

U. M. W. Convention Approves Principle Of Nationalization

Also Vote for the Six Hour Day and Five Day Week in All Coal Fields.

Cleveland, Ohio, Sept. 11.—Nationalization of mines, as a general principle, was approved this afternoon by the convention of the United Mine Workers of America with only one dissenting voice, the sole objector being shouted down when he declared nationalization an impossibility. He later explained that he only meant impossible for the present. Concrete proposals for nationalization are expected when the report of the committee on resolutions is presented, when the discussion on this theme will be continued.

The convention voted with the same unanimity for the six hour day and five day week in all coal mines to be incorporated in the demands presented to the mine operators at the joint wage conference at Buffalo, September 25, but deferred discussion of specific wage demands until next week.

During the afternoon Seymour Steadman, of Chicago, counsel for Eugene V. Debs, and formerly attorney for the mine workers in the Cherry Hill Mine disaster case, addressed the delegates on behalf of Debs, Rose Pascoe Stokes and other convicted under the espionage act. He invited the mine workers to send representatives to the "American Freedom Convention" at Chicago, September 28, called to press for their release and the repeal of the act.

The convention stands adjourned tomorrow on account of the funeral of John Mitchell, which will be attended by a large delegation from the convention.

WHAT WILL THE VOTE COUNT TODAY REVEAL TO THE PUBLIC TOMORROW?

All Candidates Must Make a Vote Showing of Forty Thousand Votes at the Next Count or Their Names Will be Dropped from the List—When New Candidates Can Get More Than Forty Thousand Votes in a Few Days Those Who Have Been on the List for Some Time Should do as Well if They Are Trying.

The Standard Will Not Accept Nor Deliver Paper for Less Than \$4.00 By Mail.

Today is vote counting day in The Standard's \$10,000.00 Prize Contest and tomorrow the revised vote standing will be published. Whether there will be any new candidates jump into the lead this time or not will be shown in tomorrow's vote standing.

The next vote count will be made on Tuesday next and those candidates who have been in the contest for some time and have not been doing anything in the way of subscription getting, must send in enough subscriptions by the time of the next counting to bring their vote up to forty thousand, or their names will be dropped from the list of candidates. Any candidate in a few days' time ought to be able to get at least fifty thousand votes and those who have been in the contest for some time, if they are really going to try for the prize can prove it by bringing their vote up to forty thousand by the next count, otherwise it will be better to drop their name from the list for they are only in the way of the active candidates. Active candidates with the dead weight removed can get into territory and get subscriptions they could not get so long as the names of candidates (even though they were not trying) remained for the public to wait and see if they were not going to do something.

It is only fair to the real active candidates that they have a clear and open field to work in for they have much to do between now and the end of the contest and nothing shown by them in their way to stop them in vote getting. The public can greatly help the active candidates by sending their subscriptions direct to the Contest Manager with the request that the votes they are entitled to be placed to the credit of some candidate.

The Standard thought the reduced price offer for the paper had ceased but reports come in that offers of the paper at a reduced rate are still being made. Again The Standard wishes to say that it will not deliver or accept subscriptions for any amount less than \$4.00 by mail for the year, anybody who takes out a subscription offered for less than our dollar a year does so with no guarantee from The Standard and that the paper will be delivered.

Three Weeks In The Fountain

Pup Insists on Remaining in the Water and Playing With Sticks.

"People have been known to be fond of water sports, but that Airdale is carrying his love for fishing to excess," said a dweller on the Square to The Standard yesterday. "For three weeks that dog has spent practically every day in the fountain, playing with stones or sticks of wood thrown in for him by passers by. If no one will give him something to play with he howls to high heaven or utters the short, sharp bark peculiar to his breed."

"Pneumonia will carry off a fine specimen of the Airdale pup if something cannot be done to cure him of his love for the water. His perseverance and determination to indulge in his amusement must be curbed, though he seems to have what the French call 'a fixed idea.' I am told that he sleeps in the Square as he is on hand in the morning ready for the first person who might throw him a stick or stone."

"Probably somewhere there is a family who has lost a dog and are mourning and wondering why Pat or Mike or Jerry does not return. The only thing that will stop this dog will be the turning off of the water in the fountain, and for his sake I hope it will happen soon."

TURKEY NEXT TO BE CONSIDERED BY SUPREME COUNCIL

Paris, Sept. 11.—The Supreme Council will take up the drafting of peace terms with Turkey tomorrow. Premier Lloyd George of Great Britain will arrive here for the purpose. He will be assisted in the conference by Field Marshal Allenby, commander of the Allied forces in Asia Minor, who has just arrived in France. The question of the future schedule work of the Peace Conference also will be taken up, many members of the conference arguing adjournment after full examination of Rumania's reply to the Peace Conference.

ACIDS IN STOMACH CAUSE INDIGESTION

Creates Gas, Sourness and Pain How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweats the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

A New Scheme For Court House Site

Visitor Suggests That Ruins be Torn Away and Apartment House Erected.

A visitor, who has heard of the great lack of housing accommodations in the city, and who has also heard the many scathing remarks regarding the present condition of the old Court House on King Square, makes the suggestion that the ruins be razed and the city erect a modern apartment house there, as a relief of the housing problem and as a certain profit-maker for the City Fathers.

"The plan is being carried out in the night," he declares, "and is meeting with great success. There is no reason why the city should not be a landlord, when it has its hands in many other commercial enterprises. I have been all over the city, and there is no better location in the environs than the Court House site, being at once in the very heart of the business section and right on the border of two of the largest breathing spaces as well."

"When home-seekers are forced to live in hotels because they cannot get even a room in an ordinary lodging-house in which to hang up the Godless-out-home sign, it is time that something was done—and the Court House is neither an ornament nor a thing of utility at the present time."

ESTHONIAN TO BE DEPORTED FROM VANCOUVER

Vancouver, B. C. Sept. 11.—John Kelt, an Esthonian, born at Revel, at one time a sailor in the Russian fleet, but for the past eight years a resident of this city, and the keeper of a pool room, was yesterday ordered deported to Russia by a special immigration board sitting here. Evidence placed by the R. N. W. M. P. operatives indicated that Kelt's pool room was the headquarters of the Russian Workers' Union and Foreign Agitators who, it is declared, were responsible for much of the unrest among foreigners in the logging and construction camps in Western Canada.
