## Our Baseball Column.

PLAGIARISED AND OTHERWISE.

A meeting of the Baseball League has been called for Saturday night to make arrangements for the opening game on Wednesday afternoon. We understand elaborate preparations are being made to make it a gala day.

Mgr. French of the B. I. S. has discovered a young wonder in the person of Sergt. Kelly. Those who have seen him in action say he's a regular bird.

The Wanderers have booked up Billy Brown to go on the mound for them. During his three years at Toronto Billy studied baseball as well as other things.

The Hiltz crew are lying low but rumour hath it they intend to spring a surprise lineup on the Cubs next Wednesday. Last year's champs are not worrying however, and President Orr and his Cubs are more confident than a batch of trans-Atlantic fishes lamping a passenger hanging over the rail on the first day out.

Despite his previous assertions Doc Power has fallen for the warm weather and will don the green and gold again this year. The doctor takes an unholy delight in endeavouring to dent the ivory of base-runners who attempt to steal the old third sack from him.

With such able linguists as Hiltz, Orr, Hartnett, and French managing the teams, the umpires in our outfit have a delightful summer to which to look forward.

As eager statisticians grope amid the records and the dope, each one will loudly brag and show you reasons by the team that prove conclusively his team is sure to win the flag.

It's no longer good form to permit the ball to become sunburned in your hands before throwing it to retire a runner.

Some would be good ball players, only that they are in a trance from the Adam's apple up.

We know a pitcher who announces that he is going to trim Claude Hall this summer. The only way to trim Hall is to patch him with Jim Dempsey for ten rounds.

Do you remember when Wallace, playing first base for the Wanderers, saw a fly ball about to go over the fence, ran to the clubhouse, got a ladder, judged accurately where the ball would pass, set the ladder in the proper place, climbed the ladder, caught the ball as he reached the top, and started a triple play? NO!

Or, when the ground rules in the intertown series at Grand Falls were agreed upon so as to give the hitter "as far as he could get" on a blocked ball: St. Jenkins hit a drive that struck the "express" passing outside the park, went into the second class car, fell in the lap of a fat woman and was carried to Fort aux Basques; St. under the ground rule, kept on running, made seven home runs, and was only stopped when darkness settled down.

Or when Jack Angel, sitting on the bench at Stancombe's, saw a foul fly coming right down above him: he notified umpire Dench to announce: "Angel now catching in place of Duff," put on the mask, glove and pad, took three warm-up balls from the picture, and then caught the foul fly.

Or, When Doc Power, batting in the tenth inning of a desperate game, score 0 to 0, noticed a perfectly circular knothole in the left field fence, and knowing, with his wonderful accuracy of judgment that it would just admit the ball, drove a home run run through it, winning the game.

If you can't, it just shows how prone we are to forget great deeds.

Spike wounds may be entirely prevented by not going near anybody's spike's.

If I liked walking mile on mile, this Golf would be about my style; if I disliked my eyes and nose, I'd box and take a lot of blows; if in the surf I'd like to soak, I'd learn the crawl and trudge on stroke; if I were old and liked to doze, I might try chess or dominoes. But I can't see these sports at all—I'm watching for Fred to say "Play ball!" and I'll be there, Bo, if I crawl.

### Mount Cashel Fund.

At present only a third part of the building has been erected, but the foundation of the central portion is almost completed and it is hoped that sufficient money will be subscribed to defray the cost of building this section which is now an absolute necessity. Friends of the institution who have not already contributed are asked to kindly forward their subscriptions at their earliest convenience, as the list will be closed very shortly.

Contributions will be gladly received by Rev. Bro. Ennis; Hon. W. J. Ellis, Vice Chairman; C. J. Ellis, Treasurer; J. C. Pippy, Secretary, and the members of the committee.

### At the Majestic.

The week-end programme at the Majestic contains a great detective drama, produced in seven wonderful acts by the Selynick players entitled "The Argyle Case," with Robert Warwick in the leading role. This is one of the greatest detective stories ever attempted by a moving picture concern, and is classed as Robert Warwick's masterpiece. Its wonderful scene at Mr. John O'Reilly will be heard in his farewell song-to-night, as he is directed by his medical adviser to take a complete rest, so come and hear him as it is your last chance. New and appropriate airs all the time by the full orchestra.

### Fire Extinguished.

Minister of Mines and Agriculture Walsh received a message last evening that the forest fire which raged for two days along the Exploits River and threatened Badger, had been extinguished by rain during Wednesday night and yesterday afternoon.

### Nurse Dickinson Memorial.

In those sections visited by the members of the Ways and Means Committee yesterday, the response was most liberal, and in the sections which will be called at on Monday, it is anticipated there will be a like generous giving. The erection of a memorial to Nurse Dickinson, whose work is recognized by all, is an object that should meet with the support it merits.

### Legislators Dined.

His Excellency the Governor, Sir C. Alexander Harris, K.C.M.G., gave an official dinner at Government House last evening, to which members of both branches of the Legislature were invited. The guests included the Premier, Sir Michael Cashin; the President of the Legislative Council, Sir Patrick McGrath; the Speaker, Hon. W. J. Higgins, and Hon. J. R. Bennett, A. B. Morine, A. E. Hickman, W. Woodford, W. J. Ellis, M. P. Gibbs, J. G. Stone, J. B. Currie, and Messrs. W. J. Walsh and W. W. Halfyard.

### Shipping News.

The Stella Maris was reported yesterday as having reached Fogo, and the Earl of Devon is icebound further north.

The scho. Lina has arrived at Carbonear with a cargo of coal from North Sydney for J. Rourke & Sons.

When you want Steak, Chops, Cutlets and Collops, try ELIAS.

ARE YOU A GOOD

Are you a good purchasing agent for yourself? A man I know claims that titles and with justice I think.

This is what he bases the claim upon. When he is planning to buy anything of a major nature—a canoe, a watch, a trunk, an electric stove, he begins some-thing in advance to send for printed matter from the various firms which advertise the sort of article he is going to buy.

He Studied The Catalogues.

Take the matter of a watch. Having made up his mind to buy a wrist watch he read the ads. of various firms, noted what features they offered,—unbreakable crystals, luminous dials, adjustable straps, various jeweled movements, non-inflammable crystals, etc.—and at what prices. He sent for several catalogues studied what they had to say and then made up his mind just about what features he wanted and how much he wanted to invest. Then he went to the shop and looked at the various watches and told the clerk just what he wanted.

"Suppose," he said, "I had not looked into the subject at all. I would have probably gone into a shop and bought whatever the clerk chose to sell me (perhaps the one he got the biggest commission on.) Then later I'd have seen some feature that my watch didn't have and wished I could get that one instead. And it would be too late, of course."

He Wished He Had Known About It.

"Why, just yesterday," he went on, "I came into my office and saw my watch. 'That's a crackerjack!' he said and wanted to know where I got it and what I paid for it. I told him and he said, 'Gee, I paid within two dollars of that for mine and it isn't in it with yours. I wish I'd known about that one!'"

Take the matter of a canoe. He wanted a small canoe but was hesitating to get it on account of the

MUTT, JUST STOP ON THESE NEW GLASSES OF MINE. I WANT YOU TO LOOK THROUGH THEM.
