COUNTY COURT OPENS AT SIMCOE

O'Connor, Accused of Picking Pockets, Ill With the Flu

OTHER SIMCOE NEWS

(From our own correspondent) Simcoe, Dec. 10.—The County court and session of the peace opened yesterday afternoon with a capacity attendance of jurors and witnesses and a few spectators and there was little of interest throughout the afternoon.

The two civil cases will go over. The grand jury found a true bill in the O'Connor, pickpocket case, but the accused is a victim of the flu, and unable to attend court. Medical certificates to that effect were submitted and the case remained on the slate to be dealt with later in the session his Whship indicating that possibly a brief adjournment till the accused recovers would best meet the ends of justice.

Morley Pettit who was to appear at the sittings is also down with the flu, and Dr. Zurslein certified as to his inability to attend.

The Grand jury found a true bill in the case against one Silverthorn for threatening trouble if a note which he claimed to have paid was not handed over. This case was opened and in progress when the court rose at five o'clock. Altogether it is a rather uninteresting session.

Union Telegraph Office.

The G. N. W. telegraph tickers will be installed in the E. H. Jackson Co. store alongside the C. P. R. wires in a day or so. This department will insure to Simcoe a better service than could heretofore be given economically when two separate offices were maintained. It is also quite probable that the wires of both companies will be kept open to Simcoe when each company is aware that any grounding up the line is apt to send business to the other wire. Will Brantford and Galt please take note.

Melvin Winters Turns Up

Melvin Winters, a member of the first contingent to leave Simcoe, who up till March 23rd last, had roved through the war without a scratch and on that date was taken prisoner by the Germans has been liberated and reached England on Nov. 28th. No particulars of his condition was contained in the letter received by his brother, Thos. Winters of the Grover Murdoch staff last week.

PLUNDERING NATIONS HAVE TO DISGORGE.
There is no possibility that the Poland of the year 1569, whose boundaries are indicated on the accompanying map, will be reconstructed. The Poles, by virtue of their services to civilization, have become entitled to a separate, independent state, comprising all of Russian Poland, Western Galicia, until now a part of Austria and parts of Austrian and German Silesia and parts of West and East Prussia. These parts are roughly suggested by the map.

PUT AIRCRAFT TO NATIONAL USE
Government is Urged to Develop Aviation for Commercial Purposes
Ottawa, Dec. 10.—To a deputation which urged the desirability of Government "co-operation, with aid and control," in the development of aviation for commercial purposes, Hon. N. W. Rowell recalled the Reconstruction Committee of the Cabinet had been assigned the duty of considering the possibilities of air craft for important national uses. The subject, the President of the Commercial Airplane Manufacturers' Association, said, was now under consideration by the committee. He referred to the exploits of Canadian airmen during the war, the success which had attended the operations of the Canadian airplane factory at Toronto, and the extent to which the Dominion had supplied aircraft abroad. He intimated that the Government was contemplating the possibility of regulating air services between the nations which might be signatories. Those treaties would, he thought, be of value in the reconstruction of the world. "The Government," said Mr. Rowell, "is in nearly sympathy with the objects you have in view."

HOOCKEY SEASON TO OPEN
By Courier Leased Wire
Ottawa, Dec. 11.—It was officialy announced last night that the professional hockey season would open in Ottawa one week from this evening. It will take the form of a test match between the Ottawa and the Canadian teams, and will be the means of introducing to Ottawans the new system of play, which includes the forward pass in centre ice and a return to the old penalty code.

MAINTAIN BLOCKADE
By Courier Leased Wire
Paris, Dec. 11.—Marshal Foch has refused the request of the German armistice delegates that they be permitted to communicate with the provinces west of the Rhine, now being occupied by the Allies. The commander in chief declared that it was necessary to maintain the blockade of Germany as provided by the armistice.

CANADIAN TROOPS CROSS BORDER
Headquarters Staff Quarters in Chateau
Toronto Troops the First to Enter the Fatherland
(By J.F.B. Livesey.)
With the Canadian Corps in Germany, Dec. 4.—The Canadian troops crossed the German border today, the first Canadian division at Poteau, and another Canadian division further south. It was raining and the rolling hills and forest of Ardenne, the home of the wild boar and stag, were swathed in mist. At Poteau, a poor hamlet on the Belgian side of the frontier, a group of Belgians cheered and waved the flag they possessed as our men passed by. Just across the frontier, which was otherwise unmarked is a post, resembling, with its black and white stripings, a barber's pole. Beside this is the German custom house, where the uniformed official presided.

THE PRISONERS OF WAR SOCIETY
Now that hostilities have ceased, the Allied soldier boys from German prisons are trooping home, destitute of clothing, with health broken, and in dire need of help.
HEAR THEIR CRY!
And send the Prisoners of War Society \$25,000 BEFORE CHRISTMAS. Canada can do it, and will. This appeal will be the last! Act quickly—before many get beyond the pale of human help.
