

PALL MALL
FAMOUS CIGARETTES

ROYALS MADE AN EVEN BREAK WITH NEWARK IN DOUBLE HEADER

HIS WEDDING DAY.
Walter Johnson Celebrates by Trimming Philadelphia—Big Entry List for R. C. Golf Championships Next Monday in Ottawa.

With the high temperature yesterday, the water consumption was about 1,000,000 gallons more than the pumping capacity, and in consequence the water in the reservoir had to be drawn on to that extent. Stations are stated last night that the consumption was about 54,000,000 gallons, the capacity of the pumps was 53,000,000, which accounted for the fact that the reservoir was not quite full. During the past twenty-four hours, he said, one foot was lost on account of the heavy draught coming from all parts of the city.

By next Saturday, Supt. Lesage stated the broken pump would be again in business and the motor would be substituted temporarily for the steam power, and with this expedient fully three-quarters of the capacity of the pump would be secured, or 9,000,000 of the 12,000,000 gallons.

Arrangements were also being made yesterday with the Montreal Water & Power Company to supply the city with a few hundred thousand gallons of water for Delorimer Ward.

ANGRY AT PRESIDENT.
Goifer Indignant When Chief Executive's Drive Whizzed Past His Ear.

Washington, June 25.—Washington golfers are chuckling over an incident which took place Saturday morning when President Wilson and Dr. Cary Grayson were playing a round of golf at the Washington Suburban Club.

The latest holder of the Bideaux pair, canoe reg. says that the Bideaux pair, Gamble and Thompson are in the lead with Pauline and Ross of Cartierville a close second. Unfortunately Spicer and Plunkett, who finished fourth and fifth last year, but were disqualified because they were not members of sufficient standing in any club, have been again disqualified for failing to report at Port Main.

The M. A. A. should receive credit for their consistent efforts to maintain an interest and produce high class performers in track and field athletics. The latter, however, Saturday will bring out a record of his own.

GOOD INVESTMENTS
No Excuse For People Getting Stung With "Phony" Stuff.
(New York Commercial.)
One of the clients of a downtown broker brought in some Wisconsin Pea Canners Co. bonds, part of an issue of \$200,000 6 per cents due in 1915. "No market," said the broker. "Never heard of 'em, and I can't find them anywhere in my manual. But I'll get in touch with Chicago."

Two days later the broker reported that no broker in Chicago could give the slightest information on the company or its bonds.

All back coupons had been clipped from the bonds, but the broker pointed out that the fact did not prove they had been paid.

Thereupon the client suggested that the bank which was named as the trustee under the mortgage, and at which the coupons were supposed to be paid, be asked for information.

The bank replied that the company stood high—that interest had been promptly paid—and that the mortgage company had received \$40,000 of the bonds, anticipating their maturity a year or more.

"It simply shows," said the broker, "that this little world is full of good things, and that there is no excuse for people getting stung with 'phony' stuff."

AROUND THE CITY HALL NEWS

Alleged Sewer Construction Overcharges Said to be Greater Than at First Suspected.

The completion of the examination into alleged sewer overcharges has revealed facts that are worse than anticipated. The alleged overcharge amounts to much more than had been originally suspected, totalling, it is said, about \$150,000. The inquiry will open on Tuesday. Meanwhile the payrolls are being examined but as yet no trace of suspected padding has been found.

With the high temperature yesterday, the water consumption was about 1,000,000 gallons more than the pumping capacity, and in consequence the water in the reservoir had to be drawn on to that extent. Stations are stated last night that the consumption was about 54,000,000 gallons, the capacity of the pumps was 53,000,000, which accounted for the fact that the reservoir was not quite full. During the past twenty-four hours, he said, one foot was lost on account of the heavy draught coming from all parts of the city.

By next Saturday, Supt. Lesage stated the broken pump would be again in business and the motor would be substituted temporarily for the steam power, and with this expedient fully three-quarters of the capacity of the pump would be secured, or 9,000,000 of the 12,000,000 gallons.

Arrangements were also being made yesterday with the Montreal Water & Power Company to supply the city with a few hundred thousand gallons of water for Delorimer Ward.

NEWS OF THE WORLD

Colombia Treaty Makes Laughing Stock of United States
Says Col. Roosevelt.

