

Some People we Have Met.

BY HARRI HARRIS.

Good people. We are glad we have met many of them to meet. But I am sure that good people are not just quite as good as they need to be. If the Lord today would send a disciple to a village over against most any of us for a coat, we would never have met, the chances are he would not "lose him and bring him" until he had given the owner something like a hundred dollars. The men that would send a coat for no other consideration than that the Lord had met of it are a little scarce in our polling district. I know of one man that would but he hasn't a coat. I like to tell of that man in Scripture that sent his so willingly. He was a model man, but he wouldn't be called a shrewd farmer. His neighbors no doubt considered him too easy going, and thought it would be better to lay up something for a rainy day than to be so liberal. But I know that man never wanted on a rainy day. If a cup of cold water brings its reward, a coat will bring its. The Lord will not let a man go hungry because he was good to Him. You would think to hear some good people talk that you could give too much to the Lord. But you never saw any righteous forsaken. The men that are giving one tenth and more to good purposes are our prosperous men; the men whose credit is poor, and whose mortgages are heaviest are the ones who have given little and none. What is the use of saying the Lord owes the cattle upon a thousand hills, and then when he calls for a pair of oxen send only a calf? Actions speak louder than words; you can see how a man trusts by the way he acts. Good people should not be inconsistent in their liberality. The paper says "An Amherst congregation is to build a \$25,000 church." Why not build a \$5,000 one, and put \$20,000 in the foreign mission fund? Why wrestle in prayer for the heathen unless we are doing everything we can to answer that prayer? Twenty thousand dollars would keep a missionary at work for twenty years, and the Lord will meet worshippers in a five thousand dollar church. Until we get the heathen converted it would be well to be economical. Good people are the best people we have. The religious are more respected than the irreligious. The world recognizes a difference. A reformer would rather have a book-keeper that prayed than one who was a tip-top sweater. While goodness is better than badness good people will be ahead.

The *Delinquent* for June is called the "Summer Number," and is a superb issue in every respect, the amount of printed and illustrated reading matter being largely increased. The article in the *College Series* describes *A. G. H. Life and Work at Smith*, and is written by a recent and brilliant graduate. There is also a very suggestive and entertaining paper on *A. G. H. and the School Commencement*. Nothing of an employment for women is ably treated by Louise Darche, Superintendent of the New York City Training school for Nurses. An appropriate "pattern" article, in addition to the regular monthly issue, is *How to Dress for Summer Sports*; and another, equally suitable to the time, gives information on *Trunks and Trunk Packing*. The opening chapter on *Veal Cakes*, by the author of *Delicious Physical Culture*, begins in this number, and should prove as beneficial as the series just closed. The papers on *Hygienic Living* are continued; and the confidence that should exist between Mother and Daughter is the theme of the article bearing that title. A Rosebud Party is described, and other contributions are: *How to Serve Small Fruits*, *Daintiness in the Home*, the ever popular *Tea Table Gossip*, and *Among the Newest Books*. The articles on *Knitting*, *Tatting*, *Netting*, and *Crocheting* show in my original and attractive designs. The subscription price of the *Delinquent* is \$1.00 a year. Single copies 15 cents. Address orders to *The Delinquent Publishing Co. (Ltd)*, 35 Richmond Street West, Toronto, Ont.

The Buchanan Case.

Equal to a Resurrection—Almost helpless from Kidney Disease—A burden to Himself and his Friends—Dodd's Kidney Pills Cured Him.

Chatham, April 29.—The story of Sherman Buchanan, living near Lexington, is worthy of notice. He says he was almost helpless, bloated and a wreck with kidney disease. His digestive organs were powerless and he was rapidly becoming a burden to himself and his friends. Naturally he lost all hopes of recovery, but a happy thought suggested Dodd's Kidney Pills and these cured him. Dodd's was the first kidney remedy in pill form ever offered the public. Its wonderful success in curing all forms of kidney disease, has led to the introduction of numerous cheap and worthless imitations. Purchasers for their own safety should insist on getting Dodd's Kidney Pills. Sold in large boxes; price fifty cents or six boxes for \$2.50. To be had of all dealers.

A. E. VanGieson, Chief Inspector of New York Board of Fire Underwriters, writes: "I have taken your K. D. C. with satisfactory results; I can freely recommend it to any suffering from dyspepsia; I think I had it as bad as anyone could well have it, but I am now free of it. I gave your guards a fair trial, and shall always have it on hand for use to correct indigestion in diet."

