CHEAP Soeing
—AND—
CHEAP Seeling.
These two naturally go together.
With a thin "out-sole" and a thick "slip-tap," the cost of soeling can be reduced, since "out-soles" are worth more than "slip-taps."
But what happens?
The wearer soon finds these cheap-soled shoes are "cheap" in a sense that doesn't please.

THE PATRIOTIC POLITICIAN.

One of the most inspiring sights in this sordid age of commercialism and greed is that of the philanthropic reformer who enters politics for the sole purpose of uplifting his fellow man at so much per lift. If it were not for the politician who twists the tail of the octopus with one hand and solicits votes with the other, this world would be as gloomy as a rival undertaker viewing the remains. After an intrepid reformer has endeared himself to the common people by chasing a three-tined pitchfork through Augean stables and jolting the filling out of a trembling trust, it is a joy to see that he will place himself in the hands of his friends and try to break into Congress with the aid of the organization. The man who throws his soul and a large tank of burning words into the fight for the downtrodden masses without trying the light in the bosom of an Australian ballot is as rare as face powder on a field hand. The crying need of the age is for men who are willing to organize the Fifth precinct of the Second ward without chasing the nomination for Justice of the peace into the nearest alley and sandbagging it into submission with a petition signed by forty near-sighted freeholders.

Chinese Emperor Capitulates.
Special Evening Telegram.
PEKIN, To-Day. The Throne surrendered to the National Assembly and in compliance with the demands of the Assembly dismissed Sheng Hsuan Hual, Minister of Posts. The Throne has ordered Prince Chun, President of the Cabinet, before the Board of Inquiry, where he doubtless will be severely dealt with, and released from custody the President of the Sze Chuen Provincial Assembly and other leaders in the riots at Cheng Tu. In fact the Throne has agreed to all the Assembly's demands. It is believed that the prospect of Yuan Shi Kai, who is which would be ruled by the National Assembly, it is evident the Manchus mean to offer the people complete and irrevocable constitutional government in return for a cessation of hostilities. It is reported that Yuan is already negotiating with the rebels, who are old in experience of Chinese affairs, would not be surprised if the revolution is terminated on those lines and practically without further fighting.

An Appeal.

S. S. "Home" St. Belle Isle, Oct. 24th, 1911.
Editor Evening Telegram.
Dear Sir:—I have just visited a portion of the Labrador strait of the Straits of Belle Isle, traveling from foot from Lause-ou-Loup to Blanc Sablon, and staying for short periods in each settlement between these points. The fishery along this portion of the coast has been almost a blank, and there is a famine in the land. Lause au Clair has been struck particularly hard. There are some eighteen families more than half of which are without the merest necessities of life for this winter. I spent a portion of Sunday at Blanc Sablon, and found six whole families without any food whatsoever in the houses, and without any means of obtaining. When I reached Blanc Sablon, I found fourteen of the families of Lause au Clair waiting for me. I was told that the men of the S. S. Home in the bay had been landed for their service. They had waited there since Friday with little to eat and in sufficient sleeping accommodations. The S. S. Home arrived on Monday. The disappointment of the men when it was found that the flour had not arrived cannot be described. Before leaving Lause au Clair, a Mr. James Dumaresque informed me that he had the care of six barrels of flour at Port-au-Loup and that if some one in authority would direct him to give it to the six families that had nothing in their homes, he would give it out. I need not say that I did not hesitate to assume the authority.
But it is not the purpose of this letter to give the details of the distress on this portion of the shore. The Government has the provisioning of the people in their mind and it is to be hoped that whatever is to be sent will be sent immediately. My object is to appeal for some clothing for the children. People that cannot buy flour cannot buy clothing. Socks, boots, mits, etc., wear out, and require to be replaced. I am thinking that in the settlements I have indicated there will during the coming winter be naked feet and legs; little shivering bodies without drawers, vests or petticoats, necks and heads without caps or mufflers.
If people who have plenty will send to Mrs. Blackall, 23 Forest Road, some of these things, I will arrange for the distribution through teachers and others known to me. He that gives quickly, gives twice. Attach name and address of sender to each parcel. The steamer has just reached my destination, Battle Harbor, and so I must close.
Yours in haste,
W. W. BLACKALL.

