

**Some Months Ago**

we received intimation that a big manufacturer had decided on discontinuing the carrying of made-up stock. This idea has been adopted by all large manufacturers. We immediately sent a couple of our buyers to take an inventory and submit a figure for the lot. We were not particularly anxious to buy unless we could do so at a very low price, as our own stock was more than usually heavy. We were surprised to receive a wire announcing the acceptance of our offer. Only a stern determination on the part of the manufacturer to carry out his scheme of no more made-up stock, together with the fact that but few concerns were capable of handling such an immensity of shoes, enabled us to buy such a tremendous bargain. We unhesitatingly affirm that never before in our long business career have bargains such as these been offered the people of St. John and vicinity.

**THE MOST STUPENDOUS  
Sale of Boots  
And Shoes**

**Ever Offered the People of St. John**

10,000 pairs of shoes for men, women, boys and girls bought at our own price and now offered at less than a third of actual cost. The memory of this sale will live in the minds of people for years to come. There never was such a chance to buy footwear at such prices. There's been all kinds of sales --- reduction sales and what not --- but there's never been shoes sold as cheaply as we're going to sell them during the life of this sale.

We got this lot at prices so low that we were actually amazed. When you come you will also be surprised. It was our intention to bring this sale later on in the season but as many of our people will be going to the country as soon as school closes, we determined on giving them a chance to obtain some of the bargains
