## TESTED THE NEW SYSTEM

Waterworks' Officials Satisfied With East End Plant.

Volunteer Fire Brigade Suggested For the Mountain.

#### Finance Committee Expects Good Price For Debentures.

terworks system was tested this morning, in the presence of the Fire and Water Committee, officials of the water works and City Engineer's department and Mayor McLaren. Chairman Clark this morning expressed himself very well pleased with the test and expressed the pleased with the test and expressed the opinion that it was so satisfactory as to justify the city in taking over the system. There are still some little matters to be adjusted, but the chairman thinks the system will be a success beyond question. Engineer Montgomery, who installed the plant, undertook to satisfy the city by a thorough test or release the corporation from its contract. A pressure of eighty pounds was maintained for an hour, pumping through two-inch-and-a-quarter nozzles. This was a pleasant surprise to even Mr. Montgomery himself, as the specifications call for only three-quarter inch mozzles. Mayor McLaren thinks it is up to the mountain top people now to organize a volunteer fire department. The city will likely buy a couple of hose reek, if this is done, and this equipment will serve until the revenue from that portion of the city justifies the establishment there of a branch of the Hamilton department. The aldermen agreed that a twelve-inch supply pipe carried from King street would have given much letter satisfaction, but they think the six-inch pipe will serve for a number of years. epinion that it was so satisfactory as

ternoon will open tenders for \$80,000 school debentures and expects to realize a good price. The city of London sold \$40,000 worth of debentures the other day and realized almost par for them. Other matters to be dealt with by the committee includes a request from the Central Canada Citizen that the council support a petition requesting that legis support a perition requesting that legislation be passed permitting municipalities to tax improvements at a lower value than land value and the Parks Board's request for permission to issue debentures for \$33,000 for the purchase of park property.

The Fire and Water Committee to-night will open tenders for the Beach power house and deal with a lot of re-commendations from Chief TenEyck, in-cluding resignations and appointments to the fire department; the purchase of life nets and an automobile.

Building permits were issued to-day to James Holden & Son for four brick houses on Severn street, near Colborne, for J. Lomas, to cost \$4,800, and for a brick house for the same owner on Col-borne street, near Severn street, fo cost \$2,400.

The sub-committee on the redivision of the city into wards will prepare a report this afternoon for the Finance Committee to market

The tenders for the new ten-room addi-tion to the Victoria avenue school will not be ready for the Building Committee of the Board of Education to deal with to-morrow night, and a special meeting will be held early next week to open

Anderson.

The decision handed down yesterday by the United States Circuit Court of Appeals marks another step in Walsh's long fight against his fees, who included every powerful financier and many railroad men in Chicago.

The verdict of the trial court which found him guilty of misapplication of the funds of the Chicago National Bankwas affirmed by the United States Grauti Court of Appeals.

The verdict of the jury, which the higher court passed on, carried with it a possible aggregate penalty of 540 years in the Federal prison at Leavenworth.

Ever since Jan. 8, 1908, a bitter fight has been waged to keep Walsh out of prison. The Government lawyers, opposing the moves of Walsh's counsel, headed by John S. Miller, of "immunity bath" fame, used their every effort to land Walsh in the famous kine of cells at Leavenworth known as "bankers' row."

Borne up by the iron nerve he always had shown in finance, the grief of Walsh was short-lived.

He was not crushed by his fate, though the court room scene when first he-was found guilty was one of the most dramatic in Chicago's history:

When the excitement subsided and the depositors were paid off, the long negotiations concerning the building of the Walsh railroads, particularly the Chicago Southern into Chicago, were taken up. Most of the readily salable assets of these roads were disposed of by the clearing house bankers.

For many years previous to the fail of his banks, John R. Walsh had been recognized as one of the typical "self-made" men in the country. He was a man of many friends and many foes.

# A SENSATION IN BLACK HAND CASE.

# Witnesses Swear That John Taglerino Was Author of Those Threatening Letters.

Last week the Times announced that a sensation would likely be sprung in Police Court shortly, and that the sensation would be connected with the Black Hand outrage on the morning of Sept. 7, when Salvatore Sanzone, the James street north fruit dealer, was held up by Samuel Wolfe, Carmelo Colombo and Ernest Speranzai, who are now awaiting trial for that offence, and that John Taglerino, 398 Sherman avenue north, would be the principal figure in the sensation.

The accuracy of the Times' predictions was verified this morning.

There was a good deal of curiosity exhibited when Taglerino appeared in court, for it was known be was committed for trial last week on a charge of cutting and wounding John Deak in a mix-up two weeks ago at defendant's store, on Sherman avenue.

Not a word leaked out in court as to why Taglerino was there.

Imagine, then, the surprise, when His Worship read the charge, which accused Taglerino of sending the threatening letter to Salvatore Sanzone demanding the \$1,000. The letter was sent from Buffalo, dated Sept. 2.

A. M. Lewis appeared for the defence and for his client pleaded not guilty and declined to elect.

Big Car Left Track and Wrecked Frame Dwelling.

Mrs. Sackrider Slightly Hurt and Others Escape.

Stone on Track Caused the Car to Leave Rails.

A street car ran off the tracks early this morning at the corner of Wilson and Mary streets and crashed into a frame house on the southwest corner of the two streets.

Mr. and Mrs. Sackrider and family were sleeping in the house at the time of the accident. Mrs. Sackrider was the only person injured. She had her back bruised by plaster falling on it.

bruised by plaster falling on it.

The cause of the accident was a stone on the track. One of the heaviest cars left the King street east car sheds a few minutes to 6 o'clock this morning, in charge of Motorman Bothwick and Conductor White. The car, No. 118, was en route to the street railway office, corner of James and Gore streets, to take the Deering workmen to work. When just at the curve at Mary street it suddenly left the track and crashed headon into the little frame house.
