The Live a Little Longer Idea

N Rochester, N.Y., there has been formed an association the object of which is to promote the "Live a Little Longer" idea. It aims to encourage men and women to give attention to their health, and by preventive methods to avoid serious disease and add years of happiness to their lives.

This idea is suited to people of all ages, but seems particularly applicable to persons of advancing years who feel their vitality on the wane. It is truly wonderful what is accomplished by Dr. Chase's Nerve Food under these circumstances.

By forming new, rich blood, and nourishing the starved, wasted nerve cells, it instils new life and vigor into the vital organs and enables them to perform their natural functions.

This means new strength and comfort, freedom from pain and disease, and longer life. This letter gives you some idea what old people may expect from the use of Dr. Chase's Nerve Food Mrs. Sophia Baker, Tancook Island, Lunenburg

Co., N.S., writes :—"I have been reading about people who have been cured by Dr. Chase's medines, and as I have obtained great benefit from the use of Dr. Chase's Nerve Food I want to tell you my experience. I am an old woman of 80 years. My sleep was very poor, I could not est anything, and my nerves were in a bad state. Hearing about the Nerve Food, I decided to use it, and must say that the five boxes I took helped me wonderfully. I never expect to be like I was at 50, but this treatment has helped me to sleep well, improved the appetite and built up the nerves. Anyone whe wishes can write to me for full par-

50 cents a box, 6 for \$2.50, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappoint.
