## When the People "Get Together"

Masterly Address at Rednersville by  
Mr. Robt. McMillan of Huron  
County.

That the Farmers' Clubs are  
proving a good thing for the coun-  
try is a fact and most people are  
recognizing the fact. With the public  
meetings each month, or more often,  
and with good speeches and dis-  
cussions following, the popular  
mind is being aroused to the duties  
of citizenship and the dangers of  
partisanship.

A gathering of more than usual  
interest took place at Rednersville  
U.F.O. club room last Saturday  
evening and your reporters con-  
sider it worthy of a write-up.

After the usual opening of the  
session, the President of the local  
organization, Mr. Richard Tripp who  
by the way, is a very enthusiastic  
promoter of the movement in our  
midst, introduced in glowing terms  
Mr. Robert McMillan of Huron  
County as the speaker of the even-  
ing. And it would be hard indeed  
for any true Canadian to over-esti-  
mate the character of such efforts as  
we now attempt to report in re-  
duced form.

Among other things, Mr. McMillan  
said that he considered himself  
qualified to take an active part in  
the great questions of today as be-  
sides having been actively interested  
in the farm all his life and most of  
the time a real farmer, he knew his  
subject from that angle; then having  
as a stock man and shipper of cattle  
the opportunity of making seventeen  
voyages to the old country with  
loads of cattle and horses, as well as  
having sold in different American  
markets he could not be accused of  
being "local" in his training. Again  
as his father had been for years the  
M.P. for Huron he had been brought  
up in open touch with the great  
issues which confront our federal  
political leaders. And he was very  
glad to see farmers "getting to-  
gether" at last and dropping party  
trifles to help one another, and  
help the common people.

He called attention to the remark-  
able and abnormal increase in ocean  
freights due to combines and pro-  
ceeded to trace the history of the  
farmer movement from its inception  
in the west when a few grain-grow-  
ers got together at Indian Head  
about twelve years ago to defend  
themselves and their neighbors  
against the Milling Companies and  
Elevator Combines who were rob-  
bing them by short-weights, cut  
prizes and dockage for shrinking in  
storage, etc. These men and their  
sympathizers afterward sent a  
splendid donation to aid in the  
launching of a similar enterprise in  
Ontario.

While farmers had neglected  
legislation he claimed they had  
been working "overtime" to pay  
those who really legislated against  
them. And by reference to certain  
Rural Surveys estimated that the  
ordinary agriculturist and wife had  
been serving three hours per day  
overtime for sixty years which at  
twenty cents per hour should alone  
have given them a competency of  
some \$42,000. "Have you received  
it?" he asked and answered, "No,  
and that is one big reason why boys  
and girls leave the persecuted farm."

Until the war, he claimed, either  
the farmer was merely paid interest  
on the capital invested and threw in  
his work or vice versa. This had  
been demonstrated by such big ex-  
perimenters as Blackstock and  
Russell of Toronto who had tried in-  
vesting and hiring all work done  
and had sold out their farm pro-  
perty after considerable loss. Yet  
these same men turn and de-  
liberately seek to further oppress  
the rural neighbors and toiler by  
High Protective Tariffs.

Again, of four hundred and  
ninety-seven millions of dollars of  
high tariff income in our country  
only ninety-two millions come to  
the public coffers, while four hun-  
dred and fifty millions go to the  
manufacturers. Little wonder that  
the moneyed interests love the  
Government! If the country pro-  
ducer got a square deal, the price  
on manufactured articles would be  
marked down and the duties mark-  
ed down at the same time. This will  
surely be good for everybody ex-  
cept the "protected manufacturer"  
of today.

In support of the belief that agri-  
culturers and rural representatives  
are likely to be good careful legis-  
lators, the speaker referred to the  
fact that the present Premier of  
Manitoba is a farmer and "Norris"  
is a name honored over the West,  
also that Jno. Oliver, Prime Minister  
of British Columbia, is a real tiller  
of the soil and yet has brains enough  
to right many wrongs in that pro-  
vince. Likewise the control of the  
Western elevators which was former-  
ly so corrupt and unsatisfactory, is

proving a great success in the hands  
of the Grain Growers' Association.

