pal feature of today's market was the teakness of Pennsylvania. It was thought on the floor that a large proportion of the orders were given out by prominent bear operator, but close obervers of the stock were satisfied that he decline had caused a good deal of ignidation, and had stirred up a number t stop orders. When Pennsylvania was covering movement took place ing builted States Steel, preferred, caus-ing an advance of over I per cent, a large ng ag advance of over I per cent, a large portion of which was lost before the close. In fact, the market generally declined during the last half-hour to a level obelow flast night's prices. The bank estatement was thought to be on the whole satisfactory. The estimates of the news agencies regarding the currency movement proved to be correct. The observe as of loans of \$1,000,000 was welcomed, as was also the increase in the surplus reserves of some \$1,700,000. The surplus is now some \$8,000,00, which is \$250,000 below last year, but \$2,500,000 May 6 65 S.Ribs—Jan 6 10 May 6 25 ianger than two years ago. The puzzling itm was again specie. There was only numincrease of \$722,000, in spite of the importations of gold which have been made dand the question again arises as to where the \$14,000,000 of gold which has been imported during the past mouth has gone. During that period the oanks have actually lost specie. In the dan crowd, there was active demand for United States Steel, preferred, but free offerings were made of other stocks.

As to the future of the stock market, we not of the opinion that any permafeeling of anxiety in regard to the earnings of the Steel Corporation are set at rest. Current estimates of the earnings
