Both workshop and stable were levelled to the ground at a loss of about \$100,000.

## CHARGES CAPITAL MISAPPROPRIATED

Sensational Charge in Connection With Cement Merger.

## COMMITTEE HOLDS UP BILL

Sir Sanford Fleming, Former President of Company, Makes Starting Assertion.

Ottawa, Ont., May 12.—Sensational charges in connection with the Canadian cement merger were made today in the Commons private bills committee in a letter from Sir Sanford Fleming, who has resigned the presidency of the company, to the effect that a "certain gentleman" and his associates should account for \$13,000,000 of watered stock alleged to have been secured improperly and "by artifice in guise of law."

Sir Sanford's bombshell came in a letter in connection with the company's effort to secure power to create \$11,000,000 of debenture stock to be exchanged for preference shares.

S. J. F. Orde, K. C., for the company, said the securing of the stock referred to by Sir Sanford was a perfectly legal deal.

After Hugh Guthrie had protested that there should be more time given for the consideration of the bill on account of its importance, and Mr. Tupper had protested that this was a merger which should not be passed lightly, while Mr. Crosby and rather favored the bill, the chairman, Mr. Smith, said that he had some correspondence to read.

The first letter was from Sir Sanford Fleming, which in part was as follows: "As president of the International Cement Company at Hull, and associated with other cement companies up to the time of the formation of the Canadian Cement Company on Sept. 10, 1909, I feel it a duty which I owe to thousands who are situated as I am, the holders of 7 per cent preference stock of the Canadian Cement Company, to warn them against the passing of a bill which has been introduced into parliament, and has for its object to create an issue of \$11,000,000, 6 per cent debenture stock to take the place of \$11,000,000, 7 per cent cumulative preference stock now outstanding."

Sir Sanford went into the history of the Canadian Cement Company, which, he said, was a merger of eleven companies with a capital of thirty millions, of which eleven were preference.

Mr. Smith stated that three documents were before the meeting. One was the resignation of Sir Sanford as honorary president of the Canadian Cement Company. Another was a copy of a letter which had been sent to each director, and another was an appeal to Sir Wilfrid, to have a searching examination made into the matter.

In these documents will be found evidence to establish that an extraordinary misappropriation of capital has been effected through an intermediary agency at the very inception of the Canadian Cement Company, and that such misappropriation was effected by a deliberate artifice under the guise of a bona fide business transaction.

Moreover, as a result, the first act of wrongdoing appears to have led to the necessity of seeking power from parliament to substitute 6 per cent debenture stock for 7 per cent preference.

"It will be seen," the letter continued, "that through an intermediary agency large amounts have been appropriated and not accounted for."

SEE BENEFITS IN RECIPROCITY  
Large Meeting of Tillsonburg Citizens Indorses Pact.  
LUCID ARGUMENTS MADE

Messrs. Schell and Miller Address a Gathering of Liberals on Trade Agreement.

Tillsonburg, May 12.—"That this meeting of citizens of Tillsonburg and surrounding country hereby desire to express our entire approval of the agreement for reciprocal trade between Canada and the United States, believing that it will be of great benefit in giving us a free entrance to a market of ninety millions for our agricultural products, which we want to buy, and a removal of the duties on those products which we want to buy from them, thus adding to the wealth, prosperity and development of the country as a whole, benefiting alike our farmers, manufacturers and consumers."

The above resolution was unanimously passed by a large and enthusiastic gathering of Tillsonburg citizens at Tillsonburg tonight, and the majority of those present representing the Tillsonburg, the future and lucid arguments presented by Mr. M. S. Schell, the representative of Tillsonburg, and Mr. H. Miller, of South Grey, in favor of the reciprocal measure introduced by the Government of Sir Wilfrid Laurier, were in strong contrast to the opposition and blue predictions made by Conservative speakers here some time ago. The arguments were practical, and to the audience, showed how reciprocity would benefit to ourselves, and in turn, would benefit to the country as a whole. In natural products, Canada into the Republic of the United States.

