PROSPECTUS OF THE

CANADIAN INDEPENDENT

A NEW PAPER,

To be published simultaneously in the Cities
of Hamilton and Toronto, chiefly designed to promote, by peaceable means, Separation from the Mother Country.

from the Mother Country.

**HE Undersigned, having secured the assistance of several gentlemes of experience and ability, and made the necessary arrangements, will publish simultaneously in this City and Toronto, on or before the First Day of October next, a Paper under the above designation, intended, mainly, to promote the above referred to.

In making this announcement, he begs, most emphatically and distinctly, to disclaim all connection with either of the great political Parties at present existing in the Province, and will connection of Consoline, independence, which, in his opinion, must hereafter take precedence in importance over all others.

The necessity of an organ to represent the pre-

tion of Canadian Independence, which, in his opinion, must bereafter take precedence in importance over all others.

The necessity of an organ to represent the views, and advocate the principles, of that portion of the people of Upper Canada, who have already nome to the conclusion that the time has arrived when the connection between the North American Provinces and Britain is injurious to the interests of both, and ought to be terminated, has induced the Schseriher to undertake the one-rous task of becoming chief Editor of the INDE-PENDENT. In Lower Canada, with two or three exceptions, the enter Press, both French and English, has declared for the cause of Independence. In this section of the Province, however, the virulence of party, and the complete subserviency of nearly the whole Press to party imposes, have been such as to deter even the Conductors of those Journals, whose opinions are known to be favorable, from espousing the cause.

When so large a proportion of the Press in the other section of the Press in the other section of the Province, and so many individuals of respectability and intelligence in this, entertain principles and views similar to those which this Paper is intended to advocate, the Undersigned considers it unnecessary, in a mere Prospectus, to enter into the rea ons which may seem to justify the advocacy of such a measure. It will be sufficient to state, that these reasons are of both a Political and Commercial necessity. Prom the sentiments distinctly enunciated on various occasions during the last tew years, by English Statesmen and Writers of emisence, no reasonable doubt can be entertained that, whenever a majority of the people of these Colonies shall, through their Reprisentatives in Parliament, sak to be freed from Imperial connection, their request will be conceded. Indeed, those who have attentively noted the sentiments propounded by the leading politicians in Britain, of the present day, must have noticed a growing desire to be relieved from the government of these Coloni

benefited by the attainment of this end, are already favorably inclined.

In Lower Canada, which contains considerably more than one-half of the entire population of the Province, and where the Press has taken the initiative, the feeling amounts almost to unanimity; and in Upper Canada, a very large proportion, if not an actual majority of the people, may be regarded as entertaining similar sentiments.

It is quite unnecessary to enter into an explanation of the causes which have led to this desire—mutually entertained in Britain and Canada—for separation. They are known to all. The measures adopted recently by the Imperial Government, have not only placed these Provinces on the same footing as strangers, but they are actually kept, by barriers and restrictions, over which they can exercise no control, from a participation, on favorable terms, in the trade of any country in the world.

will be conducted on the European plan of lodging rooms, and meals as they may be ordered in the spacious and SPLENDID EEPECTORY. Porters will be up during the night to edmit lodgers, and also to call them at any time they may desire: and in the case will servants be permitted to exact or reserve peramittes.

COUGH LOZENGES.

GLASGOW, 12th January, 1847.

Sir.—I have great pleasure in informing you of the great good your excellent COUGH LOZENGES have done me. In December, 1845, I caught a severe cold from riding two or three miles, one very wet night, which settled in my lungs, and quite took away my voice, so that I evold not speak above a whisper from that time until December last. I tried all kinds of medicines, but they were of no availe I was then advised to try your Lozenges, which I did only to please my friends; but before I had finished a 2s. 3d. tin, my voice, to my great joy, came back as strong as ever. as strong as ever.

DEAR Sin,—If my testimony in favour of your valuable medicine will do you any good, or be of any service to the sick and offsiered, you are welcome to make such use of it as you please. For seven or eight years I have not enjoyed perfect health. In the spring of 1844 I had some cough; I was then in Worcester County, Mass., and applied to a physician, who gave me some medicine; but it did not relieve me. I was not able to work during the summer. Last fail I was much invorse, so reduced by coughing, and aweasing nights, that I was obliged to take my room. My physician tried in vain to remove my cough, and restore me to health, but I did not expect to recover; I however concluded to try Wistar's Balsam of Wild Cherry; I was then troubled with very frequent spells of coughing, night and day; before I had taken one bottle, my ouigh was easier; I continued to take the medicine until I was able to leave my room. I have taken several bottles, and I think Wistar's Balsam of Wild Cherry and cured me; at least, I leel as well and as strong as I have for twelve years.

TURKISH BLACK SALVE UNDER THE PATRONAGE OF THE HONORABLE THE BAST INDIA COMPANY.

THE EAST INDIA COMPARY.

THE SALVE, prepared from the original recipe procured from a celebrated Turkish clakim, (physician) of Smyraa, in Asia Minor, and which has obtained an amprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it is both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering receptions it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established agencies in all the principal Caises. They flatter themselves that when its wonderful properties shall been me more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them. The contracted limits of an advertisement necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or my occur, and for the present will content the astreamy with merely enumerating some of the co aplaints for which it has been used with the m si complete success.
