vision of a competent person, we need either work or pay at present, and per-not look for much improvement. We haps it just as well to leave it so, for of know that in the neighboring provinces course he will do whichever he finds they never had good roads, till they had most to his advantage. I believe there money appropriated for them expendis more done on the roads as statute ed under the direction of competent super-visors, and if we would adopt the same course here, I believe we would have Hon. Mr. Lord: I have travelled in Hon. Mr. LORD: I have travelled in Nova Scotia and New Brunswick, and have found their roads very much inferior to our own. I know a portion of our roads near the towns are very bad in the fall, but in Nova Scotia, though you will occasionally find a few miles of good road in favourable situations, yet in the low lands they are worse than ours. I have frequently assisted in taking a waggon out of the mud. A great deal has been said about our Commissioners, but I believe they are just as intelligent as any you can find in the other provinces. Nothing will please some gentlement of the knowledge in the world was labeled to appoint made for an appointment of that kind I feel assured that it would be money well expended.

LIQUOR LICENSE BILL.

LIQUOR LICENSE BILL.

LIOU. Mr. MCHRIED, on rising to move for the second reading of a Bill in further assured that have to get his practical to the law requlating the sale by License of Spiritous Liquors said, the principal alteration in the law which was condemnated by this Bill was, that a party requiring a License would be required to obtain the consent of a majority of the louseholders in the District wherein he wished to open a tavern, at a public meeting to be called for that purpose, instead of going round to the houses with a requisition as by the present Act. The Bill also well expended.

we precinct—to decide where draining the policy of the pol

in communication to the committee, I think he had reference to certain swamps, and he stated what he had seen in Canada, where small codate timber placed upon end, is found to be preferable to what is known as "corderor yeads." As to a crusher not being imported this year, I have already stated the reason, which is that a doubt existed as to the cost of imported stone.

Hon. the Presentence is certain swamps, and he stated what he had seen in Canada, where small codate timber placed upon end, is found to be preferable to what is known as "corderor yeads." As to a crusher not being imported this year, I have already stated the reason, which is that a doubt existed as to the cost of imported stone.

Hon. the Presentence: His honor from I'rince County, (Mr. Lord), says we have begun at wrong end, but I differ from him. A committee was appointed last year to enquire juto the best method of improving the highways, and they have presented their report which contains a good deal of seelul information in the spring, is a good one. I remember to enquire juto the best method of improving the highways, and they have presented their report which contains a good deal of seelul information in the spring, is a good one. I remember the propose of the propose of the majority, it would be preferable to the suggestion of his honor from Bedeque, the propose of the principle embodied in the last acts in the country who would save more rise County, (Mr. Lord), has made the propose of the propose of the majority, it would be preferable to the country who would save more rise that was passed, or if there is any change it to hold, that if a proper supervisor were appointed, he would save more rise that his salary in the amount of money expended to define the money is expended to define the money is expended to define the money is expended to little purpose. It has the money is expended to little purpose of the country who would any more proposed to contain the country who would not be already to roads and bridges, for it cannot be desi Adjourned till Monday next, at eleven o'clock.

Moxday, April 13.

On motion of Hon, Mr. Palmer, a Bill for shortening the language of Sheriffs Deeds, was read a third time, and passed. greater interest in seeing that no person should sell without license than if they were otherwise disposed. As the bill is at present, an unlimited number of meetings may be called in a year, and, on the very day when a meeting is called, many of the people may have something of more importance to themselves to attend to, but if portance to themselves to attend to, but if only one meeting in the vear could be callide, they would be more likely to attend. I believe that would be much more efficacions than the system proposed by the bill. There is searcely a year but there is some amend ment proposed to the license law, and I do not know but the law passed by the first legislative. Assembly in the scalons is well as the season in the system of the season in the system. Legislative Assembly in the colony, in 1773, was just as effectual in preventing the

ALL CURES MADE EASY

HOLLOWAY'S OINTMENT Bad Legs, Ulcerous Sores, Bad Breasts No description of wound, sore or ulcer can resist the heal ing properties of this excellent Ointment. The worst case radily assume a healthy appearance whenever this medical agent is applied; sound flesh springs up from the bettom the wound, inflammation of the surrounding skin is ar a sited and a complete and permanent cure quickly follow the cuse of the ointment.

Piles, Fistulas, and Internal Inflammation These disressing and weakening diseases may with cestainty be cured by the sufferers themselves, if they will us Holloway's intment, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may oncern, they will render a service that will never be forgoten, as a cure is certain. Rheumatism, Gout and Neuralgia.

Rheumatism, Cout and Neuraigus.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Unitment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always beeffected, seen under the worst circumstance, if the use of these medicines be persevered in Lruptions, Scald Head, Ringworm, and other Skin Diseases.

Other Skin Diseases.

After fomentation with warm water, the utmost relief and specdiest cure can be readily obtained in all complaints affecting the skin and joints, y the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach consequently in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will readily be improved, although the cruption may be driven out more freely than before, and which should be promoted; perseverance is necessary. On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the

On the appearance of any of these maladies the Unitment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions. Scrofula or King's Evil and Swelling of , the Glands.

This class of cases may be cured by Holleway's panifying Fills and Qintment, as their double action of purifying the blood and strengthening the system renders them more afficient any other renedy for all complaints of a second-bable than any other renedy for all complaints of a second-bable mature. As the blood is impure, liver, stomach and bowels being much deranged, require purifying medicine to bring about a cure.
