VANKLEEK IIILL—The weather has continued remarkably dry and, as a conplowing the continued remarkably dry and, as a conplowing done as usual. In many places, especially in heavy clay soil, plowing has been very difficult. Water has been scarce with a good many farmers and, in quite a few cases, cattle were not getting a full supply. As pasturage was generally and early. There will be a smaller quantity of butter made after the close of the cheese season than usual, as cows are generally thin, and feed deddedly scarce. Where corn has been grown to any extent, the magnificent crop has made the tent, the magnificent crop has made the seems more and more evident that farmers should grow more and more corn and clover.—W. E. M.

all that can be desired—B. B. H.

VICTORIA CO, ONT.

FINERION PALLS.—Verily this is a peculiar eason. Last week one farmer was drawing green wood out of the woods on sleighs with good enough sleighting to bring a cord at a time, while his beighbor across the fonce was plowing beighbor across the fence was plowing beighbor across the fence was plowing to the record the fonce was plowing to the record the fence was plowing the being harder and the stock have been stabled and fed during the month but a few have had to did any time last spring. The robins, canaries, crows, butterfiles, and monguing man coming home late at night claimed dent can't believe that for he has yet to draw water for his cows. But spring is not yet for the small boy has not resurrected the marbles. Cattle are out sand green. Cows are gaining in their milk and the short feed man is beginning to think there is still form in Egypt. Plowing goes better than ever and the shired man.—We B. J. PORT ELGIN.-November has been

autumn and if the season is favorable there should be a good crop of hay.—J. MUSKOKA DISTRICT, ONT.

HUNTSVILLE.-Owing to the cold weath-HUNTSVILLE.—Owing to the cold weather and snow, farmers have been obliged to put their implements away for winter. They are now engaged in cutting income the cold of the cold markets and feeders on the large markets is rather poor, a large number of inferior beef cattle are placed on the local markets and feeders cattle are placed on the local markets and command average prices. Deer hunters did not have much success, but several parties who went farther north several parties who went farther north every man.—F B. B.

Canada. One of the imp. sows in this herd Canada. One of the imp. sows in this herd that won ist and silver medal at Toronto this fall is now nursing a fine litter of pigs from a Toronto prise winning boar. Two six months old boars and a few sows from the same sire and dam are also belog offered for sale, along with others of equally good breeding. Anyone want-ing new blood in Tamworths should se-cure some of those pigs.

Jas. Begg, whose fine farm is within a rifls shot of the city of St. Thomas, Out, has a typical herd of modern Ayrshires. His cows have nicely shaped udders and splendid teats, all capable of producing 40 lbs and upwards of rich milt, which the ing. Mr. Begg is now offering two richly bred bulls ready for service. One of them is y Ricus Hats of Lessnessock. His dam is White Heather, a show cow that is performance. The younger bull is by Bunny Jim. bred in the famous Woodruffe berd of J. S. Clark, Ottawa. These bulls are bred right and the quality is also ulars, mentioning this paper, and he will be pleased to tell you all about them.

HOLSTEIN FRIESIAN NEWS

The Canadian Dairy man and Farming World is the official organ of The Canadian Holstein-Friesian Association, all of whose members are readers of the paper. Members of the Association are invited to send items of interest to Holstein breeders for publication in this column.

The Holatein-Friesian Association offers a silver cup at the Ontario Provincial Winter Fair, and one at the Maritime Winter Fair, for the champion grade dairy cow, providing she be sired by a Holatein-Friesian registered bull, whose name and number must be given at the time of

I now maintain a herd of 45 pure bred Holstein eattle and six horses on 56 acres, and purchase not one dollar's worth of feed, except a small amount of balanced rations used to feed one of the cows while being officially tested for milk and butter fat. Next year I propose to increase my herd to 50, and espect to raise plenty to feed all. The only products sold to 50 butter fat. Next year I product sold to 50 butter fat. Next year in products sold to 50 butter fat. Next year in products sold one of the fatter I have sold \$2500 worth of pure bred stock since Oct. 1, 1997.

My milk brings me about \$100 a month besides feeding whole milk to every calf born for at least six months. Of course the system of farming eliminates all pasturage and requires two. and sometimes three, crops from the land each season. The alfalfa produces three crops, and we generally manage to get two, and sometimes three, crops for soling purposes, the state of t
