THE MANUFACTURERS LIFE INSURANCE COMPANY
Saves Money for Total A stainer

The figures in the following table, show what percentage the actual cost of insurance has been of the expected cost, during the last five years in the two classes of insurers in this Company in Canada.

	1911	1910	1909	1908	1907
Abstainers Section	44.87pc	32.30pc	34.65pc	38.22pc	38.00pc
General Section	79.59pc	51.28pc	15.11pc	82.11pc	72.75pc

This is no matter of theory, but a proved fact. Total Abstainers pay an actual saving in dollars and cents by placing the life insurance.

 MONTREAL P. Q.

Dear Sirs,
 We have used Brandram's B. B. Genuine White Lead—after a careful test of all other white leads—both foreign and domestic—and we use it exclusively in our work.
 For the essential quality of Body—opacity and spreading evenly—securing uniform results by liquid vehicles—retaining its colour—it has reached a point where nothing better could be made.
 Yours, faithfully,
 (Dist. W.T.C.) *Castle & Son*

Our Booklet on Brandram's B. B. Genuine White Lead sent on request.

Wanted at once a man of experience in Job Printing to take place of young man enlisted. Apply stating experience, qualifications for work and pay required.

6th Overseas Universities Coy., C. E. F., Reinforcements for the Princess Patricia's Canadian Light Infantry

Canadians, of whatever nationality, thrill as they recall the wonderful record made by the Princess Patricia's Canadian Light Infantry at Festubert, at Ypres, and many other battlefields in Belgium; how, in the face of overwhelming odds, they held their positions by their courage, steadiness and dogged perseverance.

For nearly a year the P. P. C. L. I. (as the Princess Patricia's Canadian Light Infantry is known in Military Circles) has been reinforced by a steady flow of recruits of the very finest of our Canadian Manhood. These recruits, many now veterans, are determined that this fine Battalion shall not lose its high record, but with their help shall have added honor and prestige in the future.

The reinforcements have been from all over Canada, and the Universities of Canada, have made this Battalion their care. Already 1350 officers and men have gone forward under the title of the Universities Companies and are doing their 'bit' at the front or at Shorncliffe. Five Universities have left Canada.

The P.P.C.L.F.I. is now composed mainly of men from the Universities and the steady flow of reinforcement for this Battalion must not be allowed to stop, and further the standard of the recruits must always be the "best that Canada can offer."

There are many men of the University type whose hearts grow warm as they read and hear the name of the Princess Patricia's for they have brothers, relatives and friends in it, and they wish they could have an opportunity of joining it. To these men the news that a Sixth Company is being recruited under Major McKergow, at McGill University in Montreal, will be welcome.

The Sixth Company is in comfortable quarters at McGill University and has all the advantages of the use of the McGill Campus and the University Building, including the McGill Students Union.

The Universities Companies have been almost overwhelmed with the hospitality of the residents of Montreal and its suburbs.

The training of the Companies has been of an exceptionally efficient character, and has been of a nature to develop specialists, some at musketry, and again others in Physical Training, Bayonet Fighting and Bombing.

The great advantage of these Companies is that men of the social status go forward together, and join a Battalion in which they will find a large number of congenial spirits. Another advantage is the rapidity with which they go forward to the front. The training in Montreal usually takes about three months, and after two months further training in England they take their place in the firing line without unnecessary delay. The reason for this is the fact that these companies reinforce a battalion already at the front.

A considerable number of the men who have joined the Universities Companies have, upon reaching England, obtained commissions in the British and Canadian Units. It is, of course, impossible to make any guarantee, as to promotion of this character, but the nature of the training received and the reputation of the Universities Companies make the chances of promotion excellent for the type of men that the Universities Companies accept.

Intending recruits are examined locally by an Army Medical Officer, receive their transportation to Montreal, and immediately obtain their uniform, and start their training without delay. Readers are invited to make known to their friends this opportunity. The Officer Commanding, 6th O/S Universities Company, McGill University, Montreal, will be glad to supply further information that may be required.

sity, Montreal, will be glad to supply further information that may be required.

HANTSPORT

(From Hants Journal)
 Mr. Manning Gertridge spent several days visiting relatives in Kingston recently.

Mr. Allen Masters arrived from Boston Saturday evening on a visit to his mother, Mrs. T. C. Marsters, Mr. Marsters has been in the employ of the United Fruit Co. for ten years and is at present first assistant engineer on the steamer San Jose. He has not been home for three years and his many friends are glad to see him.

Mrs. Frank Dodge spent Sunday in Windsor with her daughter, Miss Lillah.

Mrs. Jeffers spent the weekend in Windsor.

An agricultural meeting was held in Oddfellows' Hall, Friday evening. W. Saxby Blair, in charge of the Experimental Fruit Farm in Kentville, addressed the meeting. His subject was "spraying of fruit trees in all its phases," which he treated in a very interesting manner. The horticulturists and agriculturists present heard something well worth hearing, and only regretted that there were not more in attendance.

Ptes. Grover Beazley of Hantsport and Chute of Wolfville, of the Dalhousie unit, recently visited Capt. A. F. Davison of Belfast and writes home they were given a "royal good time" at the home of this former Hantsporter.

Pte. Alexander Gibson of Newport Station, Killed.

The sad intelligence reached here last week of the death in France of Pte. Alex (better known as Sandy) Gibson. He was a son of Mr. and Mrs. Wm. Gibson, Newport Station.

"Sandy" enlisted first with the Home Guards about thirteen months ago, but left for England with Composite Reinforcements the latter part of January. He was drafted into the 2nd Canadian Pioneers and had been in the trenches less than five weeks. The despatch stated "Sandy" was killed on April 17th.

He was in his 21st year, and among his comrades at home he was particularly well liked. Our sympathy goes out to the bereaved family, all of whom should be comforted by knowing a loved one fell while doing his duty for King and Country.
 —Hants Journal

CROUP QUICKLY CURED

Don't Let the Child Choke to Death While Waiting For the Doctor.

Hyomei, the miraculous, antiseptic dry air treatment, will cure croup in either the first or second stages. Easily inhaled, even when breathing is irregular, it reaches more promptly than any other remedy the terribly inflamed membrane of the windpipe. Its soothing balsams act immediately, the inflammation is allayed and the swelling reduced.

George H. King, of 22 Wellington Street, South Woodstock, says: "We would not think of keeping house without Hyomei. It has warded off colds, croup, coughs and sore throats for all our three children many and many a time. When a child breathes badly and through the mouth and the glands around the eyes and nose commence to swell, then is the time that we find the Hyomei quickly relieves the trouble and gets the bronchial tubes, lungs and throat cleared up."

Hyomei (pronounced High-ome) is guaranteed by J. D. Clark to cure catarrh, coughs, colds, asthma, bronchitis and croup, or money back. A complete outfit, including a neat hard rubber pocket inhaler, costs only \$1.00. An extra bottle of Hyomei, if afterwards needed, cost 50 cents.

Ask for Minard's and take no other.

NOTICE

All bills due me must be settled by Feb. 1st, 1916. After Dec. 31st, 1915 all blacksmith work will be strictly cash.
