his firemen threw down their shovels, asserting that when they signed in England they had agreed to work shifts of four hours with 20 hours off, but in point of fact had sometimes been on duty 16 hours at a stretch. Capt. Pritchard anchored for the night eight miles out.

This morning the engineers and officers got up steam enough to get back to port, but when the captain ordered the anchor weighed three of the sailors joined the mutinous firemen. The captain and his officers got up the anchor.

RECORD DAY'S OUTPUT.

BELLEVILLE, Nov. 19.—(Special.)—The nine-inch mill at the steel works has made a record, turning out 91,015 pounds of light horseshoes in a day. This is said to be the biggest output made on a single turn on record in Canada. Mr. Higgs, manager of the plant, is giving the members of the crew a banquet to celebrate the event.

DALE CHURCH FUND.

Previously acknowledged, $2282; Ald. May, $50. Total, $2332.

LINER ADS

are run in The Daily World at one cent per word; in The Sunday World at one and a half cents per word for each insertion; seven insertions, six times in The Daily, once in The Sunday World (one week's continuous advertising), for 6 cents per word. This gives the advertiser a combined circulation of more than 132,000.
