LONDON, Oct. 20—The Pietermaritz-burg correspondent of the Dsily Mail in a despatch dated Thursday says:—

"The brunt of the fighting at Besters' station yesterday was sustained by the volunteer patrols. The nighting was brisk. The Boers numbered 2,000.

"The volunteers at one moment were in great peril, being nearly cut off, but the officers handled their men splendidly, and the Maxims effectively stopped the Boer rusher. The Boer shooting was wretched. Our men were in the saddle three days and two nights with hardly a rest. Basuto natives were fighting with the Boers. It is reported that 16 Boers were killed.

Orange River, Oct. 18 (afternoon, delayed in transmission)—The Boers suffered a reverse on Sunday at Spruitfontein, 10 miles south of Kimberley. An armored train went out to bring in a train reported to have been captured by the Boers near the Spruitfontein siding. A party of Boers who were encamped nearby lowered the railway signal and displayed a white flag, apparently with the idea of inducing the driver to proceed. The driver suspected that the Boers were in possession and stopped the train, whereupon Boers issued in large force and opened fire, but without any effect.

The soldiers replied from the train and about half a dozen Boers were killed. The British were unscratched.
