dancing, church socials and the innumerable little soirces which gather together our friends and acquaintances and go so far to pass away and shorten the long winter eventings; and now that some good players are booked here society is looking forward to the ever popular theat tre parties followed by dainty little suppers which possess peculiar charms for both hostess and guests.

How delightful it is to note that the old forms of merry making are once more being revived and how it would gladden the hearts of the "old folks" to see the never - to - be - forgotten minuet! How memories of the past would be recalled by the stately cotillion! Indeed there have already been rumors in circulation of a delighful little quilting party,—where, at the close everything is cleared away for the "hop". Of course this is only the beginning, and just how much work the young people will do, remains to be seen; but it is to be hoped that they will act with the same discretion as did their grand-dames, under the ever - watchful eyes of their chaperons.

THE INSURANCE INQUIRY

As to the cause of the accident Dr. Pugsley said: "The statement made to me by the conductor of the train was that, he gave the signal for the engineer to apply the brakes but he found they would not work." "Did you hear the engineer say that the air brake installation of the train had been tampered with, that one of the 'angle cocks' on the rubber tubes connecting the airbrake apparatus had been turned with the result that the whole of the latter part of the train had been practically disconnected and that the air line was consequently useless?" "I had no conversation with the engineer,"replied Mr. Pugsley. "I have since learned that a statement to that effect has been made, but I am not in a position to discuss it. I may say that the collision took place at the east end of the switch, at the east end of the siding, and I believe that if the east-bound train had been only a minute later, no collision would have occurred." **CORONER SCORES**

FAITH HEALER

TORONTO, Sept. 14.—(Special).—Owing to a new line of evidence which unexpectedly developed in the Home Life inquiry before the insurance commission, the investigation into the affairs of the I. O. F. was deferred until yesterday afternoon.

Supreme Chief Ranger Oronhyatekha, Hon. George E. Foster, Walkace Nesbitt, K. C., and others who were in court, after waiting some time, retired. The new line of evidence proved interesting and somewhat intricate to follow. It transpired that Mr. McOutcheon's contract for commission was based upon the payment of \$00,000 to Mr. Pattison. The evidence of Mesers Stratton, McOutcheon and Warren, solicitor, was that Mr. Pattison was that Mr. Pattison was the Mr. Pattison was the strangement was the Mr. Pattison was the strangement was the Mr. Pattison was the Mr. Pattison to take \$80,000, which he paid him in cash. Various documents, however, were not amended and Mr. McOutcheon and Warren, solicitor, was repeated to the bank and cashed a cheque for \$90,000 he arranged with Mr. Pattison to take \$80,000, which he paid him in cash. Various documents, however, were not amended and Mr. McOutcheon and Christopa to take \$80,000, which he paid him in cash. Various documents, however, were not amended and Mr. McOutcheon and cashed a cheque for \$90,000 out of his composition and reasserted the claim so offen advanced by him, that fraternal solicities should not be required to meet the requirements imposed upon straight line insurance companies because of the difference companies because of the d the Christian Scientists as imbeciles, and said that the government should provide a house of refuge where they could be treated. He would not listen to any evidence from Mr. Todd, although the latter's counsel requested that he be heard. Many of those present at the inquest were Christian Scientists, and they are highly indignant at the coroner's statements. **MOB OF UNRULY LABORERS**