He asserted that there had never  
been so great a need for change  
from a beaten party path as now.  
Alluding to the extravagance and in-  
competence of the Union Govern-  
ment he verified his allusions by  
the startling statements that one  
hundred and nineteen millions of  
Canadian money were wasted in  
paying officers in England who  
would not revert, ten millions were  
squandered through the blunders of  
the medical department and thirty-  
six millions in various leakholes in  
connection with the C.E.F. in En-  
gland, while thirty millions more  
went through sundry claims of a  
padded pay-list, a total of one hun-  
dred and ninety-nine millions of  
money to be provided from Victory  
Loans, etc.

Continuing, he claimed that the  
Civil Service is another cause for  
civic anxiety, for millions are wasted  
annually there. He stated that with  
much difficulty, but by personal in-  
vestigation and enquiry of the  
authorities at Ottawa, he had learned  
that the cost per year, super-  
annuation allowance and active pay-  
sheet, totals around one hundred  
and thirty-five millions of dollars  
per year. This is an average cost  
per Canadian for every citizen of  
about \$15 per head, man, woman  
and child. That must be paid some  
way and some time in taxes.

He next charged that the method  
of giving offices of emolument with  
many assistants through the patron-  
age system was one of the most ret-  
ardant of all the methods of keeping in  
power ever introduced into a coun-  
try. Examples were given, Sir W.  
H. Hearst now drawing \$6000 per  
year and Ex-Hon. Proudfoot and  
every senator, \$2500 annually. This  
"pull" and waste business, he  
hoped, will be eliminated by the rise  
of the people and the common sense  
as class legislation is exposed and  
driven out.

A vote of thanks and appreciation  
was moved by Rev. L. M. Sharpe  
who complimented the speaker on  
his fearless arraignment of the evils  
of the lop-sided legislation of the  
past days. He expressed himself as  
believing most sincerely in the "get  
together" movement, stating that  
the day of law-making by the lawyer,  
doctor, manufacturer and hanger-  
on must go in the new march of  
progress. Mr. Lorne Wickham, who  
seconded the motion and ringing  
applause showed the hearty support  
of all present.

A quantity of stock in the Farm-  
ers' Co-operative was subscribed for  
by several and some new names ad-  
ded to the subscription list of the  
Farmers' Sun after which the meet-  
ing broke up with the National An-  
them.

## Mrs. Parliament Held Reception

Wife of Speaker of Legislature Re-  
ceived Guests After Opening of  
House.

Mrs. Nelson Parliament received  
in the Speaker's drawing-room after  
the opening of the House yesterday,  
and a very gentle and gracious wel-  
come she gave to each individual  
who made up the stream of human-  
ity that poured in from the Cham-  
ber. Mrs. Parliament wore a charming  
gown of black charmeuse and black  
Georgette and silk lace, with touches  
of blue; her hat of black tulle was  
trimmed with graceful plumes, and  
for jewelry she wore a string of  
pearls and tucked a knot of gorgeous  
red roses into the girdle of her  
gown. Mrs. Drury, the wife of the  
Premier, received with her and the  
newly-elected Speaker, wearing his  
gown of office, with the rosette at the  
back of the collar, was also in time  
to say, "How do you do?" The  
Premier himself stood a little be-  
hind the group and as visitors made  
their way into the room they met  
the Hon. Manning Doherty and his  
wife, the Hon. R. H. and Mrs. Grant  
and their daughter, Mrs. Mills, Mrs.  
Biggs and other Cabinet wives. The  
tea table, decked with roses, was  
laid in the dining-room, and among  
the bevy of pretty girls who assisted  
were Miss Drury, the sister of the  
Premier; Miss Lucy Grant of Hazel-  
dean, daughter of the member for  
Carleton; Miss Lillian Case, Picton;  
Miss Reid, London; Miss Anna  
Coyne, Brantford; Miss Gertrude  
Green, Windsor; Miss Edith Jackson  
Guelph; Miss Eleda, Horning, To-  
ronto; Miss Evelyn Cunningham,  
Belleville; Miss Riggs, Listowel;  
Miss Thomson, Miss Hay, Listowel;  
Miss Graham and Miss Sutter, of  
Glencoe, and Miss Partridge, Barrie.

