To-day's News at BRADLEYS, To-day's News at BRADLEYS

Try the Bradley Store To-morrow

If you were going to purchase a home and were looking at two likely residences, each in first-class condition—each equal in value as to location, fittings and repair, would it take you long to decide which one to purchase if one was priced at \$2,500 and the other at \$2,000.

Well, grocery buying at present is on just such a basis. Bradley groceries are the same brand and quality as any first-class grocery store has in stock. Bradley prices average from 10 to 25 per cent. lower than those charged elsewhere.

Could any argument be stronger in favor of Bradley's.

COUNCIL PASS AGREEMENT FOR LAKE ERIE EXTENSION

Road On William St. Will Be Build On Concrete Foundation—Tracks Will Be Placed Along Southerly Side of Queen St. From G. T. R.

The regular meeting of the City Council last night was concluded before 10.15. There were only a few matters of any importance before the Board, and no more time was lost than possible. All the members of the Council were present. Ex-Mayor Cowan, who was present, was asked to take a seat on the dais beside Mayor Stone.

The most important item coming before the aldermen was a resolution drawn up by Ald. Jas. Massey, chairman of the Railway committee. This resolution, which was seconded by Ald. Bensen, empowers the C. W. & L. E. Company to construct their tracks along William street to the G. T. R. tracks on a cement bed, without wood ties, iron rods being used every ten feet instead, also giving the company power to construct their tracks along the southerly side of the road along Queen street, from the intersection of Park avenue to Indian Creek. This resolution agrees that the city shall pay over the \$15,000 loan as soon as the C. W. & L. E. complete the line to the lake, the city to take the company's bonds in this case, the same as they did in the former loan.

Ald. Massey explained that the laying of the tracks on a concrete bed along William street would make them just as safe, and much more satisfactory, than if they were laid with ties. By laying the tracks on a concrete foundation, the necessity of breaking the foundation of the William street pavement would be done away with.

Ald. Austin said that the street railway tracks in Toronto were laid in this way, and they had proven substantial enough. After considerable discussion, Ald. Massey's resolution carried unanimously.

The Manson Campbell Company wrote, stating that they did not think it advisable to re-surface the Colborne street pavement with bitulithic, at the Warren Company's price—\$1.65 per square yard. In their opinion the re-paving of the street would be much more economical in the long run.—Bari of Works.

A petition for a sewer on Jahke street was referred to the Board of Health.

The City Engineer's report on payments for Adelaide street and St. Clair street, and a granolithic walk on Jeffrey street, were received. The Warren Bituminous Paving Company's tender for paving St. Clair street, at \$2.49 per square yard, with curb and gutter work at 55 cents per foot, was accepted.

City Engineer Jones laid a report before the Council condemning sidewalks on Hyslop, Colborne and Eighth streets.—Filed.

Chairman Bensen, of the Board of Works, reported that the pay sheets for the past two weeks amounted to \$153.36 and \$243.91 respectively.

Ald. Potter presented a certificate for \$1,411.65, the final payment to Gallagher & Son for the renovation of the market front. Ald. Potter took occasion to compliment Messrs. Gallagher & Son on their work. He said that the work had been well done, and that the contractors had given the committee little or no trouble, while the work was being done. In reply to a question from Ald. Austin, Ald. Potter said that the tower was now in readiness to receive the clock, and that the latter would arrive in the city in a few days time.

A communication was received from the city of Peterboro, stating that their street lighting was supplied by a private concern at the rate of \$50 per lamp per year—300 nights in the year, moonlight schedule. Ald. Potter remarked that this was pretty cheap lighting.

The secretary of the Municipal and Railway Board wrote stating that the Board would investigate the reports of the two local auditors of the electric light question, if the Council sent them in. The Clerk was instructed to send the two reports in to the Board.

The resolution from the Health Board recommending a sewer on Thames street, between the old police station and Kent street, was referred to the Board of Works.

The residents on the west side of Hyslop street petitioned to have their granolithic walk laid on the outside of the track.—Board of Works.

