Miss Donahue Tells Story of Abduction in Boston

Boston, June 25.—A story of being held a prisoner in a house at 7 Newman street, South Boston, for almost twenty years by several young men, who rescued her of a gold watch valued at and threatened to kill her if she med, was told to Capt. John J. Mahoney, of Division 12, South Boston, by Beale Donahue, aged twenty-nine, yesterday.

A. Rooney sent Sgt. Sweeney Loran with Special Officer John J. Mahoney, aged twenty-three, of 346 East 4th street, South ton, was arrested a little later. He

is charged with robbery. Capt. Rooney said that a more serious charge would be preferred against him.

Miss Donahue said that when she got off a car at the corner of West Broadway and Dorchester streets she requested a group of young men to direct her to a Fields Corner car. The men volunteered to show her to a car. She said that they started along Dorchester street and that when she realized something was wrong she was threatened with death.

When they reached Newman street the men took her to the house at No. 7. She said that one of the men, whom she has identified as Mahoney, climbed through a rear window and opened the front door.

Capt. Rooney said that the house is occupied by a brother-in-law of Mahoney. Miss Donahue said that when released she was warned that if she "squealed" she would suffer the consequences.

## COUNTRY STILL CALLS FOR RAIN

The weekly report of agricultural conditions in New Brunswick, as reported by District Representative of the Department of Agriculture, Fredericton, under yesterday's date, is as follows:—

"Rain is badly needed in all sections of the province. This is especially true in districts where the soil is light and sandy. Crops are suffering very badly by reason of lack of moisture at present and will not until there is rain. With rains in the near future it would still be a good fair crop. Clover is showing up exceptionally well.

"The apple crop promises well. There has been a good set of fruit with very little drop until the present. The strawberry crop is ripening and with a few showers will be heavy.

"The potato crop in Madawaska and Victoria counties is being attacked by the potato flea beetle, which is doing some damage; otherwise the crop is doing well.

"Reports from the dairy districts state that cows are showing up well in milk production. This is particularly true of cows that were wintered well.

"Sheep shearing is about completed. More than 60,000 pounds of wool has been graded at the Department of Agriculture Wool Warehouse in Fredericton. The grader pronounced the wool first-class and superior to Ontario wool."

## THE MAKERS OF FORTUNES.

(Toronto Star.)

"The late Hon. W. J. Hanna went through law school on twelve-for-a-dollar meals and a free bed in a fire station, and he died worth close to two million dollars. The Bolshevik who wants the state to feed him and bed him and keep him in idleness would call Mr. Hanna a bourgeois, and declare he had no right to his fortune."—Ottawa Journal.

The late W. J. Hanna was an able

man, an astute lawyer and politician, and a shrewd business man. He devoted the best years of his life to the public service at a salary far below what he would have earned in legal practice, so that the news that at his death he had accumulated a fortune of two millions caused much surprise to those who had always thought of him as a public man and a lawyer. It is understood that he made the bulk of his wealth in fortunate investments or speculations in oil in association with the Standard Oil