Free sample of K. D. C. mailed to any address. K. D. C. Co., Ltd., New Glasgow, N. S., and 127 State Street, Boston, Mass.

A Child's Vocabulary.

The statement that a child 5 1/2 years of age would not have more than 150 words in its vocabulary that it was able to use understandingly led a careful mother to note for a month the number of words used by her child. All the parts of speech used were recorded, with the result that in this case the child appeared to have a vocabulary of 1,500 words.

Plebsic Lessons.

BY J. PARSONS, HALIFAX.

(1) The recent vote has been a fine educator. Thousands of our own temperance people did not know how strong we are. Many thought we would get a majority. Only a few expected Halifax to be on the right side. The fact is the rummies and their friends have ridden so long in the saddle and most of the time rough shod, that they thought themselves masters of the whole country. The meeting and joking at our expense which prevailed so extensively in the past has been suddenly knocked in the head. Temperance has developed so much power that now everybody is delighted to take off his hat to it. This bowing to the people's wishes will be shown in the courts of law as well as in politics and society. Years ago the judges delighted to clear the liquor seller, on the smallest technicalities and for reasons often so silly that even liquor people had to smile. And up to recent dates objections have been overruled or amended in cases against a thief or murderer have been accepted by the judge and the rummeller released. And as to the magistrates' courts, there are justices of the peace in some counties who can be got to issue process and take action to arrest and to jure those who are presiding behind the liquor traffic. With the temperance tone high and rising, our governments must be very careful not to appoint rummies either as magistrates or judges of higher courts. I venture to predict that these strong men will be the best judges in the future. The sooner New Brunswick can get a chance to vote "yes" or "no," the better. Politicians are much more susceptible to the popular will than even judges, magistrates and sheriffs.

(2) Our majority is not so large as we wished, but it is quite as great as my knowledge of our Province led me to expect. We stand four to one for prohibition. We have a large majority of all who went to the polls. If any political party could get such a sweep as that on just one month's canvass they would be wild with delight; and well they might. Surely no one can blame us for hurrahing some, who were always before thought to be in the minority. But just here we must be careful not to get wild and run into error. Some are clamoring now for a political temperance party; some want a prohibitory law enacted immediately; some want the temperance people in every polling district to meet and arrange that whatever church or party they belong to will endeavor to have temperance unity and act in harmony. This last proposal is praiseworthy; the liquor men have practiced this for years, and thus have dominated parties and churches. It is time that our farmers and townsmen (temperance) should also adopt it.

(3) This vote gives most convincing proof of the good done by temperance societies. Where these societies flourished the heaviest "yes" vote was polled and the smallest number of people shirked their responsibility. As an instance of this, the heaviest "yes" vote, thirteen to one, was in Kings County, where the Sons of Temperance have 23 divisions; and where the heaviest "no" vote was polled—Antigonish—only one division exists. And so it can be measured in polling districts as well as counties. Every Temperance society is a fortress to protect and train the members, and to educate the general community as well as to help drive out the liquor traffic. Let our solid men and women in every district see to it that our lodges, divisions, and unions are well sustained, not disbanded through indifference, nor ruined by frivolity. They are too valuable to young and old, rich and poor, to suffer injury or decay. We need such societies now and for the next twenty years more than ever before. And every society should sustain its Head of Hope or Juvenile Temple same as every church now must have a Sunday school. Remember, as the children of to-day are taught and trained, so will the population be 20 years hence. Keep the forts well guarded.

(4) Party papers and the Sons of Temperance began educating the people by lectures and literature. The Grand Division has supported a paper most of that time, and besides have distributed hundreds of thousands of tracts and papers. Our lectures have been in the field more than 25 years—since 1854—one, two and sometimes three agents being employed. We spent about \$2,000 a year.

We have records for the past 26 years, showing some of the work of the Grand Division as follows: Public meetings addressed by our lecturers, 6366, attended by about 636,000 people; 4,600 visits to schools with 152,000 pupils; 5,000 visits to divisions; 341 divisions organized with 9,408 charter members; 278 dormant divisions resuscitated; 180 Bands of Hope formed with 5,178 children as charter members; 200,000 temperance tracts distributed.

(5) We must not fold our arms. This victory is only the taking of the first of the enemy's outposts, and he is somewhat dazed by the defeat. But he is not yet beaten or destroyed. There are valuable men and some women in Nova Scotia who, despite gold cure, temperance society, and church, will die from the effects of drink. There are to day in our homes some very precious boys who will become drunkards if we do not work harder than ever before.
