There is nothing mysterious about the success of our Millinery Department, It has come easily, naturally. People have learned to know that we can and do save them money on everything they buy, and they come because they are satisfied we have milliners who know their business, and whose artistic touches transform plain enough articles into becoming and beautiful styles. That's the whole story in a nutshell. That's the reason why we do the biggest part of the millinery trade. That's why you should consult with our experts about

Gloaks and Mantles.

It's simply wonderful the number of Cloaks and Mantles that have already gone out. Our stock is too well and carefully selected to stick. We have a stylish garment for everybody, but not the same style for everybody. You don't want anything common. The feature of our stock is style-novelty.

TRANSPOSING PIANO THIS is an instrument that

serves a peculiar and valuable purpose, especially in vocal music. With it any player can just as easily play any piece in all the other keys as in the original key, and any singer can sing any song in exactly that key in which the voice sounds best. This adds great value to these instruments which in all other respects are unsurpassed by any. Any child can operate the movable keyboard, and it cannot be child can operate the movable gotten out of order.