Washington, June 25.—Members of the banking firm of Brown Bros. & Co. and of J. Bond W. Seligman & Co. will be subpoenaed to testify as to their interests in Nicaragua, before the Senate Foreign Relations Committee. Others who will probably be summoned in connection with the investigation of the pending Nicaragua treaty, which is being considered by the Foreign Relations Committee, Secretary of State Bryan announced before the committee again to-day.

After Mr. Bryan left the committee decided to report favorably on the financing of Nicaragua and on the resolution to be taken by the United States Department and the New York banks. This resolution, mentioning Brown Bros. & Co., J. & W. Seligman & Co., and C. P. Flint, introduced last week by William Alden Smith, Michigan, and all flat statements, including names of persons who had been in the inquiry with the administrator of the canal.

That next year there should be a record general trade in Canada is a statement made by Clarence J. McCaughey, of Montreal, when interviewed by a representative of the London Express, yesterday. Canadians would, he says, prefer to buy manufactured goods from England and trade along this line could be greatly increased if English manufacturers made a more careful study of Canadian requirements. At present, he said, the trade had already increased to such an extent that English manufacturers should study the question of establishing branches in Canada.

Dr. Morrison, political adviser to the President of the Chinese Republic, who has arrived in England, will in a few weeks return to China, with a British Columbia, with the intention of investigating the immigration question in that province on the spot. Inter-viewed yesterday, he corrected the misapprehensions as to the present conditions in China. He gathered that China was supposed to be in a state of anarchy, whereas it was in fact, he said, comparatively more settled than other countries. He had been since the revolution, or for some time before. The best and most progressive politicians of the Manchou regime had returned to the life and were working in harmony with the pick of the Young China Society. Although Prince Adalbert had been suspended, a constitution had been prepared by a council of seventy picked men under Dr. Arriga, a distinguished Japanese, and Dr. Goodnow, of Johns Hopkins University.

Ten bodies of fishermen have been recovered from Lake Constance and at least 25 more are missing, believed to have been drowned in a sudden terrific storm which occurred over the region Tuesday. The storm broke so quickly that the fishermen were unable to reach land, only a mile or so away. Many were rescued by lake steamers and other craft after their light boats had capsized.

Preparations for the commencement of the inquiry into the commercial feasibility of the Georgian Bay Canal are being made by Mr. W. Sanford Evans, chairman of the Georgian Bay Canal Commission. Mr. Evans is now in the capital for the purpose of the formation of a statistical character in regard to a variety of subjects which are being investigated by the commission's investigators. The data being collected, and compiled by the staff employed by the commission. It includes much information as to existing railway freight rates, the route, with which the canal will supply competition. Evidence will not be taken from witnesses for some weeks.

Two flights at Johannisthal have demonstrated that an aeroplane journey across the Atlantic is coming within a range of possibility.

The first flight was that of the German aviator, Basser, who ascended at 1:49 o'clock Tuesday afternoon and remained in the air for eighteen hours and twelve minutes, thus breaking the record for a continuous flight made by the Frenchman Poles on April 26 of 16 hours and 28 minutes.

There is considerable agitation in Charlottetown over the running of an automobile between the city and Alberton on prohibited territory. Permission was given by the Premier to Massachusetts legislative committee on the subject. After pointing out that the writer, on himself and associates, submitted some weeks ago a \$50-per-share offer for the Boston & Haven, the committee reported that the offer was not accepted.

"We recognize that there are public interests involved in the broad question of the disposition of this stock and that the legislature in the protection of these interests and accordingly respectfully submit as a further consideration if accepted, we will provide representation by the public on the board of directors of the Boston & Haven to that end suggest that the acceptance of our offer that of a board of 15 directors, three named by the governor and council of Massachusetts, and one each by the executive department of Maine, New Hampshire and Vermont, and that this provision be incorporated in the organization of the company in the several States. This would provide direct representation of the public without absolute State ownership. Details of reorganization would be comparatively simple, if the broad question of public and utility questions of price and public utility and recognition were once determined."

SUIT FOR \$2,000,000.
John Treadwell, discoverer of the Treadwell mines of Alaska is defendant in suit by receiver of California Safe Deposit & Trust Co. to recover \$2,000,000. It is alleged that he is a director of the trust company borrowed on his own account and through friends.

Twenty aeroplanes crashed the common grave of nine airship victims at Vienna. The leading airman came off the ground and dropped a wreath into the grave.

BANKERS SUMMONED

Washington, June 25.—Members of the banking firm of Brown Bros. & Co. and of J. Bond W. Seligman & Co. will be subpoenaed to testify as to their interests in Nicaragua, before the Senate Foreign Relations Committee. Others who will probably be summoned in connection with the investigation of the pending Nicaragua treaty, which is being considered by the Foreign Relations Committee, Secretary of State Bryan announced before the committee again to-day.

