GOSSIP.

Mr. John Isaac, Markham, reports having had his second importation of Shorthorns for this season landed safely at Quebec on the 1th inst., by the steamship Tritonia of the Donaldson Line.

Volume 48 of the English Shorthorn Herdbook, by courtesy of the editor, has been received at this office. It is a creditable volume of over 1,000 pages of good paper, well printed, and evidently compiled with great care.

Mr. H. Chandos-Pole-Gell, an enthusiastic and wealthy English breeder of Clydesdale and Shire horses and Shorthorn cattle, died October 31st, 1902, in his 74th year. He is reported to have said: "It is not the money value that makes me like Shorthorn breeding, but the animals themselves and the general good they do the country at large."

On November 10th, at Chicago, a sale of Shorthorns was held, composed of cattle from the herds of E. K. Thomas, of Kentucky, and C. E. Blogett, of Wisconsin, at which fifty-one head sold for an average of \$305.50. The highest price, \$1,150, was paid for Imp. Golden Rose 2nd, a roan four-year-old cow, sired by Bell-the-Cat, Imp. Lady Miranda brought \$790, and Imp. Dalmeny Princess 4th sold for \$885.

At a combination sale of several breeders of Hereford cattle, at Sioux City, Iowa, Nov. 7-8, the attendance was small and the bidding slow, though the cattle were good and worth more money had a more appreciative company been present. Six hundred dollars was the highest price reached, and that for Florimel, a five-year-old cow by Correlation, Three hundred and five dollars was reached for one cow and \$300 each for two others.

At a combination sale of Aberdeen-Angus cattle, held at Chicago, November 5th and 6th, 79 head were sold for an average of \$387.40. Sixty-five females averaged \$431.65, and fourteen bulls \$182.85. The highest price was \$1,050, for the two-year-old heifer, Imp. Pride of Aberdeen 167th, by First Quality, Blackbird of Denison 33rd, a three-year-old bull, brought \$1,010. The highest-priced bull was Blackbird of Edgewood 2nd, sold for \$725.

That was a good sale of pedigreed swine made at auction by Mr. Arthur Hiscock, at Motcombe, Dorset, England, on October 31st, when 70 Berkshires brought an average of £12 9s. 4d. (\$62), the highest price being 61 gs. (\$320) for the sow, Manor Perfection, bought by Hon. C. Portman. The sow, Ethel, was bought for Mr. Vanderbilt's Biltmore Farms, U. S. A., at 50 gs. Fifty-two Large Yorkshires brought an average of £8 3s. 6d. (\$41), the highest price being 17½ guineas for Walton Star, sold to Mr. A. J. Carpenter.

Mr. A. D. McGugan, breeder of Shorthorns, writes: "The old champion, Abotsford, has again changed hands. For the past three years he has been at the head of the herd of A. D. McGugan, Rodney, where he has done splendid service, and he is now at the head of the fine Scotch herd of Mr. J. W. Hartman & Sons, Elmbridge, Ont. Although now ten years of age, he is as active and useful as ever. Mr. McGugan has purchased the grand young bull Aberdeen Hero, bred by A. Watson, Achrobie, and of the same family as breeding as the great Lord Balf, and we should expect splendid results from his use in this well-known herd."

King of Clydes, the superior Clydesdale stallion, portrayed on another page in this paper, property of Hon. Thos. Greenway, Crystal City, Man., has a splendid record as a prizetaker, having won first prize at the Canadian Horse Show, at Toronto, as a three-year-old, in the spring of 1900, and first prize at the Toronto Industrial Exhibition in the fall of the same year. At the Winnipeg Industrial, this year, he won first in the class of mature Clydesdale stallions and the sweepstakes as best draft horse any breed. He is a horse combining sufficient size with superior form, quality and action, and his breeding is of the very best, being sired by Ringleader, by Corsewell, by Prince of Kelvin, and his dam was by Young Darnley, by the noted Darnley (222), one of the greatest of Clydesdale sires.

OFFICIAL RECORDS OF GUERNSEY BREEDERS' ASSOCIATION.

The secretary of the American Guernsey Breeders' Association publishes official records of a year's production that have been made by Guernsey cows. In this statement the names of twenty-four cows are given that have produced, within the year, from 6,590.78 to 11,622.65 lbs. milk, and from 313.57 to 602.27 lbs. butterfat. These records, says the secretary, being for butterfat, to be compared with butter tests as usually published, should have one-sixth added to the butterfat. Thus the record of Portia of Maplehurst, the highest on the list, 602.37 lbs. butterfat, would be equivalent to 702.7 lbs. butter, which he claims is the largest year's record of any cow made under regular and careful public supervision and test each month.
