Why Do Shrewdest Buyers Choose SHARPLES Tubular Cream Separators?

It is because Tubular users always get the most for their money. How? In two ways. Tubular Separators have twice the skimming force of others. Consequently, Tubulars skim faster and twice as clean. With this double skimming force Tubulars save—year after year—what others lose. This saving rapidly pays for the Tubular. Tubular users soon find themselves the full price of a Tubular ahead of users of other machines. This saving repeats itself time after time during the long life of the Tubular.

Here is another reason: Dairy Tubulars contain neither disks nor other complicated parts. They are perfectly simple. They last a lifetime, are guaranteed forever by the oldest separator concern on this continent. Being perfectly simple, Dairy Tubulars last several times longer than the best of others. So shrewd buyers again save the cost of several separators by buying one Tubular, which lasts for life.

In world-wide use. "The World's Best." The manufacture of Tubulars is one of Canada's leading industries. Sales easily exceed most, if not all, others combined. Probably replace more common separators than any one maker of such machines sells. Our local representative will show you a Tubular. If you do not know him ask us his name. You can own and use a Tubular cheaper than any other. How can you afford to waste time or risk money on any "peddler's" or other inferior machine? Write today for catalogue No. 193
