"We know." he said today, "that there is really no difference between a military air machine and a camouflaged commercial aeroplane. It is only a question of whether passengers or bombs are carried. If we disarm Germany in the air and on land as thoroughly as England has disarmed her on the seas, there will be no danger, but today we are right in fearing the gravest results of this neglect on our part, for the Germans are able to turn out three or four thousand aeroplanes monthly of a type which is convertable for military purposes."

M. Fonck has gathered evidence of Germany's unprecedented activities in aviation since the armistice, particularly regarding the use of light alloys in couplings and motors and of air compressor appliances for the highest altitudes.

#### Watch Your Gums-Bleeding a Sign of Trouble

Medical science knows how serious is the sign of bleeding gums. For it knows that tender and bleeding gums are the forerunners of Pyorrhea, that dread disease which afflicts four out of five people over forty.

If the disease is unchecked, the gum-line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system of the Pyorrhea poisons which seep into the system and wreck the health. These poisons often cause rheumatism, nervous disorders, anaemia, and other ills.

To avoid Pyorrhea, visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult your dentist immediately for special treatment.
