Humor in the Church.

Some Clerical Riddles.

Archbishop Whately, it is interesting to recall, was exceedingly fond of asking riddles. To him are attributed the well-known ones: "Why can a man never starve in the Great Desert?" "Because he can eat the sand which is there," as well as the other with the no less atrocious pun, "What brought the sandwiches there?" "Noah sent Ham, and his descendants mustered and brood."

Another of his riddles was: "What is the difference between a form and a ceremony?" To which the proper answer is, "You sit upon a form, but you stand upon ceremony."

It was Archbishop Whately, too, who originated the conundrum which he asked a roomful of clergymen. "Why do white sheep eat so much more than black ones?" One of them suggested that as black attracts the sun more than white, the black sheep did not have such need of food as the white ones. All sorts of other views were advanced as the right reason, but the Archbishop shook his head at them all, and eventually explained that the reason why white sheep eat more than black ones is because there are more of them.

On another occasion he was discussing the difference between the Celts of Ireland and Scotland, and when the conversation threatened to

run into a dry, technical rut he suddenly asked, "What is the difference between an Irishman and a Scotsman on the top of a mountain in frosty weather?" and when everybody gave it up, said, "One is cowlid with the kilt, and the other kilt with the cowlid."

The Penalty of Impudence.

One day a young officer, remembering the Archbishop's predilection for conundrums, trespassed beyond the limits of decorum, and ventured him a riddle.

"What is the difference," he said,

Radway's Ready Relief

Jacob Able of R. F. D. No. 1, Milltown, N. J., writes: "For the last three years I have had kidney disease and backache, and I have had it so bad that for eight days and nights I could not get my clothes off. I thought I would try Radway's Ready Relief. I gave my back and hips and sides a good rubbing, and in a short time the pain was all gone. No one in this world knows but God and myself the misery I was in till I USED Radway's Ready Relief."

CURES LUMBAGO

Radway's Ready Relief should be well rubbed over a large surface, until a glow is produced, with a burning sensation. Few cases require the Radway Pills. Some do, when a dose on getting would be taken.

RADWAY & CO., Montreal, Can.

"between an ass and an archbishop?"

Archbishop Whately looked at the young man, but did not reply. Thinking this meant that the Archbishop gave up the conundrum the young man said: "An ass has a cross on his back, and an archbishop a cross on his breast."

The Archbishop nodded. "Just so, and can you tell me what is the difference between an ass and an ass?"

"I cannot say," answered the young man.

"No more can I," said the Archbishop, looking him full in the face.

Ex-Convicts as Servants.

One of the great advocates of the ticket-of-leave system was the famous philanthropist, Lord Carlisle. Speaking on the subject to Archbishop Whately he said, "I have resolved to have no male servants in my house but returned convicts."

"Then, my lord," replied the Archbishop, "you will probably wake one morning to find yourself the only spoon left."

ing along shore; chances good of getting to Barracks; ice heavy; Fogota, 4 p.m., off Cabot Island; Ranger also passed this evening."

From the tenor of the two latter messages it is apparent that the Sagona and Fogota did not leave Wesleyville before the other ships, as reported a few days ago.

Minard's Liniment Co., Limited.

Gentlemen, — Theodore Dorais, a customer of mine, was completely cured of rheumatism after five years of suffering by the judicious use of MINARD'S LINIMENT.

The above facts can be verified by writing to him, to the Parish Priest or any of his neighbors.

**Forget
Your Stomach**

Anyone in perfect health never "feels" at the stomach. It's forgotten like any other part of a perfect running machine. No jar, no shock, no sensations at all; just easy, pleasant, restful work—duty well done.

The Way

lies in the proper selection of food and drink, getting down to Nature's principles—plenty of fresh air, good water, and particularly plenty of good food that will easily digest, and nourish and rebuild—not clog up.

Understanding how the body works upon food and what elements it requires to rebuild itself, this knowledge was used to produce the perfect food—

Grape-Nuts

It contains the natural phosphate of Potash which the life forces especially require for rebuilding bone, muscle, brain and nerves.

Then again, in Grape-Nuts a part of the starch of the wheat and barley has been changed into sugar by the baking at the factory. This is exactly the condition which starch food—bread, oatmeal, potatoes, etc., assumes in the act of natural digestion. So we find Grape-Nuts has passed through this process outside the body, and is therefore partially predigested—a tremendous help for those who are a bit weak in digestive power. And so

The Only Joy

of health, with its glow, vigor and energy, will come back. The years are forgotten, and so is the stomach, but you'll know

"There's a Reason" for Grape-Nuts

—sold by Grocers, everywhere.

could possibly be deemed complete if reference was not made to the inimitable Sydney Smith.

On one occasion there was a good deal of talk about paving the streets around St. Paul's Cathedral with wood. It was said that there were many difficulties to be solved before the matter could be arranged. When they were being discussed in the Chapter Room of St. Paul's he exclaimed in the most matter-of-fact manner, and with the most innocent look on his face, "If my reverend brothers will lay their heads together the thing will be done in a trice."

Optics and Hop Poles.

