

WHITE CHOSEN MAYOR; WIGMORE AND BULLOCK ARE RE-ELECTED

CORBET LOSES OUT IN RACE BY 61 AFTER CLOSE FIGHT

Polls 2,292 Votes To Next Highest Opponent's 2,353; Jones Gets 1,453; Carvill, 1,316, and Logan, 383

ENTERING into the Saint John election contest for the mayoralty of the city much later than did his opponents, Dr. W. W. White was chosen yesterday to fill the position of chief magistrate for the next two years. His vote was 2,876. Dr. J. H. Barton was second with 2,070 and Alex. Rowan counted 1,149. The victor's majority over Dr. Barton is 806 and over Mr. Rowan 1,727. Dr. Barton led Mr. Rowan by 921.

Commissioners R. W. Wigmore and T. H. Bullock were the choice of the people for the two commissions which they already occupied, but from which four others sought to oust them. Mr. Wigmore led the poll with 2,896 votes. Mr. Bullock secured 2,883, by a majority of 61 votes over Mr. Corbet, who had 2,822. The others finished in the following order: John B. Jones, 1,453; George Carvill, 1,316; R. J. Logan, 383.

THIRD TERM AS MAYOR.

Mayor-elect White has filled the position before, having been mayor of the city from 1902 to 1906. Of his opponents Mr. Rowan had been at the council board. Of those who sought the commissions, in addition to Messrs. Wigmore and Bullock, Mr. Jones had been alderman, and also was a commissioner under that form of government. Mr. Corbet, Mr. Carvill and Mr. Logan had not been at City Hall.

AT POLLS CLOSED.

As soon as the polls closed at seven o'clock, supporters of Hon. R. W. Wigmore gathered at his headquarters in Moose Hall, Colborne street, to receive the first ward from which returns were received was Dufferin, where Hon. Mr. Wigmore polled 291, to his nearest competitor's 149. The announcement was received with cheers by those in the hall, and the crowd kept continually growing as the returns were slowly coming in. Prince and Sydney ward returns were received, showing large pluralities for Wigmore, as did Victoria ward.

WIGMORE SPEAKS.

About nine o'clock Hon. Mr. Wigmore made his appearance and was greeted with cheers by his supporters. He was immediately called on for a speech, and after being introduced by W. J. Crawford, made a short address in which he thanked the men who had stood by him during the recent campaign and promised to represent them at City Hall to the best of his ability.

Mayor-Elect Makes First Speech

DR. WHITE, mayor-elect, made his first public utterance as the choice of the people of Saint John in Imperial Theatre at the close of the second round. He was accompanied to the theatre by a committee of men and women workers who had assembled at his home, corner of Princess and Sydney streets, to congratulate him. Manager Golding in introducing the doctor said that it had been the Imperial's privilege for some years past to have the first public utterance of newly-elected mayors and local members of parliament speak from its platform. Therefore it was with pleasure a former mayor of the city was reintroduced to the public official life of the community on this occasion.

Dr. White was received with much applause. He said it was with very many thanks he made his first public appearance after such a splendid return to the chief magistracy of this good old city of Saint John. If anybody had told him eleven days ago that he would be speaking tonight as a newly-elected mayor he would have advised them as a professional man to consult Dr. Anglin. Without having made any preparation for it, he said, he found himself placed in the position of a professional man to consult Dr. Anglin. Without having made any preparation for it, he said, he found himself placed in the position of a professional man to consult Dr. Anglin.

Dr. White said he was born in Saint John as were his people before him. He had labored for his fellow citizens in Saint John all his interests were centered in Saint John and he expected to continue to do so. He said that he had been elected to the presidency of the Common Council he would continue to do so. He said that he had been elected to the presidency of the Common Council he would continue to do so.

He had given to the city the best years of his life and after sixteen years of service he had come back to the people again and they had shown their confidence in him by having him head the polls. He would try by every means to give them the best of his confidence and he would not be mislead.

Continuing, Mr. Wigmore said the future would bring many important problems to be solved and he thought it a good idea for a citizens committee to be formed, such as the one which he had formed in 1902, so that the citizens could aid the commissioners with their advice. He would make it his duty to see that the council would be better able to carry on than heretofore.

He thanked his supporters and workers for the co-operation and support given. He had started his political career in 1908 as an alderman, later becoming a commissioner, then a member of parliament, a minister of the crown and back again as commissioner in 1922. And today the citizens had again shown their confidence in him. There had been many changes for the better in the water and sewerage department and the speaker paid a glowing tribute to the staff under him.

Had 43 Boils And Carbuncles At One Time

Mr. Claud Melanson, Capt. First Ont. writes: "In regard to your remedy I have to say that B.B.B. was the only medicine I could get to relieve me of my boils and carbuncles. I had forty-three at one time, and my doctor told me to take

Burdock Blood Bitters

The first bottle I took gave me much relief. I took three more, and after I had used them I was completely relieved of my boils and carbuncles.

for its loyal support and co-operation. The staff has been loyal to him and he had been loyal to them and any credit that was due the department was due to the men who had worked under him, the speaker said. Hon. Mr. Wigmore also was pleased that the members of his staff had supported him at the polls, as it showed that he had their confidence.

PUBLIC SPIRIT LACKING.