So great was the crush for a time  
that it was impossible to find one's  
friends, but it was a very happy  
party, with members and wives of  
other Cabinets, comparing old ex-  
periences with the new rulers. Miss  
Norah Whitney, the daughter of a

former Premier, looking very charm-  
ing in a brown frock and toque, be-  
ing among them. As space is at a  
premium it will be impossible to  
duplicate lists and so the list of  
those noticed on the floor of the  
House all of whom came in to tea  
must be the list of guests at Mrs.  
Parliament's reception also.—To-  
ronto Globe.

## Mrs. Edwin McTaggart Has Passed Away

Mr. Charles S. Clapp of this city  
received the sad intelligence by  
telegram yesterday of the death of  
his sister Edith. (Mrs. Edwin Mc-  
Taggart) of Hatzic, B.C. Deceased  
had been suffering from heart  
trouble for the past couple of weeks  
and only a few days ago Mr. Clapp  
received word that her condition  
was exceedingly critical and might  
have a fatal tendency.

Mrs. McTaggart was born in  
Northumberland county, Ontario,  
and received her education in Plain-  
field Public School, Belleville Public  
and High Schools and Madoc Model  
School. She was of a happy dis-  
position and a popular favorite  
among her friends and associates.  
While living here, she was a member  
of Holloway St. Methodist Church  
and a faithful teacher in the S.S.  
Besides her husband, Mr. Edwin Mc-  
Taggart of Hatzic, B.C. and little  
boy, Douglas, the following mem-  
bers of her family survive, Mrs.  
Sarah Clapp, Hatzic, B.C., Mrs. John  
A. Barr, Hatzic, B.C., Mrs. Herbert  
O. Foster, of Vancouver, Mr. Wil-  
liam B. Clapp, Winnipeg, Mr.  
Charles S. Clapp, of this city and  
Mrs. Thos. Nightingale, Huffs Is-  
land.

## Advices Care in Handling Milk

Result of Inspection of Milk in the  
City—Stable Flavor Noticeable

A test was made this week of  
samples of milk taken by Sanitary  
Inspector T. F. Willis, under direc-  
tion of the Medical Officer of Health,  
Dr. H. A. Yeomans, and inspected by  
J. A. Kerr, milk inspector.

Following is the report from Mr.  
Kerr to Dr. Yeomans:

Wardner, grocer	fat p.c.
Marvin	2.8
S. Hagerman (cream)	3.3
G. A. B. Gay	3.0
S. Sprague	3.2
Miller & Son	3.2
Scruton, grocer	2.9
E. DeVault, grocer	3.5
Harris, grocer	3.1
Waldron	3.1
Gael, grocer	3.4
Whitfield, special sample	5.0
Citizens' Dairy	2.8
Brenton	2.8
Whitfield, wagon	3.1
Scott	3.1
Calnan	3.1
J. A. Wright	3.0
Citizens	3.4
Denton, grocer	3.2
Ridley, grocer, sour	3.4

The milk more or less has stable  
flavors. I would strongly advise  
more care in handling the milk;  
place it in a clean place immediately  
after milking to cool. Warmer wea-  
ther is almost here and greater care  
must be taken to keep the milk  
clean and cool from the time it is  
milked until it is used.

One sample marked sour is the  
carelessness of a dealer.

To H. A. Yeomans, M.D.,  
Medical Health Officer.  
J. A. Kerr,  
Milk Inspector.

