A CONSERVATIVE PAPER PRO-TESTS.
(Sherbrooke Gazette, Conservative)

We should be recreant to the prisciples of the Liberal-Conservative party were we to abstain from showing our disguest that men, some of whom should justly be held responsible to a certain extent for the proved corruption at Ottawa, are still retained in power. There is reasonable ground for belief that their negligence, to put it mildly, afforded opportunity for the commission of crimes. How can Mr. Abbott er Sir John Thompson expect the Liberal-Conservative press to denounce intercierism at Quebec while he condones rescality at Ottawa? He justly lays himself open to a charge of complicity. We are storry to be obliged to speak thus plainly fout in the interest of truth, justice and merality it is of the Liberal-Conservative party we obliged to speak thus plainly, but in the interest of truth, justice and me railty it is necessary to be plain when the leaders prove talse. When the members of the Conservative party next meet Mr. Abbott in caucus we hope and trust they will not be backward in telling him plainly that his course is distanteful to the people and the party and will be disastrous to the Dominion.

BOYS WITH PISTOLS Ten-Year-Old Urchin Threatens to Shoot His Teacher-Thirteen Scholars with Revolvers.

Scholars with Revolvers.

Lansing, Mich., Feb. 22.—At the Townshad street school, one of the teachers, Miss McHenry, had occasion to punish a 10-year-old pupil named Guy Cottington, son of Levi Cottington. She had struck him twice across the legs with a ruler and was preparing to hit him a third time, when he reached around to his hip pocket and pulled out a revolver. Pointing the weapon at his teacher, he said if she struck him again he would shoot her.

After a slight struggle Miss McHenry succeeded in taking the revolver from the boy before it was discharged. The principal was summoned and he was given an awful trouncing. Guy was asked if he really intended to shoot Miss McHenry when he pointed the weapon at her.

pointed the weapon at her.
"I don't know," he said, "I was awfully

mad."
A canvass of the school was made and thirteen boys of tender age were found who owned revolvers and who are accustomed to carry them at different times. Three of the boys continually go armed. Cigarette smoking was also found to be astonishingly prevalent.

Giv.wers Could Enlarge Their Product.

New York, Feb. 22.—P. B. Armstrong, who has gone to California to form a great fruit trust, has publicly given an outline of his project. The investment is estimated at \$50,000,000, to be divided into sharer of \$100 each, proprietors of land to be entitled to subscribe in proportion to the value their property bears to the whole. It is proposed to issue a first mortgage bom/ bearing not to Mexceed 8 per cent. interest, redeemable if desired by the corporation after ten years and payable in 30 years, the bonds to be issued for an amount equal to 33½ per cent. of the capital. This plan, it is computed, will give the fruit growers of California from \$15,000,000 to \$120,000,000 to enlarge the product of the futter of tooks and bonds listed on the New York Stock Exchange. Mr. Armstrong points out that the plan would equalize returns to producers when certain sections suffered from drought, wet or vermin. Product.
