CATTLE

Reveipt of cattle at the stockyards last week totalled 1931 against 2038 the previous week. The quality shown was on the whole better than during the balance of the spring run but a few head of stock we e about the poorest seen he e this year and sold as low as \$8.00 per cwt. This, however, was for a very few head of canners. While the market is the strongest ever for good food stuff packers a e stee ing shy of anything approaching a "akin" in quality and will pay but a vey low price for these.

Farmers should bear this in mind when shipping stock and hang onto anything that can be put into good condition. Get rid of the scrula at any price but finish the stock that holds forth any decent sort of promise. The price received for these will pay a good profit for the feeding. It is most pleasing, from every standpoint, to note that the general run of cattle is showing a great improvement over former years.

feeding. It is most pleasing, from every standpoint, to note that the general run of cattle is showing a great improvement over former years.

Last week's run sold steady with the previous week for the good quality stuff but prices were down from 15 to 20 cents lower for the poorer grades. The bulk of the arrivals were well finished, grain fed animals and sold from \$6.00 to \$6.25, the local demand being strong and most of the arrivals going to the Winnipeg trade. 992 head were butchered here. Some of the best stock sold to \$6.50 per cwt. The market for these best butchers is strong and active at prevailing quotations. Eastern trade fell off somewhat during the week, not because the easterners didn't want the cattle but because they could hardly compete with Winnipeg bids. Only 196 head of butcher stock went east against 405 the previous week. Some of these however were among the best of these however were among the best of the receipts and it is understood that some of them caught as high as \$6.75.

Trade in exporters was not as heavy and only 110 head were shipped during the week against 490 the previous week. However, 252 head were held over and will probably go forward this week. Exporters state that they are getting some of the best animals that ever landed on the market. Buyers quote \$6.00 to \$6.50 for best export steers and fifty to seventy-five cents lower than that figure for best export grades of heifers. These quotations are with freight assumed by the purchaser.

The shipments of feeders, have also fallen off to some extent, only 237 head going forward against 345 the previous week. As has been stated in previous reports eastern buyers want large numbers of these feeders but are having a hard time to procure them. For a number of years Ontario buyers have picked uplarge shipments through the western farmers are waking up, going into the feeding game for themselves and getting the added profits. Prices offered are

84 to 84.50 for feeders and stockers weighing from 800 to 1000 pounds. Receipts of calves are small and prices paid are 85 to 85.50 per cut. Receipts of all classes were small on Monday's

me. ace again the warning against shipping

Country Produce

Butter Receipts of butter from the country continue low and prices ruling are stronger than a week ago. Then dealers antici-pated that there would be plenty coming forward to take care of at least the Winni-

forward to take care of at least the Winnipeg trade. But such has nor been the case and most of them are short on their orders. However, they expect to see the situation relieved within a week or two.

The rains of the past few days have been of great benefit to the grass, and the dairy animals should soon be on a full grass diet that will greatly increase the butter make. Montreal reports indicate that there is no export demand for eastern butter, and until the extent of the export demand during the coming season is ascertained it will be pretty hard to say anything about prospects. As it looks now the better classes of butter will bring a high price for some time to come. Of course prices will drop off a little when the a high price for some time to come. Of course prices will drop off a little when the receipts become larger but they should remain at a higher level than last summer.

Prices quoted are:

No. 1 Dairy 23c. to 24c.

No. 2 Dairy 20c. to 21c.

Cheese

As yet there is but little cheese being

shipped from western points, and what is coming is selling at low prices on account of poor quality. Mostof it has a stable flavor and will protably continue to have

until the cattle get on a full grass ration. As has been stated this should be in the course of a very few days. The product now arriving brings anywhere from nine cents per pound to 10½ cents. Dealers state that they think that when the full grass product comes it will be much better than in former seasons, and are offering 11 to 11½ cents for it. There is none offered as yet. offered as yet.

It to 11½ cents for it. There is none offered as yet.

Receipts of eggs are about up to former weeks and under a strong local demand have added a half cent per dozen to their price, being now quoted at 18½ cents. The western demand has fallen off during the past week, coast dealers preferring Ontario eggs during their warm season. Local prices will fall off to some small extent when the weather grows warmer as the shrink will be greater then.

Potatoes

There is no improvement in the situation on the potato market. Demand is as bad as ever and the supply is large. Many dealers who laid in stocks last fall wat 35 cents per bushel are willing to sell now at 25 cents and take a large shrink besides. They state that they would con-ider it bad business for any country holder to purchase sacks and pay freight to Winnipeg as they are worth more to farmers as food than they would bring on this market.

Hides, Tallow and Wool

BY McMLILAN FUR AND WOOL CO.

Tallow Seneca root .33c, to 35c. These prices are f.o.b. Winnipeg.

Chicago Live Stock

MAY 23.

Chicago—Hog receipts, 32,000; left over 1,700; market weak at Saturday's average. Light, 89.40 to 89.70; heavy, 89.35 to 89.70; mixed, 89.30 to 89.70; rough, 89.35 to 89.50. Cattle receipts, 22,000, steady to 10 cents lower. Sheep receipts, 20,000.