Comparatively few people venture to criticise sermons to their authors. Occasionally, however, a spirit bolder than the rest will venture on this course. A certain clergyman who had been inducted into a living in the hop country used the word "optics" in the first sermon he preached to his new congregation. At the close of the service, on leaving the church, he got into conversation with one of the parishioners, a farmer, who proceeded to thank him for the enlightening sermon he had preached, but added that a mistake had been made in one word. "Sill," he said genially, "we all of us 'knew what it was you meant, so that it didn't matter very much."

"I am sorry," replied the clergyman, "What was the mistake?" "Well," replied the farmer, "you talked about 'op sticks. In this part of the country we always call them 'op poles."

Murder in Halifax City.

Halifax, N.S., March 8.—Mrs. Margaret Brown, a widow, aged 50 years, was murdered in her home 25 Bilby Street early this morning, and died of her injuries at the Victoria General Hospital to-night.

The woman's skull was frightfully crushed, but despite the terrible injuries she lived about fifteen hours after being attacked.

James Murphy, a young Scotchman, was arrested by the police, and tomorrow morning he will have to face a charge of murder in the police court.

Family troubles are alleged to be the cause of the crime. Murphy is said to have been married to a daughter of the dead woman.

This is the worst case of murder and the most shocking crime that has been committed in this city since Cook cut the throat of the old woman in her home on Brunswick Street about twelve years ago.

It was learned to-night that there were no witnesses of the tragedy. All the parties concerned resided in the

same house. Murphy had been out late on Saturday night and it is stated that when he returned some words passed between the two.

About three o'clock on Saturday Geo. Brown, a son of the victim who was in another room, heard strange sounds coming from the apartment in which his mother was.

Found Woman Unconscious.

His suspicions were aroused and on going to the room he found his mother lying unconscious on a sofa with her skill crushed in several places. He at once called for assistance and medical aid and the police were at once summoned. The first physician to arrive bandaged the head of the woman and ordered her immediately removed to the hospital.

She never regained consciousness.

passing away at 3.30 o'clock to-night. The detectives after investigating arrested Murphy who was found dressed and in another room in the house. The officers also recovered the hammer, which was covered with blood and the hair of the victim.

The prisoner is about 25 years of age, and he came here six years ago from Glasgow. He has been employed for some time at the dry dock. He is of slight build and says he had been drinking on Saturday night.

Train Notes.

Thursday's outgoing express arrived at Port aux Basques at 4.45 a.m. to-day.

The incoming express from Port aux Basques, left Alexander Bay at 8.25 a.m. to-day, and is due in the city at 6 p.m.

An express will leave Port aux Basques after the arrival of the Bruce, due there this evening.

McMurdo's Store News.

SATURDAY, March 14, 1914.

Flowers? Whatever is to be had in that way you can procure from the Military Road Branch at any time. They are in close touch with Grove Hill, the greatest horticultural place in the country and if anybody can supply your wants in the way of flowers or plants they will. Drop in or telephone your wants.

With the multitude of hair preparations old and new in the market, it is no marvel to us that Canthardine holds and even increases its sales. We know of what it consists, and what it can do, and so can consistently recommend it against any other. Price 25 and 50 cents a bottle.

S.S. PROSPERO.—The Prospero left St. Joseph's at 7.15 a.m. to-day, and is due here early to-morrow.

S.S. GLENCOE.—The Glencoe is due at Placentia early to-morrow morning, and will sail again after the arrival of Monday's train from St. John's.

**SEALING NEWS.**

The following messages were received since we went to press yesterday:—

FROM BONAVISTA.

"Five steel ships off the Cape, making good progress. Fogota and another ship, supposed to be the Sagona, well across the Bay and doing fairly good work. Ice slackened a little off the Cape. Plenty ice close to land. Steamers made good time passing; only a few minutes in the difference between them."

WIRELESS FROM STEPHANO.

"Position 29 miles east of Cape Bonavista; Stephano leading; Nascope, Belaventure, Beothic and Florizel in our wake; Bonaventure and Adventure a long way astern. Ship making good way. Passed one smoke on our port side, but unable to distinguish ship. No word from the Eagle."

Mr. J. S. Munn received the subjoined wireless message from Capt. A. Kean, of the Stephano:—

"At 7.30 p.m. few miles eastward of Funks; burnt down; Florizel, Belaventure along side, Nascope and Beothic on port side; ice loose; Eagle report 6 miles from Wadham Island; all well."

A similar message was received from the Florizel.

BLOODHOUND HAD HARD TIME.

As the Bloodhound, Capt. Jesse Winsor, which left here a week ago had not been reported as arriving at Wesleyville up to yesterday fears were beginning to be felt. Mr. J. C. Hepburn has received word that the Bloodhound reached Wesleyville yesterday morning, having experienced a hard time battling her way through the heavy ice encountered going north from here. She did not wait long at Wesleyville, but just time to report her arrival and then immediately with the rest of the wooden ships left for north.

Last night Hon. J. C. Crosbie had this message from Musgrave Harbour:—

"Sagona, Bloodhound, Eagle, Newfoundland four miles south of the Wadham Islands at 6 p.m.; Sagona leading."

Mr. Crosbie also had the following from Wesleyville:—

"Wind south west, light, Sagona, Newfoundland, Eagle left Flower's Cove Island this morning, steam-