We learn from the officers on board that the S. S. Stopheno will make two more trips to St. John's from New York and after that will make three trips south starting on December 23rd and running to Havana, Cuba, Porto Rico and Bermuda. After her second next trip she will lay up in New York for 2 weeks and will be fitted with electric fans, swimming baths and other improvements for the Southern service. She will make 2 thirteen day trips and one nineteen. After she will come direct to St. John's to prepare for the seal fishery.

The Casey St. Property
COUNCILLOR MARTIN WRITES.
Editor Evening Telegram.
Dear Sir:—My attention has been directed to statements contained in a communication signed "Citizen," which appeared in your paper of recent date, and also some editorial comments of yours in connection with the subject matter of "Citizen's" letter. I beg to point out that there is absolutely no truth whatever in the statements contained in "Citizen's" letter, and that your editorial comments, to say the least, are grossly inaccurate. It is quite true that I am the owner of property on Casey Street, which fact is known to the Mayor and other members of the Council, and it is also a fact that I have made more than one application for permission to repair the property and have been refused. The ground about the houses on Casey Street, which I laid down some time ago by the Council. The facts in relation to the expropriation of this land, as can be proved by the records of the Council, are: That on August 4th, Mr. Ayre, who acts as agent for me, applied for permission to repair house along Casey Street. When the Mayor asked where the property was, and he was told, and upon the Mayor's suggestion the Engineer was ordered to make a map of the property and bring it to the next meeting of the Council. On August 18th the Engineer reported upon the cost of making the proposed alterations, and the Mayor suggested that I then stated the Secretary be sent and make an estimate of what it would cost to purchase the property, which was accordingly done. I then stated that I would like very much that they would do something in the matter—either give me permission to repair or take over the property, and the Mayor was demanding that certain repairs be made, and unless made, the property would become untenable. At the next meeting of the Council, August 25th, the Secretary reported having examined the property, and stated that it would cost about \$6,000 to straighten the line of the street and remove the house back off the street line. As the other property would have to be taken in addition to this the Secretary was ordered, at this meeting, the Mayor being in the chair, to interview the owner of adjoining property with the object of having it straightened as well. On September 21st, on which date a regular meeting of the Council was held, the Secretary submitted a plan for the property and the proposed alterations, and also reported upon the cost of making them, which would be \$13,000; this sum to cover the cost of purchasing Cooney's property, as well as mine. A discussion ensued, and in order to avoid expense it was decided to purchase some land from Mr. Score, who was the owner of the land to the eastward of the property referred to. The Secretary was ordered to see Mr. Score, the owner of the rear ground, and to report at the next meeting. At the several meetings referred to the Mayor was in the chair. Owing to the absence of Mr. Score from the city, the Secretary was unable to see him, but upon his arrival here the Secretary saw Mr. Score, and reported at a regular meeting of the Council, held on October 12th, and at this meeting the Mayor was not present. When the question of the final purchase of the land came before the meeting of October 13th, I being in the chair vacated it, and it was taken by Councillor Coaker. I left the room, remained outside, and hearing some objections being made by Councillor Mulaly, I went into the Council room, took the chair and asked that the matter be deferred until the Mayor was able to be present at a regular meeting of the Council. The above are the facts connected with the expropriation of the land, and truth of which can be easily demonstrated. Where "Citizen" got the distorted information which he put in the form of a letter in your paper I cannot positively say at present.
It is grossly untrue that the Mayor intimated that nothing could be done as there were too many things more necessary to be done; it is also untrue that I dispatched an official to appraise the

Fighting the Steel Trust
Special to Evening Telegram.
TRENTON, N.J., To-day. The Government's suit to break up the so-called Steel Trust has been heard in the Circuit Court. The Government asks not only for a dissolution of the Steel Corporation, but for the appointment of a committee or subsidizing companies which are alleged to have combined in violation of the Sherman Law in order to maintain or attempt to maintain a monopoly of the Steel business.