## Wedding Bells

MORE—HAZART

A quiet wedding took place at the  
residence of F. B. Hazart, Plainfield,  
Wednesday March 3rd, when their  
only daughter, Bernice Margaret,  
was married to Julia Alexander  
More, son of Alexander More, also of  
Plainfield. The ceremony was con-  
ducted by Rev. F. W. White in the  
presence of only the immediate re-  
latives. The happy couple left Bel-  
leville on the 12.5 train for Kingston,  
the bride travelling in a navy blue  
silk suit with hat to match. Upon  
their return they were tendered a  
reception shower by the young peo-  
ple of the community. Mr. and Mrs.  
More have the best wishes of all for  
a happy and prosperous wedded life.

## DIED

McTAGGART—At Hatzic, B.C., on  
Wednesday morning, March 10,  
Edith Annie Clapp, beloved  
wife of Mr. Edwin McTaggart,  
of Hatzic, B.C. and daughter of  
Mrs. Sarah Clapp, formerly of  
Belleville.

## County and District

Bank and Dwelling Burned at  
Jasper.

SMALLPOX BAN OFF.

Jury Brought in Verdict of Ac-  
cidental Death at Peter-  
boro.

That Sad, Sad Story.

It was a rather disappointed  
crowd of fans who heard the funeral  
oration over the remains of King-  
ston's hockey hopes, as the scores  
commenced coming in Monday night  
and finally stopped when Colling-  
wood had reached fourteen. There  
was a large crowd of fans on Prin-  
cess street to hear the results, and  
needless to say there was no great  
cheering.

In the Interests of Better Herds.

As one means of improving the  
live stock of Grenville county es-  
pecially by the increased use of  
better herd sires, meetings are be-  
ing held this week throughout the  
county, arranged by W. M. Crookery  
agricultural representative for Gren-  
ville, Kemptonville. Yesterday after-  
noon a large number of farmers ap-  
peared at the Baptist church, May-  
nard, and this morning the clery,  
numbering in the neighborhood of 60  
met at the Ontario Hospital farm,  
Elizabethtown for an inspection of  
the government property. This after-  
noon the party went to Avondale  
Farm to view A. C. Hardy's well  
known herd of cattle. The party was  
accompanied by Prof. W. J. Bell,  
of the Kemptonville Agricultural College  
R. S. Stevenson, Ancaster, Ont., a  
noted judge of Holstein cattle, and  
C. F. McKenzie, Toronto, fieldman  
of the Ontario Cattle Breeders' As-  
sociation. The meeting will continue  
for the balance of the week with af-  
ternoon and evening sessions to be  
held at different points in Grenville  
county. — Brockville Recorder and  
Times.

Verdict of Accidental Death.

A verdict of accidental death was  
brought in last night by the jury  
empaneled by Coroner Greer to en-  
quire into the death of Charles Hol-  
land, at the Bonner-Whites factory  
last week. The jury, however, added  
two riders to the verdict, the first  
recommending that some system of  
bell signals to be installed in con-  
nection with the elevator so as to af-  
ford more safety to the employees  
using it and the other recommend-  
ing that the Bonner-Whites Com-  
pany communicate with the makers  
of the elevator and the Government  
with a view to devising more safe-  
guards to the elevators and thereby  
render such accidents as the present  
one less probable. — Peterboro Re-  
view.

Employment Situation Improving.

The employment situation is  
steadily improving in Kingston, ac-  
cording to information from the  
bureau on Market street. Here it  
was learned that the only men out  
of work now are those who have  
neither technical or vocational train-  
ing. Men with trades or who were  
proficient in any branch of labor  
were the first to be engaged and this  
is regarded as indisputable evi-  
dence of the great need for early ap-  
prenticeship to a trade of some kind  
that will fit young men, or men at  
any period of life, to render ser-  
vice of value. Such men are always  
in demand and need not be long out  
of employment. Most of those on  
the waiting lists at present are  
men who had no particular calling  
and had never served their time at  
one of the trades.