GLEANED FROM MANY SOURCES

California crops this year are valued at over \$500,000,000.

Herald Square Theatre of New York will be torn down and a \$5,000,000 12-story mercantile building erected in its place.

Assistant General Manager Campbell of Southern Pacific declares that a train 7,000 miles long will be needed for the great 1914 crop.

Kosmos Line of Hamburg may establish a line of steamers between New York and western ports of South America via the Panama Canal.

Vaults of Swiss banks are said to be literally crammed with securities sent from France and Germany in order to avoid heavy surtaxes laid on capital in those countries.

Port of London loan offered last week was highly successful, applications being so large that only 87 p.c. of subscriptions were allotted to applicants. Offering was £1,000,000 in 4 p.c. notes at 96.

George M. Reynolds, president of Continental & Commercial National Bank of Chicago, declares that normal conditions in that centre are again normal and that all weak spots have been eliminated.

Formal demand for control of customs collections of Hayti, has been made by France and Germany. Unless United States acts, France and Germany will probably supervise finances of this bankrupt republic.

So far this year number of third class and steerage passengers arriving at United States and Canadian ports have been 183,172 less than during the same period of 1913, while emigrants have been 70,036 more.

Port directors of Boston have awarded contract for new dock to Holbrook, Cabot & Rollins at \$1,846,382. Contract for Commonwealth Pier No. 1, East Boston, has been awarded to Woodbury & Leighton, at \$658,857.

Brooklyn Rapid Transit, Brooklyn Union Gas Co., and Edison Electric Co., three of the largest labor employers in New York have perfected plans to carry their own workmen's compensation insurance under workmen's compensation law.

Guillaume Marconi has added two new important improvements to his wireless invention. These are gun-firing by wireless and his new Marconi system of fog-signalling. Official announcements of these two important discoveries will shortly be made.

Three-day sham-fight at Petewawa, no concluded, was marked by clever tactics and spectacular incidents.

Explosion of gasoline stove in Senate wing of Parliament buildings at Ottawa caused a small fire.

Rev. Dr. Wemyss, a leading Methodist minister, of London, Eng., has just served two days in prison as a passive resister against the Education Rate.

Mrs. Laporte, a Scotch lady, has just killed four lions in South Africa.

Richard Harrison, banker of Carberry, Man., has been committed for trial on three charges of forgery.

Differences between Senator Belmont and his wife have been settled to the satisfaction of both parties.

Mayor Mitchell's pistol accidentally shot ex-Senator William H. Reynolds in front of the Mitchell home at 258 Riverside Drive, New York City. Reynolds may recover.

It is expected that the Empress of France's inquiry will conclude to-morrow.

Sir Thomas and Lady Roddick, who were spending a few days this week in New York, sailed yesterday for Europe.

Dr. Anna Shaw advocates a national divorce law for the United States. Divorce, when justifiable, should be within the reach of every purse, she says.

Sir Arthur Conan Doyle is spending a few days in Algonquin Park.

Constantine Thomas Moore has been fined \$20 and admonished from the police force in Westmount for assaulting Constable Jones.

UNIONISM IS GROWING RAPIDLY IN GREAT BRITAIN

Increase From 1911 to 1912 Was More marked in United Kingdom Than Any where Else.

P. C. OF POPULATION.
Figures Showing Proportion of Trade Union Members to Population Gives Australia the Premier Place Among Industrial Countries.

In Monday's issue there was published a resume of the report of the Department of Trade and Labour in respect to the organization in Canada, but the report also contains a statement showing the standing in trade unionism of the chief industrial nations for the years 1911 and 1912, with figures showing the percentage of union membership to total population, as indicated in the following table:

