

"THE ONE THING THAT DOES ME GOOD"

At 60 Years Of Age, Gin Pills Give Me Perfect Relief"

As one begins to get along in life, the vital organs grow less active and need assistance. Men and women of 50, 60 and 70 should read the following letter very carefully. It points the way to a happy, healthy old age and long life.

E. G. WOODFORD, Consulting Mining Engineer,
25 BROADWAY, NEW YORK. 50 BROAD STREET HOUSE, LONDON.
"Bought some of your GIN PILLS at Victoria, B. C. last September. I made inquiries in New York on my arrival there but was unable to obtain any information about them. Your remedy, I find at 60 years of age, to give me perfect relief and I regret very much that you have not made arrangements to have GIN PILLS on sale in New York and London, as I urgently recommend GIN PILLS to friends of my age as being the one thing that does me good. I will be glad if you will send me a few boxes of GIN PILLS to my London address and a few to my office in New York by post if possible."

E. G. WOODFORD.

What Five People Saw.

By RUTH CAMERON.

Every human being's life is both subjective and objective. That is, it consists of things and people and conditions that surround him plus his reaction upon these things and conditions. We all know that.

But do we realize that the individual's reaction is more important than these external conditions?

Two people may live in the same house, read the same books, look at the same pictures and furniture, hold converse with the same neighbors, and yet live totally different lives, because their individual reaction on these identical conditions is so entirely different.

Two people walking down the street together will not see the same things. One will see houses and types of architecture, another the babies in the perambulators, another the gowns of the women, etc., etc., according to their tastes and interests. But to go still further than that, two people may look at exactly the same thing and see something entirely different.

Once upon a time I spent a summer in a cottage built near a bit of beach where the waves thundered in and broke in magnificent surf. We had many visitors and of course we took them all down to see this sight. And they all saw or heard something different.

The engineer watched for a few minutes in silence and then he broke out, "What gets me is the wasted energy! Why, just look at the way those waves thunder in. I'd like to know how many foot-pounds of energy there are in every wave. Think of the work they would do if we could only harness them."

The athlete immediately wanted to know if anyone swam on that strip of beach. "Those waves must be three or four feet high, but I swam in higher surf than that last summer."

"I don't care so much about watching them," said one of my women visitors. "but I could sit for hours and listen to that dull boom they make."

On the other hand, my artistic friend disliked the noise of the waves, but was delighted by the beauty of the scene and raved about the wonderful picture this view or that would make.

A practical and cautious visitor scarcely conceded a glance to the magnificent surf, before he turned his back on it to look up at the cliff behind us and wonder how the cottagers dared build so close to the edge. "Look at the way the surf is eating away that cliff!" he exclaimed. "Ten years from now they'll have to move those houses back."

And so it went. To each visitor that little strip of sandy beach, with the waves rolling in, meant something entirely different. The beach was always the same but the reaction was always different. And so it is all through life. The subjective dominates and moulds the objective, and it isn't the things or the people or the conditions about us that matter, so much as our own reaction upon them.

"The Dawning"

AT THE NICKEL THEATRE.

The big Vitaphone feature entitled "The Dawning" attracted an immense crowd to the Nickel Theatre last night. It is a very powerful social drama with a charming story of love, pathos and excitement, ballroom scenes, luxurious homes, an art studio and much more. The beautiful actress Leah Baird plays a very difficult role in a faultless manner. It is a picture which will please and everyone present last night was more than charmed with it. "The Man Under the Bed" is also by the Vitaphone Co. and was much admired. "The Chaplain" is a comedy. The bright actress of the Kalem Co. is seen in a number of her daring feats. Mr. Cameron sang "Stopped It." and Mr. Fleming, the delightful love song entitled, "Moonlight Bay." The programme will be repeated this evening.

New Treatment for Eczema.

The treatment of skin diseases, and especially of Eczema and Psoriasis is one that requires the very best remedies that can be had. Modern science has provided such a remedy in Zylex, the result of many years experience with skin diseases. Zylex has the form of an elegant ointment made with such skill as to be absolutely smooth and greasy, which applied to irritated surfaces at once exerts its soothing effects in a way that some sufferers from eczema have called marvellous. If you have any skin trouble especially of eczema-like nature, we strongly urge you to try Zylex. Zylex may cure where other remedies have failed—relief it will certainly give. And not alone for eczema and kindred troubles, but for boils, local inflammations, ulcers, etc., etc., its qualities render it of special value.

Zylex Soap contains in a modified form, many of the virtues of the ointment, and may be used with Zylex in many cases of skin disease. Both may be had from your druggist, the ointment at 50c. a box, the soap at 25c. a cake. Zylex, London. —nov22, eod, 12m

'Kyle' Returning.

The Reid Nfld. Co. received a wire from the S. S. Kyle yesterday evening from Hawk's Harbor, which read as follows:—

You're Bilious And Costive!—Cascarets

Sick Headache, Bad Breath, Sour Stomach, mean Liver and Bowels Clogged—Clean up to-night. Get a 10-cent box now.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin, and Miserable Headache come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gasses, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning.

They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

SEAMEN CREATES TROUBLE.—Last night Constables Dempsey and Croft were called on board the S. S. Morwena to quell a disturbance amongst the seamen. On entering the forecastle the officers found two of the crew fighting. They interfered and were attacked by a French seaman, the principal of the row. They remonstrated and brought their man to the deck. The latter became more obstreperous and tore off all his clothing—after a lively struggle, during which the seaman proved himself to be exceptionally strong, the officers succeeded in handcuffing the prisoner and took him to the police station.
