Ottawa, April 19, 1911.

Gentlemen,-

Referring to your letter of the 10th instant I have to say that applications for lands in Indian reserves required for Railway purposes should be made to this Department and should be accompanied by one plan on tracing linen certified by the Board of Railway Commissioners and two blue print copies.

As the spur to the Finger Lumber Company's Mills is located on Indian land that has been surrendered and is held by this Department to be sold, the plan (and copies) as filed is sufficient. It is of record in the Survey Branch of this Department under No. 1043.

Your obedient servant,

for Asst. Deputy and Secretary.
