

HOW COMFORT SOAP IS MADE.

The Largest Soap Works in Canada.

YOU have probably never visited a monster soap factory, and may find it entertaining to take a short run through our manufacturing premises with us, and form a slight realization of the work entailed in "keeping Canada clean."

*Where
"Comfort"
is made.*

Our factories are situated at Toronto Junction—in the midst of a net-work of tracks of the great railways of the country—with special sidings of our own, extending to every department and annex, and of such volume that a whole train of cars can be placed at once thereon. That these great facilities are necessary is forced on the attention as one approaches the factory, it being literally surrounded with cars loaded with the products which enter into the manufacture of "Comfort" Soap. Here are huge tank cars discharging their thousands of gallons of sweet-scented cotton-seed oil
