June 4th., 1924.

The Right Honorable Arthur Meighen,
Parliament Buildings,
Ottawa, Can.

Dear Sir:-

I am taking the liberty of asking your support to the amendments proposed by the Private Bills Committee to the Church Union Bill. The Bill as prepared is decidedly objectionable to a very large section of the Presbyterian Church, and the delay proposed in the amendments will give an opportunity of arriving, I trust, at a satisfactory compromise between the opposing sections, and it will, I am sure, throw a great deal of light upon the subject, both from the standpoint of legality as well as of justice in this perplexing problem. I make this appeal with the utmost confidence that you have in common with all concerned on both sides of this question, a sincere desire to bring about that which is best for the cause of the church.

I have the honor to be, Sir,

Your obedient servant,

A. T. Laing
