**TRADE BEDFORD MARK.
SANITARY FLOORING.**

B. MOONEY & SONS believe they have one of the very best flooring
materials yet produced. The originators of Bedford Flooring have made
many improvements since its first introduction and have it as near per-
fect as any floor laid in plastic can be made.
It can be laid on wood or iron, is superior to tile in that there are
no joints, and it does not work loose or have any cracks to collect dirt.
Not only the floor, but the base board and wainscoting may be made
of it, adapting it especially for use where sanitary requirements call for
water-tight and dirt-proof floors.
One of our claims is that Bedford Flooring does not crack or shrink,
and never comes loose from wood or iron on which it is laid.
"KANTLEAK," the modern Waterproofing Compound for concrete or
brick construction can't leak.
