

The New Wall Papers ARE IN

Never before did we ever have such a fine lot of Spring Papers. There are many colorings which are "entirely new" and will decorate "that room alright."

Before you paper this season call in and look over our samples. You at least will gain some new ideas in decorating.

We have new pattern books picturing rooms finished in the latest manner.

We can secure a paper hanger for you if you wish.

TO DRIVE TO RAILWAY

French Successes in Champagne Only Preliminaries.

Gen. Joffre's Nibbling Tactics Are Expected To Result In a Marked Advance North of the Champagne District—French Forces Are Now In the Ascendant In the Argonne Region.

PARIS, Feb. 23.—Advances made by the nibbling tactics of Gen. Joffre in the Champagne district have been of considerable importance up to the present and the French armies are apparently getting in position for a grand drive forward to seize a railway a few miles to the north. The War Office last night reported the capture of a line of trenches and two woods on the Saubain-Beausejour front, the repulse of two strong counter-attacks and the capture of many prisoners. Heavy loss was inflicted on the Germans.

In the Argonne region, where for some time the two opposing forces were about evenly matched, the French have strengthened their forces of artillery and, together with their infantry, this has gained an ascendancy over the Germans who have been seriously harassed, particularly near Fontaine aux Charnes, Marie Therese and Bolont. Between the Argonne forest and the Meuse river the French have made increased progress in Choppywood and have also consolidated their new positions.

Les Eparges, which has been the scene of some French progress of late was the base of fresh French attacks, which gained for them almost the whole of the German positions to the southeast of Combres. This town has now been brought under artillery fire and is being battered to pieces preparatory to the making of a general advance on it. The Germans attempted to cut off the French force here from this support by attacking Bois-Buchet, to the south, but they were beaten off. The French captured

a trench from them at Bois-Boule, in the Apremont forest. In Alsace the greater part of the village of Stessweiler has been captured from the Germans after an all-day fight. The outskirts had been occupied the preceding day by the French.

DIDN'T TELL THE TRUTH.

German Officer Felt It Wasn't Incumbent Upon Him To Do So.

TORONTO, Feb. 23.—The charge against Emil and Mrs. Nerlich was reduced from that of "high treason" to "conspiracy to commit an indictable offence" when the trial opened before Chief Justice Sir William Muirlock in the Criminal Assize Court yesterday. This change in the form of the indictment, as Mr. Du Vernet pointed out, while changing the penalty for the offence from that of death to imprisonment, did not change the character of the evidence.

The most startling development in yesterday's proceedings was when Arthur Zirzow, former lieutenant in the German army, called into the witness box, contradicted most of his testimony given in the preliminary investigation in the police court. Zirzow "explained" that in the police court he did not think it incumbent on himself to tell the truth because he had not taken the German oath. He was brought into court by an armed guard of two men and an officer with drawn sword and bayonets fixed.

To Bore Iron.

The following method is said to be effective when one has not the proper tools for making a hole in an iron plate:

Shape a stick of sulphur to the required dimensions of the hole, then heat the iron white hot at the place where it is to be bored and press the sulphur against it. Sulphur of iron is formed, and the stick passes through the metal.—Exchange.

Wasted Energy.

"That's what I call wasted energy," said Billson. "What is it?" asked Jillson. "Two girls kissing each other."—Livingston Lance.
