Abbott, G. McL. Brown, Claude Oregan

Ernest Kennedy, of the firm of Weeks, Kennedy & Co., who has been in London since the middle of June, returned yesterday. Mr. Kennedy is as debonnair as ever and just as active, for he had hardly got off the train ere he closed a stock deal or two. He is as full of business as ever and Friday, when not talking about his trip and stocks, he was busy shaking hands with friends who were pleased to see him back.

A letter was received from A. Waddell. representing the Spokesman-Review, requesting the council to donate \$50 to donate \$50 to in the main tunnel, and is now engaged in the main tunnel, an who were pleased to see him back. and the letter was filed. When seen by a MINER reporter he said:

"They have opened a British Columbia section in the Stock Exchange, land was not ignored, but on the motion which certainly is a very good thing for of Dr. Bowes the following resolutions the camp. The stocks listed are mostly were sent through: those of English development companies, and the only British Columbia com-

plenty of advertisements from these modation it is the imperative duty of leet, which will open up both veins plenty of advertisements from these Alaska schemes, strongly urged investors to go slow in regard to them. These Klondike companies, the paper said, sold nothing but promises, while British Columbia companies offered companies offered companies offered companies of the city and city an Columbia companies offered something that was tangible and substantial. The vicinity will suffer loss and will incur result was when a British Columbia greatly additional costs and trouble in Five Men at Work on a Crosscut Tunmining company, the Fairview, taking and carrying on legal proceedit was eagerly bought up by investors, because it was seen that there
