

ministry here, but has been hindered hitherto from coming to Church or Communion by her Roman Catholic husband.

Thursday 19th.—Visited G. M.'s. Reading and long conversation with Mrs. M.'s father, who is still a Roman Catholic. At a subsequent visit found him reading his Testament which he has had for many years. His daughter having joined us last year, may eventually draw him to the truth.

Tuesday 24th.—Mrs. L. accompanied me to N. M.'s, who is referred to in the entry of 18th December. Gave them a thorough explanation of our Communion Service, and the nature, authority and advantages of that Sacrament. They all seemed happy in view of coming forward together, *i.e.*, the husband, wife and mother of the latter, for the first time in our Protestant Church. The mother declared herself a Protestant about seventeen years ago, or about a year after I came to Sabrevois. In turning back to the "Record" of that date her case will be found reported. She has had no peace since with her husband, who seemed to be encouraged by Roman Catholic relatives and neighbors in annoying her, when she came to church or in other ways showed her attachment. To use her own words she was "bound these eighteen years (by Satan);" but now she is free! her husband having died this fall; and on the occasion of this visit she was deeply impressed and manifested great earnestness as well as thankfulness to God for the liberty which she now enjoys. I offered prayer at the commencement of the instruction, and Mrs. L. did the same at the close. The remaining member of this happy family is an aunt of the new convert, who has long been a communicant here.

Wednesday 25th.—On this joyful day, the above family all came to the Lord's Table with fourteen others. Our Xmas Tree Festival was held in the evening at the Boys School, the room being crowded both with Protestants and Roman Catholics. Among the latter every year witnesses some new ones venturing amongst us.

The schools being closed a portion of this year for want of funds, has not been an entire loss to the work here; for my undivided attention having been thus secured for the last few months to pastoral work, it has taken as it were a fresh start, and as the result, by God's mercy and blessing, souls have been brought into the spiritual fold, and converts out of the darkness of superstition, idolatry and error. To God, our Father, and to the Lord Jesus Christ with the Holy Ghost be all the Glory and the praise.