Both speakers devoted their entire time to the discussion of the reciprocity measure, and were listened to with the closest attention. Although opposition speakers were invited, none were present. The reciprocity measure was presented by the Liberal speakers.

Mr. W. H. Holmes, president of the South Grey Liberal Association, occupied the chair. Mr. T. R. May, secretary, was present and spoke a local House, was present and spoke a local House, was present and spoke a local House.

Convention Votes Against a Flat Rate for Continent.  
Toronto, May 13.—The Order of Railway Telegraphers yesterday defeated a resolution to alter the system of making agreements with the railway companies by dividing the country into districts, for each of which a flat wage should prevail. At present the wage scale is negotiated with each telegraph company individually. It is a railway company proposition to construct a headquarters building will be taken up today.

## A STRIKING EULOGY OF DEAD PRELATE

Sermon of Bishop Fallon Over the Bier of Archdeacon McEvay.

Toronto, May 12.—At the funeral of Archbishop McEvay today the Right Rev. Bishop Fallon preached the sermon, taking as his text the words, "You have not chosen me, but I have chosen you and ordained you, that you should go forth and bring forth fruit and that your fruit should remain." St. John, chap. 15, verse 16.

He said the vocation of a child for the priesthood was one of the most mysterious creations of Divine Providence. The child who heard the voice became changed in heart. His ideas and ambitions changed; to his friends he was an altered being. To his mother and father, once his thoughts became known, the son became divine. For him they were ready to make themselves poorer than the poorest, that their son, being chosen, might go on.

"Oh, brethren, what a thing this is when God himself comes down into a young human heart, and the glory of God's house becomes your glory."

"Such a one is surrounded by holy, competent guides, which watch every step. To his comrades he becomes an object almost of veneration. Such a boy was Fergus Patrick McEvay. He was a boy upon whom God's hand had rested in love. He sent the family company, the future and lucid arguments presented by Mr. M. S. Schell, the representative of Tillsonburg, and Mr. H. ## SUNSHINE FURNACE

The Sunshine is differently and better constructed than common furnaces. It's stronger, safer, more healthful.

The dome, the two sections of the fire-pot and the frame of the ash-pit are all securely fastened together by our famous "cup joint." Three "cup joints" in all, you see.

All sections, you will notice, fit together perfectly, and are lined with a layer of asbestos cement, which unites them so firmly together that they become, in every position, one solid piece of metal. Can never slip or fall apart.

And that's not all! The top of the dome is fastened to the sides with cement and boiler rivets, making the Sunshine just as smoke, gas, heat and dust tight as a steam boiler. From a hygienic standpoint it takes precedence in the furnace world.

Notice, too, the Sunshine is equipped with an automatic gas damper. This damper automatically opens when the gas in the furnace reaches a certain pressure and allows it to escape up the chimney. Eliminates all danger of an explosion or gas escaping through the registers.

Safest as well as most healthful, easiest managed, cleanest, greatest labor-saving and fuel-economizing furnace you can buy.

If your local dealer does not handle the Sunshine write direct to us for free booklet.

**How to Destroy the Dandruff Germ**  
BY A SPECIALIST.  
That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature grey hair, is a well-known fact, but when we realize that it is also fatal, when it reaches the blood, and is indirectly responsible for many of the worst cases of catarrh and other diseases, we appreciate the importance of an agent that will destroy its power. We give herewith the prescription which an eminent scientist states he has found after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also cause the growth of your hair to be renewed. This prescription will put it up for you. O Lord, let perpetual light shine upon him, and may his soul and the souls of all the faithful departed rest in peace.

As though addressing the body, he said: "Fergus Patrick McEvay, once Bishop of London, late Archbishop of Toronto, now and forever a Bishop of the Church of Jesus Christ, farewell from all of us until we meet again with God in heaven."
