The Woodstock Journal.

THE GREATEST Medical Discovery, OF THE AGE.

DR. KENNEDY, of Roxbury, has discovered in one of our common pickles a remedy that cures every kind of humor.

EVERY KIND OF HUMOR

has been reduced to a common pickle, so that it is now sold in over eleven hundred bottles, and never failed except in two cases, (both shoulder humors). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing mother.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of bilges.

Two bottles are warranted to cure the worst cancer in the mouth and stomach.

Three to five bottles are warranted to cure the worse case of crispelias.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running noses.

One bottle will cure gassy eruptions on the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the most severe case of rheumatism.

Three or four bottles are warranted to cure the salt rheum.

Five to eight bottles are warranted to cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I have peddled over a thousand bottles of this in the vicinity of Boston. I know the case of it in every case. So sure is water will extinguish fire, so sure will this cure humor. I have never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are three things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1841—second, that it should grow in 1841—third,

In order to give some idea of the subtlety and great popularity of the discovery, I will state that in April, 1842, I peddled, and sold about six bottles per day—in April, 1841, I sold over one thousand bottles per day of it.

Some of the wretched Druggists who have been in business twenty and thirty years, say that nothing in the ranks of patent medicines was ever like it. There is a universal praise from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction in general family medicine, great and wonderful cures have been found in it that I never heard of.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady!—there are but few who have seen more of it than I have.

I know of several cases of dropsy, all otherwise cured by it, for the various diseases of the liver, Sis Headaches, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidney, &c. the discovery has done more good than any in medicine ever known.

No change of diet ever necessary. Let the best you can get, and enough of it.