In conclusion, he asked that the taxpayers would come forward from time to time and give him the benefit of their advice and support. The total vote was a small one and they thought interest in civic affairs that they should. A letter public spirit should be created, he said, and every man should become interested in the future of the city. After again thanking his workers for their endeavors, Hon. Mr. Wigmore resumed his chair amid cheers.

BULLOCK PLEASED.

When interviewed last evening, Commissioner T. H. Bullock expressed himself as naturally much pleased at the result of the returns and the continued confidence of the citizens in him. He said that he would continue to carry on in an impartial and sensible manner and that the council as now formed would be a good one which would result ought to be expected.

LITTLE EXCITEMENT.

The battle of ballots on Monday was not a strenuous one from the standpoint of the spectators, at least, there was not evidenced the popular excitement that usually attends upon a contest at the polls. However, a cold despite a bright sunshine, may have had some effect, but whatever the reason may have been, there was lacking the keen interest on the part of the people that usually attends upon the selection of the chief of city government, in whole or in part.

At no time at the main polls in the city was there any sign of workers striving for an advantage here or there. True, there were representatives of the candidates standing at the polls and checking names, but there was something lacking of the strenuous combat that has marked other elections.

TERMED "QUIET."

"A quiet election" was the way that it was summed up at various polls where Telegraph-Journal reporters called on a round of the voting places a little while before the closing hour. There seemed to be no outstanding feature, just a routine affair, and the people called to exercise their franchise, though some automobiles were in the streets, there was no sign of the kind of thing bringing favoring voters to register their ballots.

MONTREAL ELECTS MARTIN AS MAYOR

The auxiliary of Johnstone Lodge, L. O. E. B. A., met last evening in Orleans hall, Germain street, for the evening in sewing. Mrs. Charles Stephens, Mrs. T. Moore and Mrs. W. Cuthbert were the guests of the committee, and were assisted in serving by Mrs. Myra Haddell.

28 CANADIANS TO APPEAR AT COURT

LONDON, April 13.—The names of 28 Canadian women have been submitted as applicants for presentation at one of Their Majesties' courts this season. The names have been submitted through Hon. P. C. Larkin, Canadian High Commissioner in London, and the Canadian ladies will be presented to the King and Queen by Mrs. Amery, wife of Lt.-Col. L. C. Amery, Secretary of State for Dominion Affairs.

Among the Canadian women who have been appointed to be presented at court are Mrs. Stewart McLennan, Sydney, N. S., and Mrs. Edith C. Parish, Yarmouth, N. S.

The civil campaign this year was conducted along strenuous lines, all meetings being of a more or less live nature. The new mayor found his greatest support among the working classes of the East End, where from every platform he proclaimed himself the friend of the working man.

The other candidates were equally insistent in this respect, but they were charged with having a strong penchant towards the "privileged" classes, and this was pointed out to their disfavor time and again. Mayor Martin's nearest opponent was Mr. Desaulniers, who received considerable support in the West End, but lacked the popularity of Mr. Martin in the East End.

Mr. Ballagreen trailed his two opponents in nearly every poll. The popularity of Mr. Martin was one of the chief factors in his success, "Meetic" having been a prominent public figure in the city for many years.

The poll stands: Hon. Mederic Martin 50,294; J. V. Desaulniers, 27,612; J. B. Ballagreen 16,343. Plurality for Martin 22,882.

No More Piles

Thousands Bless Dr. Leonard's, the Physicist Who Discovered This Common Sense Remedy.

If you think that the surgeon's knife is the only method of escape from the misery of piles, it's because you haven't heard of the new treatment known as Dr. Leonard's HEM-ROID.

By experimenting for years he discovered the exact cause of piles and then went further and compounded a remedy that would remove the cause.

Dr. Leonard wants every sufferer to benefit by his discovery and so that there will be no doubting or delay, Watsons two stores and all druggists are authorized to sell HEM-ROIDS with guarantee that it will do as stated or money back.

On that honorable basis every sufferer should secure a package of Dr. Leonard's HEM-ROID today.

WIGMORE ASKS FOR REDRESS FOR MARITIMES

cheater, N. S.), said there could be no solution of the ills of the Maritimes until the Dominion as a whole recognized the claims of the Maritimes, based on pledges given when the Dominion was formed.

URGES HOUSE COMMITTEE.

Mr. MacNutt favored the appointment of a parliamentary committee, rather than the royal commission recently established. He believed that if the Minister of National Defence had not been so ill as to necessitate his absence from the meetings of the cabinet, council, parliamentary committee would have been constituted. He hoped that the government could yet be prevailed upon to appoint a parliamentary committee, as such an important question as this could not be "hung up" until the railway commission could function.

QUOTES PROFESSOR.

Mr. MacNutt quoted Prof. McMillan of the University of Alberta, supporting the positions of Halifax and Saint John in the matter of development of those ports. He quoted an article from a Boston newspaper headed "Secession to be moved in Maritime Provinces." The article stated that the movement for secession was gaining ground and that a definite step to sever the Maritime Provinces from the rest of the Dominion might be taken on July 1, next.

OBJECTS TO ARGUMENT.

J. L. Brown, Progressive, Lisgar, objected to the argument put forward that Eastern Canada was bearing more than her full share of the burden of the country. He asked what the members for Portage la Prairie, (Mr. McKeighen) and the member for Prince Albert, (Premier King) thought of this contention.