Country.	Union membership, 1911.	Population, 1912.	Percentage of union membership to total population.
Great Britain	3,010,346	3,813,973	45,365,599
France	1,029,238	39,601,509	4,607
Belgium	92,735	7,516,739	3,083
The Netherlands	152,083	5,945,155	2,845
Denmark	128,224	1,810,112	2,757,075
Norway	116,500	1,218,866	5,221,943
Finland	53,530	60,975	2,391,782
Sweden	19,640	23,839	2,757,075
Germany	3,061,002	3,817,271	3,120,264
Austria	496,253	5,631,111	28,321,088
Bosnia-Herzegovina	5,587	5,522	1,838,044
Croatia-Slavonia	5,587	5,522	1,838,044
Hungary	95,180	11,986	2,416,300
Serbia	8,337	5,900	2,911,701
Romania	6,908	9,708	6,068,000
Switzerland	78,119	3,113	3,741,971
Italy	709,543	869,502	3,087,800
Spain	80,000	100,000	19,588,688
Canada	2,282,341	2,496,000	91,972,268
United States	1,120,120	176,799	7,904,627
Australia	364,999	433,224	4,733,858
New Zealand	55,629	60,622	1,070,819

The total trades union membership of the world for 1912 stood at 12,084,490. In the above table it will be observed that the union membership of the United Kingdom is rapidly increasing in Germany, the first named country having an increase of over 900,000, and the latter slightly over 250,000, giving Great Britain nearly a half million more of union membership to its much larger population, considerably below Great Britain and Germany. The statement above printed, however, shows Australia as the most highly unionized country in the world.

The report gives some attention to the general scheme of organization which has developed in the federations, district councils and trades and labour councils to be formed in the leading industrial centers. Particulars of these various bodies are given.

An interesting chapter is given to a discussion of some leading features of the chief railway labour brotherhoods and orders, the elaborate and sometimes being dealt at some length. Consideration is also given to "general" matters of vital import pertaining to the leading bodies embraced in the report.

The feature introduced in the report for 1912 showing disbursements made during the year on account of beneficiary work of central labour organizations operating in Canada is continued in the present report. Of the 101 features of varying extent. The grand total in the Dominion, 72 have been accounted of benefits by these organizations for the last fiscal year. Nearly one-half of this amount was expended in death and disability benefits. The disbursements for the larger payments for \$7,556,876. The railway brotherhoods of the Brotherhood of Railroad Trainmen alone amounting to \$2,410,985. These disbursements are, of course, for Canada alone and not being available.

The report also serves as a directory of trade unions of every known local, national and international character, together with the names and addresses of the chief executive officers.

ROYALS MADE AN EVEN BREAK WITH NEWARK IN DOUBLE HEADER

Walter Johnson Celebrates by Trimming Philadelphia—Big Entry List for R. C. Golf Championships Next Monday in Ottawa.

The Royals made an even break with Newark yesterday. The Indians took the first half of the double-header 6 to 2, and the Royals copped the second 3 to 1. Two hits, two passes and two errors by Whitman in the last lost the first game for Miller.

In the whole, Dale held the Indians for the whole route, but weakened in the 8th, when he filled the bases and two errors by Whitman in the 9th and 10th put the Royals in the lead. The bad hole by Kippert, who smothered off Heckinger's bid and clean up hit in the 9th when Witter's long drive was speared by Whitman.

Leafs and Orioles made an even break of a double header yesterday.

Providence made it four straight from Buffalo yesterday.

The Skeeters ran wild yesterday and trounced Rochester in both games.

Walter Johnson celebrated his wedding day by letting the Athletics down in the last of his double header. The Senators took the first half of the double header, Bobbing doing even better than big Walter.

Chicago beat Detroit 5 to 2 yesterday and Governor's series of runless innings was interrupted. He was pitching his last third of his third runless season when Clete came across the pan.

The Pirates are now resting in 6th place. A young fellow townsmen named Deak, pitching for St. Louis yesterday, let them down with four scattered hits.

The annual meeting of the Royal Canadian Golf Association which opens in Ottawa on Monday, will be of an important character, as it is expected that at least two of the Americans who have returned from the Old Country will participate. J. G. Turpin, said to be the present holder of the Earl Grey trophy, is expected to have been competing for the prize. The entry list is large, and contains the names of the best golfers in Canada, among them Geo. S. Lyons, many times Canadian champion, and T. B. Keith, holder of the Montreal and District title.

The latest reports from the 200 mile canoe reg. say that the Bideaux pair, Gamble and Thompson are in the lead with Pauline and Ross of Cartierville a close second. Unfortunately Spicer and Plunkett, who finished fourth and fifth last year, but were disqualified because they were not members of sufficient standing in any club, have been again disqualified for failing to report at Port Main.

The M. A. A. should receive credit for their consistent efforts to maintain an interest and produce high class performers in track and field athletics. The latter, however, Saturday will bring out a record of his own.