Ex-Ald. Scullard, wrote, giving

notice of a lawsuit from Mr. Vanzant if the ashes and refuse in front of his place were not removed.

The Mayor asked all of the members of the Council to assist him in welcoming the delegates to the Catholic Order of Foresters convention, which opens here Tuesday next.

A resolution endorsing the Wolverine by-law was received from the Retail Merchants Association.

Mr. Robertson, of the Robertson of Inches estate, wrote offering enough of his property to make half a street, if the owners of lot 23 would supply the other half, and the city supply the fence. In reference to this, Mayor Stone recommended that the Board of Works wait on the members of the Raleigh Council and find out what the Township would do towards erecting the fence on their side. It will also be necessary to remove a windmill which stands in the way of the street, the expenses for which will have to be borne jointly by the city and Raleigh Township.

The Union of Canadian Municipalities wrote notifying the Council that their convention will take place in Port William August 13 to 16.—Finance.

Ald. Austin brought in a report showing how the city printing has been divided up among the various local offices. The matter was one which required a great deal of close attention, and the members of the Finance committee and the City Clerk deserve much credit for their successful completion of the work.

Ald. Bensen said that he had written to the superintendent of the Force Marquette with regard to the gravel to be supplied the city, but as yet he had received no reply. The Mayor said, however, that Mr. Pyeatt had promised him that the gravel would be sent on at any time the city ordered it.

Chairman J. G. Kerr of the Parks and Cemetery committee, reported that he had met with Engineer Lamb and discussed the matter of extending the concrete wall which is being built along the banks of the Park. Mr. Lamb said that the wall would be extended to the docks, but he advised that the wall in the space behind the wall in order to protect it. Ald. Kerr thought that it would be a good idea to use the cobble stones on Colborne street to fill in the bottom portion of the space behind the wall. This would make a solid foundation, and the cobble stone was of little use where it is at present.

Aldermen Austin and Westman objected to using the cobble stone for this purpose. Ald. Westman thought that it might better be used to pave the road leading to the cemetery.

Stevens, however, thought this would be a good way to get rid of some of the cobble stone around the city. There is getting to be so much of it, it is becoming a nuisance. Ald. Kerr's motion finally carried.

Ald. Bullis drew the Council's attention to the fact that the grading of the P. M. R.R. crossing on Park street east, is badly in need of repairing.

Ald. Potter moved that two ventilators be put in the market building at a cost of \$36.28; also that the Property committee be empowered to have the basement of the market front cleaned out.—Carried.

Ald. Bensen in reply to a query said that the Board of Works were having the Adelaide street bridge repaired in such a manner that it would be good for four or five years anyway.

Ald. Kerr thought that something ought to be done towards constructing a walk across the Park from the bridge to Colborne street. The Mayor and Ald. Austin thought the expense of building the sidewalk should be borne by the Government. The matter was referred to the Parks and Cemetery committee to communicate with the Government.

Ald. Kerr moved that the city purchase a screen to protect the windows in the Armouries. Last year it cost the city \$12 for windows broken by the baseball players. Ald. Kerr's motion carried.

The tender of the Warren Bituminous Company to pave St. Clair street with bitulithic at \$2.49 per square yard, with curb and gutter work at 55 cents per foot, was accepted.

The latter part of the Council meeting was taken up with the passing of a list of local improvement by-laws.

BLUE RIBBON MEET FOR GROSSE POINTE

Now that the racing season is fairly under way on the five-mile tracks of Ontario, much interest attaches to the performances of certain of the horses which have been liberally entered down the grand circuit. From the Dominion many of these trotters and pacers will cross the border and meet their Yankee cousins for the first time at the Grosse Pointe track, Detroit, where the annual blue ribbon meeting is to be held from July 22 to 28. Stinson and James, the most successful of the Canadian trainers, will race the pick of their extensive stables at Detroit for the first time in the States, and as usual will win their share of the purses, as they generally are ready for the fray.

If you wish to marry suitably marry your equal.