Died in Boston.
A cablegram was received by Mrs. W. H. Bartlett last night bringing the sad news that her father, Mr. J. W. Moulton, had passed away while resting in Boston on his way to San Francisco with Mrs. Moulton to make their home with a son of theirs who is settled on his own in prosperous circumstances. He had been writing to his parents for some time about the beauties of the country and the grand scenery of the coast, and inviting them to come out and live with him. About six weeks ago Mr. Moulton and his wife decided to take the trip. They had spent the month of August in California. Miss Mabel Moulton, who was finishing a term for a Trained Nurse's examination at the General Hospital here, intended to join the old people at Boston and go on with them to California. She passed the examination successfully this week, coming out first in her class and receiving her diploma and left for Boston by the express last evening. A few hours after her departure Mrs. W. H. Bartlett, Victoria St., received the telegram telling of the death of her father as the outcome of a paralytic stroke, with which he was visited a few days previously. Deceased was in his 50th year, was a fine type of the sturdy Newfoundland. He was Light House Keeper at Cape St. John's for several years and resigning the position 15 years ago was appointed to the "Customs" service in St. John's. He was a native of Pouch Cove and belonged to a large and highly respectable family of two sons and seven daughters, two married and two single in Boston, one married in California. Mrs. W. H. Bartlett and Miss C. L. March of this city, one son in British Columbia and 1 son in California. To them and the bequest of the telegram extends its sympathy. It is likely that the body of the deceased will be brought home for interment.

A Queer Story.

There is an old Devonshire tradition to the effect that if the milk of a cow which has been bitten by a snake is allowed to stand, the form of a snake will appear in the cream. News has come from the hands of a friend who lives at Goldburn, near Okehampton, England, affirm that they have seen this strange sight. The cow in this case belongs to Mrs. Heale of Goldburn, and it was bitten by a viper a few days ago. The cow was milked, and the milk was about to be flung away when the servant girl intercepted, and speaking from previous experience, said, "Let it stand, because if the cow has been bitten by a snake it will appear in the milk." The milk was accordingly set aside, and on looking at it some three hours afterwards the form of a snake was distinctly seen in the cream. There was an exact model of the reptile, the head, the eyes, and the tongue projecting from the mouth—perfect throughout to the tail.

SQUID INDUSTRY.—The squid factory at Seal Cove, B.B., was successfully operated the past summer, squid being plentiful. The price given was six cents a pound, two cents less than last year's price.

New Lights for Church Here and There.

The R. C. Church at Placentia is to have installed shortly a new system of acetylene lighting which will improve the interior greatly. The light is very brilliant and is a great improvement on the old kerosene lamps. Rev. Fr. Curran of Pouch Cove has the church hall and presbytery lit with the same and finds it a fine illumination.

Quick Run.

The S. S. Stephano on her run from Halifax to this port this trip beat all previous records and came down from dock to dock in just 39 hours. This means an average of 14 knots and the engineers and Captain Clarke are justly proud of the ship's work. From here to Halifax a few trips ago she went up in the remarkable quick time of 38 hours.

BECAME ILL IN COURT.—The foreman of a young woman who was the complainant in a case against a man in the Magistrate's Court, became suddenly and seriously ill. The court attendants had her conveyed downstairs where stimulants were administered and after a while she revived.

VALUABLE FOX SKINS.—Mr. E. Whalen of Long Pt., Placentia Bay, killed two very valuable foxes there a few days ago. One is a "pitch" and valued at \$100, and the other a black fox which is worth at least \$500. The latter is very rarely to be found in the bay and Whalen is undoubtedly a lucky man to secure such a skin.
