

The Lock that makes "Page Fences Wear Best."

Nowadays, poke your head out of door and you meet a Fence Agent.

They all have the "Best," the "Guaranteed-to-give satisfaction" kind, etc., so that the only practical

guide you have is price. Because one galvanized wire looks just exactly as good as another, you conclude that all fences are alike.

Say, if you had that booklet "How to Prove and Test Wire," which we mail free upon written request, you would not have to take everybody's say-so. Make 'em prove up—Page dealers and all, and, if possible, make the Tests from rolls of fence actually made up for use, not "samples" sent for the purpose. The day for buying fence without proving the quality to be as-good-as-the Page, is past.

That booklet—it is really a practical text-book on the fence question. Every farmer or property owner ought to have it. Formerly had a big sale at ten cents per copy, but as the Page Wire Fence Co., Limited, have acquired the copyright, they mail it free to enquirers. Send for it to-day.

HOW LITTLE RAIN-WATER REBELS SECRETLY DESTROY MOST ROOFING

Rain-water is deadly to nearly all Roofing, except Brantford. It contains millions of little germs which eat away its very life, and you are not aware of this rebellion until Roofing is destroyed. Wood pulp, jute, cotton-cloth, etc., is used as a foundation in most Roofing. It is lifeless, and cannot fight for itself. The refuse coating which does not possess one particle of resistance, is itself injurious to Roofing. Slight bending will produce numerous cracks or open seams, because it is brittle. But the foundation of Brantford Crystal Roofing is a long-fibred, evenly condensed sheet of pure Wool, which goes through special Saturatory Process, forcing Asphalt saturation through and through, and being coming as hard as flint. This saturated Wool now, alone, is capable of resisting the onslaught of any enemy. But to make it doubly durable Brantford is heavily coated with weather-resisting, fire-proof Rock Crystals, which require no painting. After going through this process no Roofing Enemy can effect it.

Brantford Roofing

is pliable, and water, frost, snow, alkali, acid and fire-proof. It cannot absorb moisture, freeze, crack or open at seams. It fits itself smoothly to Roof—cannot warp—and remains that way, resisting ravages of savage winter and tortures of summer's heat—it cannot melt or become sticky. And in the end, after many years of service, you will be glad you made the investment. Only one cost to Brantford: first.

It needs no repairs, and anyone can lay it in any weather. Big Roofing Book, with samples, free from dealer or us. Brantford Asphalt Roofing, Nos. 1, 2, 3. Brantford Rubber Roofing, Nos. 1, 2, 3. Brantford Crystal Roofing, one grade only, (heavy). Mohawk Roofing, one grade only.

BRANTFORD ROOFING, CO., Limited, BRANTFORD, CAN.

WHY THE BISSELL IS BEST

Because the "Bissell" is built for business it lasts for years and gives satisfactory service all the time. It is made strong and durable to stand any strain. Steel drums with solid pressed steel heads well riveted; axle of 2-in. solid steel, frame of hardwood reinforced with double truss rods and steel angles make it rigid and stout. Bearings are large anti-friction rollers which reduce friction to the minimum making the "Bissell" the lightest draft roller ever built. Nothing flimsy or shoddy about it. Free Booklet E tells why you should buy the "Bissell." Write today.

T. E. BISSELL CO. Ltd., Dept. W, ELORA, ONT.

THIS IS THE SHEET METAL AGE.

To make a factory, warehouse, barn, shed or outbuilding of any description, wind, water, snow, fire and lightning proof cover it with

Galt Corrugated Sheets

which are accurately pressed from the best and most durable British Steel it is possible to procure.

All corrugations are straight and true, assuring an accurate fit at both side and end laps without waste. Special hip and ridge covers make tight, neat joints at these points.

Where warmth is not important "Galt" Corrugated Sheets save three-fourths of the wood sheeting as well as considerable labor, and will give good service for a life time of at least fifty years.

It costs no more for a "Galt" Corrugated Sheet Steel Building than for a wood one. Which do you think is the better investment? Galvanized or painted material always in stock. Complete information in catalog "3-B."

The Galt Art Metal Co., Ltd., Galt, Ont.

Sales and Distributing Agents: Dunn Bros., Winnipeg and Regina.