GOOD INVESTMENTS
No Excuse For People Getting Stung With "Phony" Stuff.
(New York Commercial.)
One of the clients of a downtown broker brought in some Wisconsin Pea Canners Co. bonds, part of an issue of \$200,000 6 per cents due in 1915. "No market," said the broker. "Never heard of 'em, and I can't find them anywhere in my manual. But I'll get in touch with Chicago."

Two days later the broker reported that no broker in Chicago could give the slightest information on the company or its bonds.

All back coupons had been clipped from the bonds, but the broker pointed out that the fact did not prove they had been paid.

Thereupon the client suggested that the bank which was named as the trustee under the mortgage, and at which the coupons were supposed to be paid, be asked for information.

The bank replied that the company stood high—that interest had been promptly paid—and that the mortgage company had received \$40,000 of the bonds, anticipating their maturity a year or more.

"It simply shows," said the broker, "that this little world is full of good things, and that there is no excuse for people getting stung with 'phony' stuff."

That natural gas exists in large quantities in the parish of St. Bernard, by Country of St. Hyacinthe, has been proved beyond question by one well 1,800 feet deep, producing a flame from 75 to 100 feet high.

RECORD TRADE NEXT YEAR

Mr. G. J. McCaughey interviewed in London, France, Big Business Between Great Britain and Canada—Says China is Not Unsettled.

In a lengthy statement issued last night by Colonel Roosevelt upon his recent tour in Europe on the Emperor's former president declared that the payment of \$25,000,000 to Colombia for having secured the right to build the Panama Canal, as provided for in the pending treaty, would be merely the payment of belated blackmail.

"If the proposed treaty is right," he said, "the presence of the United States in Panama is wrong, and Panama should therefore be restored to Colombia and the United States should abandon the zone."

That next year there should be a record general trade in Canada is a statement made by Clarence J. McCaughey, of Montreal, when interviewed by a representative of the London Express, yesterday. Canadians would, he says, prefer to buy manufactured goods from England and trade along this line could be greatly increased if English manufacturers made a more careful study of Canadian requirements. At present, he said, the trade had already increased to such an extent that English manufacturers should study the question of establishing branches in Canada.

Dr. Morrison, political adviser to the President of the Chinese Republic, who has arrived in England, will in a few weeks return to China, with a British Columbia, with the intention of investigating the immigration question in that province on the spot. Inter-viewed yesterday, he corrected the misapprehensions as to the present conditions in China. He gathered that China was supposed to be in a state of anarchy, whereas it was in fact, he said, comparatively more settled than other countries. He had been since the revolution, or for some time before. The best and most progressive politicians of the Manchou regime had returned to the life and were working in harmony with the pick of the Young China Society. Although Prince Adalbert had been suspended, a constitution had been prepared by a council of seventy picked men under Dr. Arriga, a distinguished Japanese, and Dr. Goodnow, of Johns Hopkins University.

Ten bodies of fishermen have been recovered from Lake Constance and at least 25 more are missing, believed to have been drowned in a sudden terrific storm which occurred over the region Tuesday. The storm broke so quickly that the fishermen were unable to reach land, only a mile or so away. Many were rescued by lake steamers and other craft after their light boats had capsized.

Preparations for the commencement of the inquiry into the commercial feasibility of the Georgian Bay Canal are being made by Mr. W. Sanford Evans, chairman of the Georgian Bay Canal Commission. Mr. Evans is now in the capital for the purpose of the formation of a statistical character in regard to a variety of subjects which are being investigated by the commission's investigators. The data being collected, and compiled by the staff employed by the commission. It includes much information as to existing railway freight rates, the route, with which the canal will supply competition. Evidence will not be taken from witnesses for some weeks.

Two flights at Johannisthal have demonstrated that an aeroplane journey across the Atlantic is coming within a range of possibility.

The first flight was that of the German aviator, Basser, who ascended at 1:49 o'clock Tuesday afternoon and remained in the air for eighteen hours and twelve minutes, thus breaking the record for a continuous flight made by the Frenchman Poles on April 26 of 16 hours and 28 minutes.

There is considerable agitation in Charlottetown over the running of an automobile between the city and Alberton on prohibited territory. Permission was given by the Premier to Massachusetts legislative committee on the subject. After pointing out that the writer, on himself and associates, submitted some weeks ago a \$50-per-share offer for the Boston & Haven, the committee reported that the offer was not accepted.

