Obituary.
It was not without a strain at the heart strings that the death of Mrs. Sarah Murray came to us and to many of those who help to make up our community. The end came as she had wished swiftly and surely, altogether unexpected, her intelligence clear, her thoughts as ever unclouded only for those to whom she had devoted a long and faithful life service.

The death is announced of Mr. Richard Davidson a former resident of this town, who died at Winnipeg, on Monday, March 29th.

Died.
At 127 Edinboro street, Winnipeg, on March 29th, RICHARD DAVIDSON, late of Brandon, aged 69 years.
At Newcastle on Thursday, April 1st, SARAH MURRAY, wife of James Murray.

not only as regards their independence and constitutional liberty, but as regards the liberty of political parties as well, to some of whom the church or the pope desire that Catholic interests should hinder themselves. The church holds herself on a higher plane, and looks only to the common good, to the reign of truth, justice and peace. That is why I went to Rome, (Loud liberal cheers.)

Hon. Mr. Tarte said if it suited the opposition to fight the school question he did not object. They had been fairly beaten in June last, and the liberals were prepared to repeat the dose at any time. (Government cheers.) The government had been specially assailed on incidental grounds; they had been accused of violating their duties as ministers of the crown by appealing to the pope for his interference. He was glad this matter had been brought up, because it gave the liberals an opportunity of stating their case before parliament. There was nothing to conceal in this matter. The government as a government had nothing whatever to do with the appeal to Rome. He frankly admitted, however, that a group of Roman Catholic public men belonging to the liberal party took steps to securing the sending out of a papal delegate. He took full responsibility of his signature to the document he was about to read:

Appeal to His Holiness Leo XIII.
Most Holy Father—We, the undersigned members of the senate and members of the house of commons of Canada, representing therein the liberal party, present ourselves before your holiness as respectful and devoted children of the body church to complain of the existence of a state of things which, if allowed to continue, might be a serious danger to the constitutional liberties of this country as well as to the interests of the church itself. Your holiness has already been made aware of the conduct and attitude of certain prelates and cardinals of the secular clergy, who during the general election in this country, in the month of June last, intervened in the manner of restraint of electoral freedom, taking sides openly for the conservative party against the liberal party and going so far as to declare guilty of treason those of the electors who would vote for the candidates of the liberal party.

Sincerely attached to the institutions of our country which ensure to us the most complete liberty, we respectfully represent to your holiness that those democratic institutions under which we live and for which your holiness has many times expressed sentiments of admiration and confidence, can only exist under a perfect electoral freedom. Far be it from us to refuse to the clergy the plenitude of civil and political rights. The priest is a citizen, and we would not for a single instant deprive him of the right of expressing his opinion on any matter submitted to the electorate, but when the exercise of that right develops into violence, and when that violence in the name of the religion goes to the extent of making grievous sin out of a purely political act, there is an abuse of authority of which the consequences cannot be fatal not only to constitutional liberty but to religion itself.

If in a country such as ours, with population consisting of persons of various creeds and wherein the Protestant denominations are in the majority, Catholics do not enjoy in all matters relating to legislation the same political freedom as their Protestant fellow-countrymen, they would if it were placed in a position of inferiority which would prevent them from taking the legitimate part which they are entitled to take in the government of the country. The possibility, moreover, of conflict between the various groups of the population which history shows to be ever fraught with danger.

Then again an active and violent intervention of the clergy in the domain of political questions, submitted to the people must of necessity produce amongst the great mass of the Catholic population a deep feeling of discontent.

Merit

Made and Merit maintains the confidence of the people in Hood's Sarsaparilla. Its medicine cures you when sick; it makes wonderful cures everywhere, then beyond all question that medicine possesses merit.

Made

That is just the truth about Hood's Sarsaparilla. We know it possesses merit; because it cures, not once or twice or a hundred times, but in thousands and thousands of cases. We know it cures, absolutely, permanently, when all others fail to do any good whatever. We repeat:

Hood's Sarsaparilla

Is the best in fact the One True Blood Purifier. Hood's Pills build up the system, cure nausea, bad position, cure malaria, biliousness, etc.

It is a fact that the medicine which is the best in fact the One True Blood Purifier. Hood's Pills build up the system, cure nausea, bad position, cure malaria, biliousness, etc. It is a fact that the medicine which is the best in fact the One True Blood Purifier. Hood's Pills build up the system, cure nausea, bad position, cure malaria, biliousness, etc.

Again affirming our absolute devotion to the faith of our fathers and to the church of which you are the supreme head, affirming our respect and attachment for the person of your holiness, our attachment to the interests of our country and to the crown of Great Britain, its regis and protector, we beg that your holiness will renew in our behalf the most wise prescriptions and prohibitions of your predecessor, protect the conscience of the Catholic electors and thus secure peace in our country by a union of religion and liberty, a union which your holiness has many times extolled in those immortal encyclicals whose precious teachings we desire in all things to follow, and lastly grant to the children of the church now addressing your holiness the apostolic benediction.

