ONE-SIDED SCORE.

The St. John's A. C. achieved its first victory last night. There was no special brilliancy about the game, but the Saints, whom people about the city have started to look upon with suspicion, because of their recent defeats, won by a score of 6 to 1, and did it fairly and after a hard fight. Exeter has a pretty fast team and they play aggressively every minute. The Saints, however, were more than a match for erston, resulting in a score of 7 to 4 them, and the way the game was go- in favor the home team. ing could be seen from the start. Woolley played a magnificent game for London. Although a light man, he plays up well with the front, and when goals were scored there was generally a good slice of the credit due him. The rest of the forwards did well. James, the new man, was on the right wing, or, at least, supposed to be. He didn't stick to the job as well as he might and was inclined to be slow. He would make a better defense man. Thompson, on cover point, made a good showing in his first game. He checked in good style, and showed that he could lift and shoot well.

The goals scored in the second half were three in number. McMahen and Casselman worked well, and O'Malley, on point, made a couple of good rushes. In goal, Taylor had considerable work, and he did well. The Exeter goal man THE TURF. was ever on the alert, and was always busy, owing to the rushing of the Londoners on his territory. Taking it as a whole the game was a fair one, with little science, but plenty of scrappy

There was little chance for combina-

tion in the game, so closely did the players check each other. Both teams showed up well from the time they jumped on the ice. Berlin had a great defense, and the Aberdeen forwards had their troubles when they went against them, but the Berlins met with the same difficulty. With West and Taylor and Leddy, in goal, the fast visitors were given very little chance J. Weir, to shoot, which they certainly could do skip.........

The backers of the local team did not give up hope until the last. The score was 1 to 1 at half-time, and the visitors landed the winning goal just at the start of the last half. Tommy Lawlor put up a fine line of hockey, and Dominie, a new man from Ingersoll, was conspicuous for his hustling. J. Lawlor showed up well. In the second half he went back to cover point, and it looked as if that was his best place. He certainly blocked and checked with good results. Just before the game the Aberdeens made Siebert, of the Berlins, take an

affidavit that he was not a professional. It was said that he played with Houghton, Mich. The referee gave excellent satisfaction, and very little bad work got past

She is willing to settle a away the dirt that was taken out of certain sum on the writer annually, the ditch and dump it on the desert; that will keep the wolf from the door, then it was used to transport supplies from one point on the canal to another; and finally, when Port Said became a great port of entry for passengers, the rails were relaid, the track was ballasted and diminutive trains were put on hauled by locomotives that look like toys, but do their business promptly and well.

It is comparativiz easy to build a railway in this section of Egypt, because there are no rains, no frosts, no rocks, no grade, no curves and no obstructions but hillocks of sand.