"We recognize that there are public interests involved in the broad question of the disposition of this stock and that the legislature in the protection of these interests and accordingly respectfully submit as a further consideration if accepted, we will provide representation by the public on the board of directors of the Boston & Haven to that end suggest that the acceptance of our offer that of a board of 15 directors, three named by the governor and council of Massachusetts, and one each by the executive department of Maine, New Hampshire and Vermont, and that this provision be incorporated in the organization of the company in the several States. This would provide direct representation of the public without absolute State ownership. Details of reorganization would be comparatively simple, if the broad question of public and utility questions of price and public utility and recognition were once determined."

SUIT FOR \$2,000,000.
John Treadwell, discoverer of the Treadwell mines of Alaska is defendant in suit by receiver of California Safe Deposit & Trust Co. to recover \$2,000,000. It is alleged that he is a director of the trust company borrowed on his own account and through friends.

Twenty aeroplanes crashed the common grave of nine airship victims at Vienna. The leading airman came off the ground and dropped a wreath into the grave.

KAISER'S SON COMING

Prince Adalbert Expected to Visit the United States for Canal Opening.

Berlin, June 25.—Prince Adalbert, the Kaiser's third son, is to be promoted to the rank of "Colonel" according to reports in the German press. He is expected to be in line for promotion in all that has been given to Prince Adalbert some time ago. He is said to have insisted that he be considered in his promotion the same as in the career of any other officer in the navy.

One of the reasons that the Kaiser's son is expected to participate in the formal opening of the Panama Canal, Prince Adalbert has made no much to go on one of his warships in the German squadron in the international fleet that will follow the American flag through the canal.

A high diplomat, who is correspondent of the Kaiser's son, said he hoped to send Prince Adalbert to the United States, and he would do all possible honor and honor to do this historical occasion and, wants to do this would please the American people to see his son. No official announcement is expected for some time, but it is a certainty that Adalbert wishes will be accepted if possible.

CENSOR AT CITY HALL.
New York's Mayor Only Source of Copy For Newspapermen Now.

New York, June 25.—Some of the department chiefs in the Municipal Building are chafing under what they call a "censorship" of their reports, established by Mayor Mitchell. He has asked the public all that's going on in the city, but they complain that they are not allowed to say what they please, but they can only reach the newspapers through the Mayor's office in the form of reports prepared or approved by Dr. Blinn.

Mr. Dr. Blinn—Louis Blinn—is quite a first hand on the scenes. He is the administrator of the Public Utilities. He has one New York City newspaper as far as any one at City Hall remembers. He has a Ph. D. degree from the University of Toronto, and is not in the civil list as a press agent or censor of course. He is nominally an examiner in the office of the Commissioner of Accounts, but he has been assigned to the duty of preparing reports on the various departments in the Municipal Building. And wherever the doctor goes the news is muzzled until it's ripe.

HOW TO RAISE EGGS
Government of Kansas Grants Educational Car on Rounds of State.

According to reports from Kansas the Government is undertaking a big campaign of education among egg producers, whereby it is hoped the farmer will learn to produce better eggs and more economically and efficiently. It appears that an official demonstration car has been fitted up with all the most advanced ideas as to egg production, and the Public Utilities Commission of Kansas has secured the co-operation of the railroads to haul it free through the State.

It is planned to make as many county tours as possible on the trip. The mornings will be devoted to the school children. These will be taught not only candling, but all about the production and marketing of eggs and poultry. In the afternoon the merchants and farmers—and especially the farmers' wives—will be asked to visit the car and learn what the government has to teach about the hen and her business. Especial emphasis will be placed on candling and on getting the roosters in producing eggs for market.

LARGE ESTATES WERE
Harry B. Hollins, who broke fire insurance firm for a few months ago for \$500,000, will re-enter business, due to leniency with which he has been treated by W. K. Vanderbilt and the estate of J. P. Morgan, who have waived their right to collect the value. Mr. Hollins has made a composition settlement with other creditors.

C. P. Bell, of the Royal Canadian Dragoons, won the 3rd mile in the Petewawa race, in the presence of the Duke of Cornwall.

Council For Companies in Dugal Inquiry Expresses Clients Willingness

St. John, N.B. June 26.—On return of the Dugal Inquiry into the Valley Railway matter this morning, Mr. B. Hal Brown, of the Prudential Trust Co., said he was on the stand.

Mr. Carvell asked for a reply to his question of why the Valley Railway Construction Company and St. John and Quebec, N.B. Co., had not been present. Mr. D. Mulligan, provided that the companies were present. This was agreed to and an order made accordingly.
