AMERICAN SPY ARRESTED.
LONDON, July 15.
 The British police attach importance to the arrest at Gravesend last night of an American who, when arrested, was wearing the uniform of Princess Patricia's Canadian Regiment. When arraigned in court the prisoner, whose name has not been made public, said that he bought the uniform in Plymouth a fortnight ago from a soldier for 50 cents. He was remanded for further investigation.

Ever Ready Hot Water, Night and Day.

FOR THE NURSE.
 "The bath ready for baby, when baby is ready for the bath" should be an adage of every housewife—who should also keep in mind that any trouble saved to the nurse makes for a well-ordered, contented household. Gas Water-Heaters, whether of the instantaneous or Circular type, offer the convenience of available hot water "upstairs, downstairs, and in my lady's chamber,"—without any labour at all—Independently of the state of the kitchen fire.

FOR THE BATHROOM.
 An uncertain supply of hot water in the bathroom is a frequent cause of annoyance. Hot water can only be secured, usually, by getting the cook to act as stoker, but at what a cost! Think of the coal that is wasted—the fatigue of coal carrying—the stirring labour of grate cleaning—and the discomfort of a hot kitchen in warm weather! A Gas Water-Heater is economical, because it only heats the water actually required; and labour-saving, because there are no coals to carry, no fires to clean, no ashes or dirt to remove. The master of the house has hot shaving water and a hot bath whenever he wishes without delay or trouble.

HOT WATER FOR THE HOUSE-HOLD.
 When "Spring cleaning days" engross the busy housewife, the convenience of an unlimited supply of hot water on the upper floors is brought home to her with special force. But at all times—apart from convenience—a gas water-heater makes an irresistible appeal to the housewife from the point of view of dealing with the domestic problem. Latter-day domestic are difficult to keep unless due consideration is shown by saving them unnecessary drudgery—and in the category of unnecessary drudgery may be included the toil of carrying hot water or coal upstairs, the cleaning of grates and the removal of dirt and ashes. The gas water-heater renders such labour superfluous.—May 12, 1915.

permitted him to make this announcement thus confirming what has been often rumored but never officially substantiated.

RECOMMENDATION NOT ACCEPTED.
LONDON, July 15.
 A despatch from Cardiff to the Central News Agency says that the miners in conference by 180 to 113, have decided not to accept the recommendation of the Council to return to work.

GERMANY ADMITS NEBRASKAN WAS TORPEDOED.
WASHINGTON, July 15.
 Germany, in an official memorandum transmitted to-day from Berlin by Ambassador Gerard, admits that the American steamer Nebraskan was torpedoed by a submarine, expresses regret and readiness to make reparation, and assures the United States that the attack was not meant for the American flag, but is to be considered as an unfortunate accident. Secretary Lansing made public the German memorandum, which disposes of the question whether the Nebraskan was struck by a mine or torpedo. The German memorandum closes the incident, it was said, except as to payment of damages.

TAKES OVER COAL SUPPLIES.
CARDIFF, July 15.
 The British Admiralty has taken over all reserve supplies of coal.

LIMITING EXPORT OF COTTON.
LONDON, July 15.
 The British Government hopes shortly to limit the export of cotton to neutral countries, to the precise amount of the actual need. The Marquis of Crewe, Lord President of the Council, and Leader in the Lords, made the announcement to this effect in the Upper House this afternoon.

DENIES THE RUMOR.
WASHINGTON, July 15.
 A denial of the published reports that a German submarine used the American barque Normandy from which to sink the Russian steamer Lepus, was cabled to the State Department to-day by the United States Consul at Liverpool. The captain of the Normandy denied the report that his barque was stopped by a submarine, and allowed to proceed with some loss of her crew.

LOYAL FRENCH SOCIALISTS.
PARIS, July 15.
 The National Congress of the Socialist Party of France, at which all the Socialist members of the Cabinet

were present, to-day unanimously adopted extended resolutions renewing the unshaken confidence of the party in the cause of the Allies and of Republican France. The resolutions declared that the party sought with the remainder of the nation, and with the nations of the Allies, the liberation of the territory of heroic Belgium and of the invaded regions of France, as well as justice for Alsace and Lorraine.