Dated Ottawa, October, 1896.
Mr. Casgrain asked if the hon. gentleman meant to accuse any of the bishops who went to Rome of branding Mr. Laurier as a bad Catholic and a Free Mason.

"Yes," said Mr. Tarte, "the hon. gentleman who is at the head of affairs to-day (Mr. Laurier) was denounced to the papal authorities as a bad Catholic and a Free Mason."

Then Mr. Tarte went on to say that the bishops upon their return issued a declaration stating that the pope had assured them no delegate would be sent. But a delegate had been sent, said Mr. Tarte. "My sons," he said, "publish a paper, the Cultivator, in which I am the political editor. That paper, without any explanation being asked, was placed under the ban. That means in the diocese of Chicoutimi there is not a Roman Catholic who goes to confession but the first question he is asked is, 'Is he a subscriber to my son's paper? I feel I can be a good Roman Catholic at the same time. I know that if the pope, who is one of the broadest minded men of the age, knew the impression that was being produced he would put a stop to it. And we were not mistaken.'"

Mr. Tarte read the pledge which the bishop of Rimouski asked Mr. Guite of Bonaventure to sign, and praised him for not signing. He added: "We therefore went to Rome for liberty. The allies of the hon. gentleman opposite went to Rome against liberty." As to the charge that the minority had not been consulted, Mr. Tarte declared that he had four interviews with Mr. Langevin himself. But his grace would have nothing but separate schools, and that was out of the question. The holy see was not opposed to public schools, for in Ontario the public schools were attended by fifty thousand Roman Catholic pupils, yet in those schools religious teaching was restricted to one hour a week.

In his naive way Mr. Tarte dealt with the tariff. "Of course," said he, "our friends opposite thought the government was going to make a fool of itself. But the government is not going to do it. I never saw among a body of such safe men as the members of this government. The country will be all right."

A FARMER'S WIFE

Tells a Story of Years of Pain and Suffering.

Doctors Utterly Failed to Help Her and Morphine was Continually Resorted to—Became So Weak She Could Scarcely Perform Household Duties.

From the Beaver, Napawee, N. B. Mr. and Mrs. Bobb, Stone have been residents of the township of Napawee, about ten miles east of Napawee, for a period of about three years, and at that time have gained the esteem of all their neighbors. For six years previous to this time they had lived in Glenwood Springs, Colorado, and it was during their residence there that Mrs. Stone was attacked with an illness that made her life miserable for years. To a reporter who recently interviewed her she told the following story: "During the early part of our residence in Colorado, my illness first came on. At the outset every two or three weeks I would be attacked with a pain in my stomach. Later on it greatly increased in severity, and at times was so bad that I would crawl about with the pain. A doctor was called in, but the only benefit I ever derived from his treatment was through

the injection of morphine into my arm

as a result of which the pain would gradually pass away. The medicine which was given me, however, had not the slightest effect, and the doctor appeared to be greatly perplexed, and thereafter continually resorted to injections of morphine whenever the attacks came on. These attacks continued at intervals until our return to Canada, when they increased in frequency and intensity. The result was that I grew very weak, and my whole system appeared to be giving out. My complexion turned a yellowish hue, and I had little or no appetite. Lastly, I would be attacked with fainting spells, preceded by attacks of dizziness. I became utterly unable to stand, and could with the greatest difficulty perform my household duties. A doctor was called in who treated me for some time without benefiting me any. Then he gave me what I now know to be Dr. Williams' Pink Pills, and after I had used two boxes I felt somewhat better. I then purchased the pills myself and continued the treatment. I found that the pain was gradually decreasing. I could get rest and sleep at night, which hitherto had been almost impossible. I continued using Dr. Williams' Pink Pills for several months and the result is that they have effected a complete cure, and I am now enjoying the best of health. I can assure you it is a great relief to be free from the trouble that made my life miserable for so many months. I have to thank Dr. Williams' Pink Pills for effecting when doctors had failed.

Dr. Williams' Pink Pills set directly upon the blood and nerves, building them anew and thus driving disease from the system. There is no trouble due to either of these causes which Pink Pills will not cure, and in hundreds of cases they have restored patients to health after all other remedies had failed. Ask for Dr. Williams' Pink Pills and take nothing else. The genuine are always enclosed in boxes the wrapper around which bears the full trade mark, 'Dr. Williams' Pink Pills for Pale People.' May be had from all dealers or sent post paid on receipt of 50 cents a box or 6 boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.