Bank and Dwelling Burned.

Fire starting from an overheated  
stovepipe in a shoe repair shop  
conducted by William Ward, at Jas-  
per, destroyed the building in  
which was located his residence and  
a branch of the Bank of Nova Scot-  
ia, yesterday morning shortly after  
10 o'clock. The Bank of Nova Scot-  
ia occupied temporary quarters in  
the building which was of brick and  
frame construction and was located  
near the C. P. R. tracks. The shoe  
repairing shop was located at the  
rear of the building and the bank  
quarters were situated at the front  
of the structure. The fire made con-  
siderable headway fanned by a  
strong breeze, but the members of  
the bank staff, headed by the man-  
ager A. G. J. Rolph, were able to  
save all the bank property with the  
exception of the safe, which went  
into the cellar when the structure  
collapsed. The building was totally  
destroyed and the loss will be heavy.  
The Bank of Nova Scotia is light as  
the quarters were only temporary,  
a permanent structure for their use  
in the village being under considera-  
tion. Other quarters were secured  
yesterday and business is being car-  
ried on as usual. The fire was kept  
from spreading through the efforts  
of the villagers who formed a  
bucket brigade that accomplished  
most effective work. — Brockville  
Recorder & Times.

Given an Appointment.

G. Harold Rose, son of Mr. and  
Mrs. Philip Rose, Bloomfield, who  
has for the past ten years resided in  
Rochester, N. Y., and for the last  
year and a half has been in Y. M.  
C. A. work in the American camps  
has been placed on the headquarters  
staff at the Naval Training Station,  
Hampton Roads, Va.

Steamer Being Overhauled.

The ferry steamer H. P. Bigelow  
is undergoing extensive repairs at  
her dock in Morrisstown. The hull  
of the steamer is being rebuilt. The  
repairs are progressing rapidly and  
it is expected to have the boat ready  
for service shortly after the open-  
ing of navigation this spring.

To Hear Protest.

It is likely that the protest of  
Queen's against the playing out of

to cry, and his friend wanted to  
know what was the matter. "It's  
awful," he replied, "I am stone deaf.  
I can't hear a word the people on  
the stage are saying."

Another World's Record.

The Avondale Farm herd of Hol-  
stein Friesians, owned by A. C. Har-  
dy and acknowledged to be among  
the finest on the continent, has just  
scored another triumph. Lady Wal-  
dorf Sylvia, owned by Mr. Hardy,  
has broken the world's champion-  
ship for 60 days' production of milk  
as well as of butter, according to an  
announcement of the Holstein Frie-  
sian Association. This heifer's 28  
pound record was reported recently.  
Her last 60 days' totalled 4,334.7  
pounds of milk containing 219.52  
pounds of butter, which is a world's  
record by a substantial margin, dis-  
placing the former world's champion  
Beauty Beets Walker Seges, owned  
by J. M. Hackney, of St. Paul,  
Minn., with 4,791.7 pounds of milk  
containing 219.99 pounds of but-  
ter. — Brockville Recorder and  
Times.

Smallpox Ban Off.

With the lifting of the smallpox  
quarantine on Ontario last night by  
the Provincial Board of Health of  
Quebec, persons entering the pro-  
vince are no longer required to  
submit certificates of successful  
vaccination or be returned to Onta-  
rio. The services of the medical in-  
spectors who rode on Grand Trunk  
Railway trains between here and the  
Metropolis are dispensed with, as  
well as those of the constables who  
were on duty at Coteau Junction  
and other border points to enforce  
the inspectors' demands. The ban is,  
however, still in force at the various  
gateways to the U. S. — Brockville  
Recorder & Times.

Verdict of Accidental Death.