WHITE STAR LINER BALTIC SAILS.
NEW YORK, July 15.
 As protection against gunfire from submarines and shells, sand-filled bags were piled along the decks of the White Star Liner Baltic, which sailed to-day for Liverpool, with 314 passengers and a full cargo. Unusual precautions were taken by the ship's officials to protect the Baltic. Prior to sailing, in addition to the usual guards, a cordon of detectives was thrown around the entire pier. No one, other than known members of the crew and identified passengers, were allowed within twenty feet of the ship. As a further precaution, the space between the decks were screened with heavy canvas.

BIG STRIKE THREATENED.
GENEVA, July 15.
 A report has reached Basel of a big strike threatened at the Krupp works at Essen in Germany. The movement is headed by the Union of Metallurgical Workmen and the Association of Mechanics. They demand higher wages because of the cost of living, and shorter hours because of the great strain under which they work. The workmen, according to these advices, are in an angry mood, and threaten destruction of the machinery unless their demands are granted, immediately, as they have been, put off for three months with promises. Several high officials have arrived at the Krupp works in an effort to straighten out matters and calm the workmen. Bertha Krupp is expected to visit the plant to use her great influence with the workers. According to news reaching Basel, she has warned the administration of the Krupp plant of the seriousness of the situation, and advised that the men's demand be granted. Meanwhile reports state that several regiments have been moved to the vicinity of the works, in the event of trouble resulting from the strike.

MEXICAN MATTERS.
WASHINGTON, July 15.
 State Department advices to-day report that General Madero was slightly wounded in a battle at Paredon, in which Carranza's troops under General Trevino, are reported victorious. Reports from Eagle Pass say that the Villa troops are falling back on Monclova.

Awkward for Him.
 Lord Kitchener tells a story of a sergeant of a company of British infantry quartered in a Dacot-infested district of Burma some years ago. "This man was a firm believer in destiny, and one evening, while he was getting ready to take a stroll outside the lines, he was seen to slip a revolver into his pocket. Another sergeant who persistently opposed the other's theory of everything being preordained and "fated," promptly tackled him. "Why are you taking that revolver with you?" he asked, jeeringly. "To shoot with," was the calm reply. "But if your time has come to die, you're always telling us nothing will save you," objected the other, "so what's the good of taking the revolver with you?" "Oh," replied the sergeant, wisely, "but look how awkward it would be if I met a Dacot whose last day had come, according to destiny, and I had nothing with which to shoot him."

FRIDAY, July 16, 1915.
 For those who go to the seaside, especially for ladies, a bathing cap is almost a necessity. Our Bathing Caps are made of a good rubber, and give substantial value. There are three or four different kinds. Come in and see them.
 Some people are peculiarly liable to throat colds and hoarseness caused by sudden and extreme changes of weather. We would recommend these people to keep a box of Pine Tree Lozenges at hand. These should be used on the approach of any difficulty in the throat or at the first sign of discomfort or hoarseness. Total loss of voice will often be entirely prevented by their use. Price 25c. a box.

TO THE STORE THAT SAVES YOU MONEY.

Ten Strong Reasons

Why You should Buy Your Furniture from us.

- 1st—We produce our own lumber which goes into the Furniture and saves considerable in cost.
- 2nd—We have the Surface Oak finish for our Furniture, which is the only thing of its kind in the country.
- 3rd—We import our own Coverings for our Parlour Suites, thus saving two duties, as most of the imported Suites come from Canada and the United States, and they have to import their coverings from France or some of the European countries, and pay duty into Canada or the States. We avoid the second duty by getting the Covering ourselves and having the frames made here.
- 4th—We have our Springs made from the wire by the only Weaver in the country; also the Oxford or Copper Wire Spring by machines too.
- 5th—We have our Mattresses made by machinery in our own building, the only machine of its kind in the country. It can produce 50 against 10 by hand, thus saving considerable in cost.
- 6th—We are producing the Excelsior or Wood Fibre and cutting the cost in two, which will mean considerable saving in the making of Mattresses.
- 7th—We are also selling agents for the celebrated Ideal Beds and Springs and sell at factory price.
- 8th—We also have the COMBINATION LATH and SPRING BED, the only thing of its kind in the country.
- 9th—Having the factory in the same building, we can handle all sizes all repairing; in fact you can choose your own Coverings for Parlour Suites, Mattresses, etc., and have it made to order.
- 10th—Our motto (last but not least) is to sell at the lowest possible prices, and despite the serious advance in prices all round, we are, where possible, reducing the prices, WHICH SHOULD APPEAL TO EVERY HOUSEKEEPER when in need of Furniture and Furnishings, as we now by arrangement work from the "Tree to the Home," thus cutting out all middlemen's profits.
