After the specimens have been under pressure for a day or two they are laid in papers heated in the sun, and this is repeated until the drying is completed. This is said to preserve the colors perfectly.

It is not yet known whether the sight of the eye can be saved or not.—Kingston Whig.

—THE KINGSTON EXHIBITION.—The Kingston Exhibition directors are heavy losers on account of calamitous weather. Monday and Tuesday were fine and a big show was set up for crowds on the next three days. Rain began on Wednesday and continued till Thursday night. The crowds were not present and heavy loss will ensue to the association. Last year there was a deficit of \$500, and this year it is likely \$1,000 more will be added to it, as with fine weather yesterday no recompense for the bad days can be secured.

The most appetizing feature of the evening was the serving of dainty refreshment to all present.

—An editor of one of our exchanges says that he and his wife disagree with each other materiall. She sets things to right and he writes things to set. —Justice of the peace William Kelly, of Bay City, Mich., on Monday morning tried and convicted his own august person of assault and battery, and thereupon imposed a fine upon himself of \$5 or ten days imprisonment. The Justice rather than go to jail paid his own fine—to himself and then allowed himself to go free. The case arose out of a pummeling which Mr. Kelly administered to Dr. C. A. Stewart, a well known physician, because the latter is said to have stated publicly that President McKinley deserved to be shot. Justice Kelly says he would do the same thing over again and consider it worth \$5 to whip any defamer of the president.

—ATHLETIC ASSOCIATION CONCERT.—The hall of our High School presented a gala appearance on Thursday evening when the concert given under the auspices of the Athletic association was successfully run off. To the principal, his able assistants, and all those instrumental in getting up the concert are due the success which attended their efforts.