A verdict of accidental death was  
brought in last night by the jury  
empaneled by Coroner Greer to en-  
quire into the death of Charles Hol-  
land, at the Bonner-Whites factory  
last week. The jury, however, added  
two riders to the verdict, the first  
recommending that some system of  
bell signals to be installed in con-  
nection with the elevator so as to af-  
ford more safety to the employees  
using it and the other recommend-  
ing that the Bonner-Whites Com-  
pany communicate with the makers  
of the elevator and the Government  
with a view to devising more safe-  
guards to the elevators and thereby  
render such accidents as the present  
one less probable. — Peterboro Re-  
view.

Damage Actions.

County officials are worried over  
the large number of claims which  
have been received in their centres  
of late for damages due to automo-  
bile accidents. Lennox and Addin-  
ton, for example, reported eight  
claims last year, many of them tri-  
vial but at the same time annoying.  
It was felt that the Municipal Al-  
liability in such cases.

Death.

At Trenton on Thursday the pass-  
ing of Mrs. W. S. Minns occurred.  
A few years ago her husband pre-  
deceased her. A family of two sons,  
Ray and Stanley and one daughter,  
Mrs. A. E. Brown, of Trenton, sur-  
vives.

Bishop Suspends Regulations.

In a circular letter to the clergy  
of the diocese of Pembroke, Bish-  
op Ryan announces that the Lenten  
regulations, insofar as they refer to  
fasting and abstinence have been  
practically suspended for the re-  
mainder of the Lenten season, this  
action being deemed advisable be-  
cause of the prevalence of sickness  
at present.

Given an Appointment.

G. Harold Rose, son of Mr. and  
Mrs. Philip Rose, Bloomfield, who  
has for the past ten years resided in  
Rochester, N. Y., and for the last  
year and a half has been in Y. M.  
C. A. work in the American camps  
has been placed on the headquarters  
staff at the Naval Training Station,  
Hampton Roads, Va.

Steamer Being Overhauled.

The ferry steamer H. P. Bigelow  
is undergoing extensive repairs at  
her dock in Morrisstown. The hull  
of the steamer is being rebuilt. The  
repairs are progressing rapidly and  
it is expected to have the boat ready  
for service shortly after the open-  
ing of navigation this spring.

To Hear Protest.

It is likely that the protest of  
Queen's against the playing out of

the tie game in Toronto on Satur-  
day was heard Wednesday night.  
The matter may be put to a vote by  
the delegates of the meeting, which  
will include representatives of  
Queen's, Varsity, McGill and R. M.  
C.

Grading of Cheese.

Frequently patrons of cheese fac-  
tories are heard to complain about  
losses over the grading of their  
cheese by Government graders at the  
point of export in Montreal and in-  
sist that grading should be made at  
the point of purchase instead. It is  
stated by officials that the govern-  
ment inspection and grading is the  
only thing that assures an export  
market for Canadian cheese. If  
cheese of inferior quality were per-  
mitted to be dumped on the Euro-  
pean market the Canadian dairy in-  
dustry would suffer by the loss of  
the orders that now make it possi-  
ble to dispose of our whole surplus.  
This official grading at Montreal is  
the only reliable protection of the  
dairymen of this country. When it  
is seen in this light the patrons of  
factories appreciate the national in-  
terest there is in the cheese industry  
and the aim of the Government to  
protect them by assuring the profit-  
able sale of their entire output at  
the highest prices.

Big Boom for Eganville.

Messrs. Childerhouse & Son have  
taken over the electric light plant  
and also the saw-mill property east  
of Eganville. A twenty-four hour  
service will be installed on the met-  
ropolitan plan. Electric power will be avail-  
able for business firms also for cook-  
ing purposes. A large factory and  
industry has already been secured  
and several others in view. The in-  
tention is to develop all the water  
power to capacity.

Sudbury Plays Collingwood.

Much interest is being displayed  
in Kingston in the game Thursday  
night in Toronto between Colling-  
wood and Sudbury. In the elimi-  
natory for the Allan cup. On the Sud-  
bury team is Ray Smith, the former  
Queen's goaler, while Collingwood  
is well known to Kingston fans.  
Sudbury are favored to win the  
game.
