Concerted Action Regarding the Eastern Question - Britain Has No Special Opponent-Press Comments.

London, Nov.10.-There was a sumptuous display last night at the banquet marking the installation into office of George Faudel Phillips, the new lord mayor of London. The banqueting hall of the Guildhall was crowded, those present including Prime Minister Salisbury, Right Hon. George J. Goschen, First Lord of Admiralty; Lord George Hamilton, Secretary of State for India; Lord Halsbury, Lord High Chancellor; Rt. Hon. Charles T. Ritchie, president of the Board of Trade; Gen. Lord Wolseley, commander-in-chief of the British forces; Gen. Sir Herbert Kitchener, Sirdar of the Egyptian army; Rt. Hon. Wm. Court Gully, Speaker of the House of Commons, and Hon. Thos. F. Bayard,

"I thank the ambassador of the United States for his presence here and for joining a great historic meeting. By the few words he has uttered he has raised his own plane of observation so high above the mere level of party that, though contrary to practice to remark upon the internal politics of other states, I may be permitted without impertinence to congratulate him upon the splendid pronouncement the great people he represents have made in behalf of the principles which lie at the base of all human society. VENEZUELAN DISPUTE SETTLED

"It is rather bathos to have to turn therefrom to the rather unimportant controversy his country and ours have had in recent months. I only do so aware that in the discussion had with United States on behalf of their friends in Venezuela, our question has not been whether there should be arbitration, but whether arbitration should have unrestricted application, and we have always claimed that those who, apart from historic right, tablished settlements, should be excluded from arbitration. Our diffi-culty for months has been to define the settled districts, and the solution has, I think, come from the Government of the United States that we should treat our colonial empire as we treat individuals; that the same lapse of time which protects the latter in civic life from having their title questioned should similarly protect an English colony; but beyond that, when a lapse could not be claimed, there should be an examination of title and all the equity demanded in regard thereto should be granted. I do not believe I am using unduly sanguine words when I declare my belief that this has brought the controversy to an end. It is a matter of no small satisfaction to the Government that at a time when anxious social questions, which are far more important than political questions, are troubling United States, and therefore troubling the world, we should remove any semblance of political difference that might hinder common action in defense of the common heritages of society. We have had an anxious year at the Foregn Office, but we have floated into a period of comparative calm, and I do not intend to trouble you with matters that have passed

THE EUROPEAN CONCERT. Continuing, Lord Salisbury de-clared that the concert of Europe seemed to be in a more favorable condition to extirpate the terrible disease in the east than ever before. He eulogized the speech made on Tuesday last by M. Hanotaux, the French Foreign Minister in the Chamber of Deputies. He did not, he said, expect that France would try to baffle the action of the European concert, while, he added, the Triple Alliance had always been in sympathy with the British doctrines regarding the eastern question.

NO SPECIAL FOE. Lord Salisbury repudiated the idea that there was necessarily permanent antagonism between Great Britain and Russia. Such an idea was a su-perstition of antiquated diplomacy. He had, he said, good ground for believthat Russia had the same views He did not desire to imply that there was any power with which Great Britain would specially act. He only protested against the idea that any power was specially Great Britain's opponent. He would not say there would be difficulty in conversing in

any scheme to exercise force if the other powers agreed, but he did not know whether the use of force was meditated against Turkey. He referred to the latest promises of reform made by the Sultan, and said that the future alone could determine how far even such humble promises as these would be realized. He hoped the powers would be able to convince Turkey that she was drifting in the Turkey that she was drifting in the current towards an abyss, and that they would shoosed in diverting her before she arrived at the edge.

PRESS COMMENT. The Daily News (Liberal) commenting this morning upon Lord Salisbury's speech, says in reference to his explanation of the Venezuelan matter, that the terms of the settle-ment, as stated by the Prime Minister, are perfectly satisfactory, involving no surrender of essential principles. The solution arrived at will enable each side to claim a victory. Lord Salisbury can justly say he succeeded in protecting the rights of the British settlers, and Mr. Olney can claim, with literal truth, that he succeeded in bringing Great Britain to consent to arbitration

The Post says that the settlement of the Venezuelan dispute is wholly satisfactory to Great Britain and the United States. The Daily Graphic holds that the

solution of the vexatious question reflects the highest credit upon all concerned. It fully justifies the inter-vention of the United States. The Standard briefly welcomes "the auspicious announcement." The Chronicle says that it finds

Lord Salisbury's statement rather puzzling. It doubts whether settled col-onists exist in any great numbers, but supposes it is all right.

The Daily Telegraph says the terms of the settlement leave the dignity of interests of Great Britain and the United States unimpaired. It is be-

lieved that the session at Victoria will last about six weeks, and will be adjourned for as long a session to be held at San Francisco. The Times says it believes where British occupancy of settled districts extending back 50 years can be proved arbitration will be barred, and that all remaining claims will be submitted to an Anglo-American tri-

bunal. The Daily News is of the opinion that thirty years will be recognized as giving title, and the Graphic thinks that twelve years will be sufficient to establish British ownership.
