They were then attacked by troops and by the batteries, and were defeated with heavy losses."

TOKIO, Feb. 12 .- Japan is deeply stirred and bitterly resentful over the sinking of the merchant vessel Zensho by four Russian cruisers, which yesterday attacked the Zensho and the Naganoura while they were on their way from Sakata to Otaru, on the island of Hakkaido. The attack of the Russians is declared to be a wanton crime, un-

justified under any circumstances, even assuming that the Zensho disregarded signals, which is denied.

It is stated that Pavloff, through the French minister, intimated a desire to leave Seoul and entrust Russian affairs to the care of the French legation, and that a French guard be placed around the legation. The Japanese government acquiesced and arranged that when Pavloff left the legation today in place of police, soldiers guarded the route to the station, where a special train to Chemulpo was furnished.
