You are better without poultry if you are not feeding them properly and caring for them. Use lice destroyers freely and spray your coops and pens twice a month during the warm weather. You cannot afford to feed vermin. They use up profits and destroy chicks. We have a LINE OF FEEDS suitable to feed from the time your chicks are hatched till they are fully grown. Call in and look them over. It will mean money to you if you use them. We consider it a pleasure to show you these feeds. Our Poultry Developer is the proper feed to fit in after Baby Chick Feed.
